The National Marine Fisheries Service (NMFS) manages the shrimp fishery in federal waters of the Gulf of Mexico (Gulf) under the Shrimp Fishery Management Plan (FMP). Regulations implementing the FMP require owners and operators (permit holders) of federally permitted shrimp vessels, if selected by NMFS, to carry an electronic logbook (ELB) on their vessel and participate in the NMFS-sponsored electronic logbook reporting program. ELBs provide a more precise means of estimating fishing effort than paper logbooks. Using ELBs to estimate fishing effort serves an important role to help estimate bycatch across the Gulf shrimp fleet.

Affected Public: Business or other for-profit organizations.

Frequency: On occasion.

Respondent's Obligation: Mandatory.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved information collection. Regulations at 50 CFR 648.84(a),(b), and (d), 648.123(b)(3), 648.144(b)(1), 648.264(a)(5), and 697.21(a) and (b) require that Federal Fisheries permit holders using certain types of fishing gear, mark the gear with specified information for the purposes of vessel and gear identification (*e.g.*, hull identification number, Federal fishing permit number, etc.). The regulations also specify how the gear is to be marked for the purposes of visibility (*e.g.*, buoys, radar reflectors, etc.).

The quantity of gear in this collection is distinguished by the number of attached end lines associated with each string of hooks, pots, or traps. As such, a single Federal permit holder may be responsible for marking several strings of a given gear type, or may use multiple different gear types that require marking. These gear marking requirements aid in fishery law enforcement, make the gear more visible to other vessels to aid in navigation, and provide other fisherman with information regarding the gear type being used to help prevent gear conflicts.

II. Method of Collection

No information is submitted to the National Marine Fisheries Service (NMFS) as a result of this collection. The vessel's hull identification number or other means of identification specified in the regulations must be affixed to the buoy or other part of the gear as specified in the regulations.
