ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, OMB. Comments should be addressed to Desk Officer, Department of Homeland Security/TSA, and sent via electronic mail to oira_submission@OMB.eop.gov or faxed to (202) 395–6074.

FOR FURTHER INFORMATION CONTACT:
Christina A. Walsh, TSA PRA Officer, Office of Information Technology (OIT), TSA–11, Transportation Security Administration, 601 South 12th Street, Arlington, VA 20598–6011; telephone (571) 227–2062; email TSAPRA@tsa.dhs.gov.

SUPPLEMENTARY INFORMATION:

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation is available at http://www.reginfo.gov. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

1. Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency’s estimate of the burden;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

SUPPLEMENTARY INFORMATION: In accordance with 24 CFR part 581 and section 501 of the Stewart B. McKinney Homeless Assistance Act (42 U.S.C. 11411), as amended, HUD is publishing this Notice to identify Federal buildings and other real property that HUD has reviewed for suitability for use to assist the homeless. The properties were reviewed using information provided to HUD by Federal landholding agencies regarding unutilized and underutilized buildings and real property controlled by such agencies or by GSA regarding its inventory of excess or surplus Federal property. This Notice is also published in order to comply with the December 12, 1988 Court Order in National Coalition for the Homeless v. Veterans Administration, No. 88–2303–OG (D.D.C.).

Properties reviewed are listed in this Notice according to the following categories: Suitable/available, suitable/ unavailable, and suitable/to be excess, and unsuitable. The properties listed in the three suitable categories have been reviewed by the landholding agencies, and each agency has transmitted to HUD: (1) Its intention to make the property available for use to assist the homeless, (2) its intention to declare the property excess to the agency’s needs, or (3) a statement of the reasons that the property cannot be declared excess or made available for use as facilities to assist the homeless.

Properties listed as suitable/available will be available exclusively for homeless use for a period of 60 days from the date of this Notice. Where
property is described as for “off-site use only” recipients of the property will be required to relocate the building to their own site at their own expense.

Homeless assistance providers interested in any such property should send a written expression of interest to HHS, addressed to: Ms. Theresa M. Ritta, Chief Real Property Branch, the Department of Health and Human Services, Room 5B–17, Parklawn Building, 5600 Fishers Lane, Rockville, MD 20857, (301)-443–2265 (This is not a toll-free number.) HHS will mail to the interested provider an application packet, which will include instructions for completing the application. In order to maximize the opportunity to utilize a suitable property, providers should submit their written expressions of interest as soon as possible.

For complete details concerning the processing of applications, the reader is encouraged to refer to the interim rule governing this program, 24 CFR part 581.

For properties listed as suitable/to be excess, that property may, if subsequently accepted as excess by GSA, be made available for use by the homeless in accordance with applicable law, subject to screening for other Federal use. At the appropriate time, HUD will publish the property in a Notice showing it as either suitable/available or suitable/unavailable.

For properties listed as suitable/unavailable, the landholding agency has decided that the property cannot be declared excess or made available for use to assist the homeless, and the property will not be available.

Properties listed as unsuitable will not be made available for any other purpose for 20 days from the date of this Notice. Homeless assistance providers interested in a review by HUD of the determination of unsuitability should call the toll free information line at 1–800–927–7588 for detailed instructions or write a letter to Ann Marie Oliva at the address listed at the beginning of this Notice. Included in the request for review should be the property address (including zip code), the date of publication in the Federal Register, the landholding agency, and the property number.

For more information regarding particular properties identified in this Notice (i.e., acreage, floor plan, existing sanitary facilities, exact street address), providers should contact the appropriate landholding agencies at the following addresses: AGRICULTURE: Ms. Debra Kerr, Department of Agriculture, Retirees Building, 300 7th Street SW., Room 300, Washington, DC 20024, (202)-720–8873; COE: Mr. Scott Whiteford, Army Corps of Engineers, Real Estate, CEMP–CR, 441 G Street NW, Washington, DC 20334; (202) 761–5542; INTERIOR: Mr. Michael Wright, Acquisition & Property Management, Department of the Interior, 3960 N. 56th Ave. #104, Hollywood, FL. 33021; (443) 223–4639 (These are not toll-free numbers).

SUPPLEMENTARY INFORMATION:
Introduction
With this notice, we finalize the CCP process for Chincoteague NWR and Wallops Island NWR. We began this process through a notice of intent in the Federal Register (75 FR 57056) on September 17, 2010. For more about the initial process and the history of the refuges, see that notice. On May 15, 2014, we announced the release of the draft CCP/Environmental Impact Statement (EIS) to the public and requested comments in a notice of availability in the Federal Register (79 FR 27906). We subsequently extended the public comment period in another notice in the Federal Register (79 FR 41300) on July 15, 2014. We released the final CCP/EIS for public review on September 11, 2015 (80 FR 54799).
In the draft and final CCP/EIS, we evaluated three alternatives for managing the refuge and completed a thorough analysis of the environmental, social, and economic considerations of each alternative. Based on comments received on the draft CCP/EIS, we made minor modifications to alternative B, the Service’s preferred alternative in the final CCP/EIS. During the public review period for the final CCP/EIS, we did not receive any comments that raised significant new issues, resulted in changes to our analysis, or warranted any further changes to alternative B.
In accordance with NEPA (40 CFR 1506.6(b)) requirements, this notice announces our decision to select alternative B for implementation and the availability of the ROD and final CCP for Chincoteague NWR and Wallops Island NWR. The final CCP will guide our management and administration of the refuges over the next 15 years.
Background
The National Wildlife Refuge System Administration Act of 1966 (16 U.S.C. 668dd–668ee) (Refuge Administration Act), as amended by the National Wildlife Refuge System Improvement Act of 1997, requires us to develop a CCP for each NWR. The purpose for developing a CCP is to provide refuge managers with a 15-year plan for achieving refuge purposes and goals and contributing to the mission of the National Wildlife Refuge System (Refuge System). CCPs should be consistent with sound principles of fish and wildlife management, conservation, legal mandates, and our policies, as well as respond to key issues and public concerns. In addition to outlining broad management direction on conserving wildlife and their habitats, CCPs identify wildlife-dependent recreational opportunities available to the public, including opportunities for hunting, fishing, wildlife observation and photography, and environmental education and interpretation. We will review and update the CCP at least every 15 years, in accordance with the Refuge Administration Act.
CCP Alternatives
During the scoping phase of the planning process, we identified issues and concerns based on input from the public, State or Federal agencies, other Service programs, and our planning team. We developed refuge management alternatives to address issues; help achieve refuge goals, objectives, and purposes; and support the Refuge System mission. Our draft CCP/EIS (79 FR 27906) and final CCP/EIS (80 FR 54799) fully analyze three alternatives for the future management of the refuge: (1) Alternative A, Current Management; (2) Alternative B, Balanced Approach; and (3) Alternative C, Reduced Disturbance. Alternative A satisfies the NEPA requirement of a “No Action” alternative. Both the draft and final plans identify alternative B as the Service-preferred alternative. Please refer to the final CCP/EIS for more details on each of the alternatives.
Basis for Selected Alternative
Our decision is to adopt alternative B, as described in the final CCP. We provide a brief summary of our decision below. For the full basis of our decision, please see the ROD (see ADDRESSES).
The decision to adopt alternative B for implementation was made after considering the following factors: (1) The impacts identified in Chapter 4, Environmental Consequences, of the draft and final CCP/EIS; (2) The results of public and agency comments; (3) How well the alternative achieves the stated purpose and need for a CCP and the seven goals presented in the final CCP/EIS chapter 1; (4) How well the alternative addresses the relevant issues, concerns, and opportunities identified in the planning process; and (5) Other relevant factors, including fulfilling the purposes for which the refuge was established, contributing to the mission and goals of the Refuge System, and statutory and regulatory guidance. Compared to the other two alternatives, alternative B includes the...
