SUPPLEMENTARY INFORMATION:

Title: FERC–551, Reporting of Flow Volume and Capacity by Interstate Natural Gas Pipelines

OMB Control No.: 1902–0243

Type of Request: Three-year extension

The posting requirements are based on the Commission’s authority under section 23 of the NGA (as added by the Energy Policy Act of 2005, EPAct 2005), which directs the Commission, in relevant part, to obtain and disseminate “information about the availability and prices of natural gas at wholesale and in interstate commerce.” This provision enhances the Commission’s authority to ensure confidence in the nation’s natural gas markets. The Commission’s market-oriented policies for the wholesale natural gas industry require that interested persons have broad confidence that reported market prices accurately reflect the interplay of legitimate market forces. Without confidence in the efficiency of price formation, the true value of transactions is very difficult to determine. Further, price transparency facilitates ensuring that jurisdictional prices are “just and reasonable.”

The posting for FERC–551 occurs on a daily basis. The data must be available for download for 90 days and must be retained by the pipeline for 3 years.

The Commission uses the daily posting of information by interstate pipelines to provide information regarding the price and availability of natural gas to market participants, state commissions, FERC, and the public. The postings contribute to market transparency by aiding the understanding of the volumetric/availability drivers behind price movements and it provides a better picture of disruptions in interstate natural gas flows.

Type of Respondents: Interstate Natural Gas Pipelines.

Estimate of Annual Burden: The Commission estimates the annual public reporting burden for the information collection as:

2 See sections 4 and 5 of the NGA, 15 U.S.C. 717c and 717d.
3 Burden is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, refer to 5 Code of Federal Regulations 1320.3.
