

limited detail with which they are known at present. Three programmatic alternatives are described—No Action, Proposed Action, and Alternative 1—and their potential environmental effects are assessed in fairly general terms. At such time as a given specific project of detailed dimensions and scale is proposed at a specific location, and is in the process of being reviewed and approved, the FPEIS can serve as a master NEPA document to which future NEPA compliance documents may be “tiered”. That is, having already been addressed at a programmatic level, the action or project can incorporate discussion from the broader FPEIS by reference and focus on the issues specific to the subsequent tiered proposal. Ideally, this will serve to expedite the environmental review process and facilitate project approval, funding, and implementation. The FPEIS provides an overview of the affected environment at and near the Kennedy Space Center and the potential environmental consequences associated with the Proposed Action and alternatives. There would be a number of direct and indirect adverse impacts but none that are considered to be significantly adverse. Beneficial impacts would also occur. Under each of the three alternatives evaluated, NASA would continue to work closely with its partners, including the U.S. Fish and Wildlife Service, National Park Service, Federal Aviation Administration, Space Florida, Cape Canaveral Air Force Station, U.S. Army Corps of Engineers, and state agencies.

Of the three alternatives considered in the FPEIS, NASA prefers Alternative 1. This alternative would allow for implementation of the CMP while at the same time protecting natural resources and the environment to a greater extent than the Proposed Action.

As a result of comments received during internal and external (public) scoping, NASA developed three alternatives that are assessed in this FPEIS. Under the first of these, the Proposed Action, KSC would transition to a multi-user spaceport. A number of new land uses are proposed, including two seaports and horizontal and vertical launch and landing facilities. There would be changes in the acreage of existing designated land use categories at KSC. Alternative 1 was crafted as a direct response to concerns expressed in comments received during the PEIS public scoping period in June 2014, as well as other observations and data acquired from stakeholders and other agencies during the scoping process. Alternative 1 is similar to the Proposed Action in many regards, but is

differentiated in several key respects, primarily, differences in the siting and size of vertical and horizontal launch and landing facilities. Also, the two new seaports would not be constructed.

In the No Action Alternative, KSC management would continue its emphasis on dedicated NASA Programs and would not transition in the coming years towards a multi-user spaceport. Rather, each NASA Program would continue to be operated as an independent entity to a significant degree, to be funded separately, and to manage activities and buildings in support of its own program. There would continue to be a limited non-NASA presence at KSC. Under the three PEIS alternatives, there would be differences in the sizes of the areas of designated land uses at KSC. These varying acreages are a function of the different emphases, priorities, and projects of the three PEIS alternatives. Only in the recreation and water categories are the acreages identical in all three alternatives.

The FPEIS assesses potential environmental impacts for all three alternatives under the topics of soils and geology, water resources, hazardous materials and waste, air quality, climate change, noise, biological resources, cultural resources, land use, transportation, utilities, socioeconomic, recreation, environmental justice, and protection of children.

Cheryl E. Parker,
Federal Register Liaison Officer, Mission Support Directorate.

State, Local, Tribal, and Private Sector Policy Advisory Committee Meeting

AGENCY: Information Security Oversight Office (ISOO). National Archives and Records Administration (NARA).

ACTION: Notice of Federal Advisory Committee Meeting.

SUMMARY: In accordance with the Federal Advisory Committee Act, NARA announces an upcoming State, Local, Tribal, and Private Sector Policy Advisory Committee (SLTPS–PAC) meeting.

DATES: The meeting will be on January 25, 2017, from 10:00 a.m. to 12:00 p.m. EDT.

ADDRESSES: National Archives and Records Administration (NARA); 700 Pennsylvania Avenue NW., Jefferson Room; Washington, DC 20408.

FOR FURTHER INFORMATION CONTACT: Robert J. Skwirot, Senior Program Analyst, ISOO, by mail at National Archives Building; 700 Pennsylvania Avenue NW., Washington, DC 20408, by telephone at 202.357.5398, or by email at robert.skwirot@nara.gov. Contact ISOO at ISOO@nara.gov.

SUPPLEMENTARY INFORMATION: The meeting’s purpose is to discuss matters relating to the Classified National Security Information Program for State, Local, Tribal, and Private Sector entities. This meeting is open to the public. However, due to space limitations and access procedures, you must register in advance if you wish to attend the meeting. Submit your name and telephone number to ISOO at the contact information above no later than Wednesday, January 18, 2017. ISOO will provide additional instructions for gaining access to the Jefferson Room.

Authority: 5 U.S.C. app 2.

Patrice Little Murray,
Committee Management Officer.
