SUPPLEMENTARY INFORMATION:**I. Abstract**

The Secretary of the United States Department of the Interior is responsible for mineral resource development on Federal and Indian lands and the Outer Continental Shelf (OCS). The Secretary's responsibility, according to various laws, is to (1) manage mineral resource production from Federal and Indian

lands and the OCS; (2) collect the royalties and other mineral revenues due; and (3) distribute the funds collected under those laws. We have posted those laws pertaining to mineral leases on Federal and Indian lands and the OCS at http://www.onrr.gov/Laws_R_D/PubLaws/default.htm.

The Secretary also has a trust responsibility to manage Indian lands and seek advice and information from Indian beneficiaries. ONRR performs the minerals revenue management functions for the Secretary and assists the Secretary in carrying out the Department's trust responsibility for Indian lands.

You can find the information collections covered in this ICR at 30 CFR parts:

- 1202, subpart H, which pertains to geothermal resources royalties.
 - 1206, subparts F, H, and J, which pertain to product valuation of Federal coal, geothermal resources, and Indian coal.
 - 1210, subparts E and H, which pertain to production and royalty reports on solid minerals and geothermal resources leases.
 - 1212, subparts E and H, which pertain to recordkeeping of reports and files for solid minerals and geothermal resources leases.
 - 1217, subparts E, F, and G, which pertain to audits and inspections of coal, other solid minerals, and geothermal resources leases.
 - 1218, subparts E and F, which pertain to royalties, rentals, bonuses, and other monies payment for solid minerals and geothermal resources.
- All data reported is subject to subsequent audit and adjustment.

General Information

When a company or an individual enters into a lease to explore, develop, produce, and dispose of minerals from Federal or Indian lands, that company or individual agrees to pay the lessor a share in a value of production from the leased lands. The lessee or designee must report various kinds of information to the lessor relative to the disposition of the leased minerals. Such information is generally available within the records of the lessee or others involved in developing, transporting, processing, purchasing, or selling such minerals.

Information Collections

ONRR, acting for the Secretary, uses the information that we collect to ensure that lessees accurately value and appropriately pay all royalties based on the correct product valuation. ONRR and other Federal Government entities,

including the Bureau of Land Management, the Bureau of Indian Affairs, and State and Tribal governmental entities, use the information for audit purposes and for evaluating the reasonableness of product valuation or allowance claims that lessees submit. Please refer to the burden hour chart for all reporting requirements and associated burden hours.

A. Solid Minerals

Producers of coal and other solid minerals from any Federal or Indian lease must submit current form ONRR-4430 and other associated data formats such as form ONRR-4440. These companies also report certain data on form ONRR-2014 (OMB Control Number 1012-0004). Producers of coal from any Indian lease must also submit forms ONRR-4292 and ONRR-4293, if they wish to claim allowances on form ONRR-4430; the information that ONRR requests is the minimum necessary to carry out our mission and places the least possible burden on respondents.

B. Geothermal Resources

This ICR also covers some of the information collections for geothermal

resources, which ONRR groups by usage (electrical generation, direct use, and byproduct recovery), and by disposition of the resources (arm's-length (unaffiliated) contract sales, non-arm's-length contract sales, and no contract sales) within each use group. ONRR relies primarily on data that payors report on form ONRR-2014 for the majority of our business processes, including geothermal information. In addition to using the data to account for royalties that payors report, ONRR uses the data for monthly distribution of mineral revenues and for audit and compliance reviews.

OMB Approval

We will request OMB approval to continue to collect this information. Not collecting this information would limit the Secretary's ability to discharge fiduciary duties and may also result in the loss of royalty payments. We protect the proprietary information that ONRR receives and do not collect items of a sensitive nature. Reporters must submit forms ONRR-4430 and ONRR-4440. Also, ONRR requires that reporters submit forms ONRR-4292 and ONRR-4293 to claim allowances on form ONRR-4430.

II. Data

Title: Solid Minerals and Geothermal Collections—30 CFR parts 1202, 1206, 1210, 1212, 1217, and 1218.

OMB Control Number: 1012-0010.

Estimated Annual Reporting and Recordkeeping "Hour" Burden: 3,884 hours.

We have not included in our estimates certain requirements that companies perform in the normal course of business and that ONRR considers usual and customary. This 30-day **Federal Register** notice burden chart shows an adjustment increase of +450 burden hours from the previous 60-day notice; this adjustment is based on a new requirement to submit additional information for the sales summaries in form ONRR-4440. We display the estimated annual burden hours by CFR section and paragraph in the following chart.

Note: Audit Process—The Office of Regulatory Affairs determined that the audit process is exempt from the Paperwork Reduction Act of 1995 because ONRR staff asks non-standard questions to resolve exceptions.

Estimated Annual Reporting and Recordkeeping "Non-hour" Cost Burden: We have identified no "non-hour" cost burdens associated with the collection of information.

III. Request for Comments

Section 3506(c)(2)(A) of the PRA requires each agency to " * * * provide 60-day notice in the **Federal Register** * * * and otherwise consult with

members of the public and affected agencies concerning each proposed collection of information * * *." Agencies must specifically solicit comments to (a) evaluate whether the proposed collection of information is necessary for the agency to perform its duties, including whether the information is useful; (b) evaluate the accuracy of the agency's estimate of the burden of the proposed collection of

information; (c) enhance the quality, usefulness, and clarity of the information that ONRR collects; and (d) minimize the burden on the respondents, including the use of automated collection techniques or other forms of information technology.

To comply with the public consultation process, we published a notice in the **Federal Register** on April 14, 2016 (81 FR 22106), announcing that

we would submit this ICR to OMB for approval. The notice provided the required 60-day comment period. We received no unsolicited comments in response to the notice.

Public Disclosure Statement: The PRA (44 U.S.C. 3501 *et seq.*) provides that an agency may not conduct or sponsor—and a person is not required to respond to—a collection of information unless it displays a currently valid OMB control number. If you wish to comment in response to this notice, you may send your comments to the offices listed under the **ADDRESSES** section of this notice. OMB has up to 60 days to approve or disapprove the information collection, but they may respond after 30 days.

Public Comment Policy: ONRR will post all comments, including names and addresses of respondents at <http://www.regulations.gov>. Before including Personally Identifiable Information (PII), such as your address, phone number, email address, or other personal information in your comment(s), you should be aware that your entire comment (including PII) may be made available to the public at any time. While you may ask us, in your comment, to withhold PII from public view, we cannot guarantee that we will be able to do so.
