FOR FURTHER INFORMATION CONTACT:

Steven Rietzke, Chief, Division of National Programs, Tools, and Technical Assistance, Employment and Training Administration, U.S. Department of Labor, Room C–4510, 200 Constitution Ave. NW., Washington, DC 20210; Telephone: 202–693–3912. Mr. Rietzke is the Designated Federal Officer for the WIAC.

SUPPLEMENTARY INFORMATION:

Background: The WIAC is an important component of the Workforce Innovation and Opportunity Act. The WIAC is a Federal Advisory Committee of workforce and labor market information experts representing a broad range of national, State, and local data and information users and producers. The purpose of the WIAC is to provide recommendations to the Secretary of Labor, working jointly through the Assistant Secretary for Employment and Training and the Commissioner of Labor Statistics, to address: (1) The evaluation and improvement of the nationwide workforce and labor market information (WLMI) system and statewide systems that comprise the nationwide system; and (2) how the Department and the States will cooperate in the management of those systems. These systems include programs to produce employment-related statistics and State and local workforce and labor market information. The WIAC was established in accordance with provisions of the Federal Advisory Committee Act (FACA), as amended (5 U.S.C. App.) and will act in accordance with the applicable provisions of FACA and its implementing regulation at 41 CFR 102–3. The WIAC is meeting pursuant to Section 308 of the Workforce Innovation and Opportunity Act of 2014 (WIOA) (Pub. L. 113–128), which amends section 15 of the Wagner-Peyser Act of 1933 (29 U.S.C. 491–2).

The Department of Labor anticipates the WIAC will accomplish its objectives

by: (1) Studying workforce and labor market information issues; (2) seeking and sharing information on innovative approaches, new technologies, and data to inform employment, skills training, and workforce and economic development decision making and policy; and (3) advising the Secretary on how the workforce and labor market information system can best support workforce development, planning, and program development. Additional information is available at www.doleta.gov/wioa/wiac/.

Purpose: The WIAC is currently in the process of identifying and reviewing issues and aspects of the WLMI system and statewide systems that comprise the nationwide system and how the Department and the States will cooperate in the management of those systems. As part of this process, the Advisory Council meets to gather information and to engage in deliberative and planning activities to facilitate the development and provision of its recommendations to the Secretary in a timely manner.

Agenda: Beginning at 2:00 p.m. on February 8, 2017, the Advisory Council will briefly review the minutes of the previous meeting held January 11, 2017. The Advisory Council will then discuss the informational report it is creating to document the current status of the WLMI systems from a national and state perspective for the Secretary of Labor. The goal of this discussion is the formal approval of the informational report for submission to the Secretary of Labor.

The Advisory Council will open the floor for public comment once the discussion of the informational report is completed, which is expected to be 3:00 p.m. EST; however, that time may change at the WIAC chair's discretion. Once the informational report discussion, the public comment period, and discussion of next steps and new business has concluded, the meeting will adjourn. The WIAC does not anticipate the meeting lasting past 5:00 p.m. EST.

The full agenda for the meeting, and changes or updates to the agenda, will be posted on the WIAC's Web page, www.doleta.gov/wioa/wiac/.

Attending the meeting: Members of the public who require reasonable accommodations to attend the meeting may submit requests for accommodations by mailing them to the person and address indicated in the **FOR FURTHER INFORMATION CONTACT** section by the date indicated in the **DATES** section or transmitting them as email attachments in PDF format to the email address indicated in the **FOR FURTHER INFORMATION CONTACT** section with the

subject line "February 2017 WIAC Meeting Accommodations" by the date indicated in the **DATES** section. Please include a specific description of the accommodations requested and phone number or email address where you may be contacted if additional information is needed to meet your request.

SUPPLEMENTARY INFORMATION:

I. Background

Section 101(c) of the Federal Mine Safety and Health Act of 1977 (Mine Act) allows the mine operator or representative of miners to file a petition to modify the application of any mandatory safety standard to a coal or other mine if the Secretary of Labor determines that:

1. An alternative method of achieving the result of such standard exists which will at all times guarantee no less than the same measure of protection afforded the miners of such mine by such standard; or

2. That the application of such standard to such mine will result in a

diminution of safety to the miners in such mine.

In addition, the regulations at 30 CFR 44.10 and 44.11 establish the requirements and procedures for filing petitions for modification.

II. Petitions for Modification

Docket Number: M-2016-008-M.

Petitioner: Martin Marietta Materials, Inc., 11405 N. Pennsylvania St., Suite 250, Carmel, Indiana 46032.

Mine: Kokomo Mine, MSHA I.D. No. 12-02105, located in Howard County, Indiana.

Regulation Affected: 30 CFR 49.2(c) (Availability of mine rescue teams).

Modification Request: The petitioner requests a modification of the existing standard for the Martin Marietta, Indiana District Mine Rescue Team stationed at the Kokomo Mine, to use two additional firefighters from the Kokomo Fire Department located in Howard County, Indiana. The two firefighters are in addition to the proposed team of five experienced miners from the Kokomo mine, North Indianapolis mine, Noblesville Stone mine and Kentucky Avenue mine.

The petitioner states that:

(1) The firefighters are in close proximity to the mine, and will receive the required MSHA training.

(2) The members of the fire department have had extensive training in firefighting, evacuation and rescue.

(3) The additional firefighters will receive underground training and become familiar with the mines where they will be providing mine rescue service. The team will have more rescue training than existing 30 CFR 49.8 requires and will train underground with apparatus at each mine where they provide a service.

The petitioner asserts that the alternative method will at all times provide the same measure of protection as the existing standard.

Sheila McConnell,

Director, Office of Standards, Regulations, and Variances.
