ARCHIVES AND RECORDS ADMINISTRATION (NARA) or a NCUA records disposition schedule approved by NARA. Records existing on computer storage media are destroyed according to the applicable NCUA media sanitization practice.

ADMINISTRATIVE, TECHNICAL, AND PHYSICAL SAFEGUARDS:
NCUA has adopted appropriate administrative, technical, and physical controls in accordance with NCUA’s information security policies to protect the security, integrity, and availability of the information, and to ensure that records are not disclosed to or accessed by unauthorized individuals.

RECORD ACCESS PROCEDURES:
Individuals wishing access to their records should submit a written request to the Privacy Officer, NCUA, 1775 Duke Street, Alexandria, VA 22314, and provide the following information:
   a. Full name.
   b. Any available information regarding the type of record involved.
   c. The address to which the record information should be sent.
   d. You must sign your request.

   Attorneys or other persons acting on behalf of an individual must provide written authorization from that individual for the representative to act on their behalf. Individuals requesting access must also comply with NCUA’s Privacy Act regulations regarding verification of identity and access to records (12 CFR 792.55).

EXEMPTIONS PROMULGATED FOR THE SYSTEM:
None.

NATIONAL SCIENCE FOUNDATION
Notice of Permit Applications Received Under the Antarctic Conservation Act of 1978

AGENCY: National Science Foundation.

ACTION: Notice of permit applications received under the Antarctic Conservation Act of 1978.

SUMMARY: The National Science Foundation (NSF) is required to publish a notice of permit applications received to conduct activities regulated under the Antarctic Conservation Act of 1978. NSF has published regulations under the Antarctic Conservation Act at Title 45 Part 671 of the Code of Federal Regulations. This is the required notice of the Committee.
SUPPLEMENTARY INFORMATION:

**ADDRESSES:** Comments should be addressed to Permit Office, Room 755, Division of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Arlington, Virginia 22230. For further information contact: Nature McGinn, ACA Permit Officer, at the above address or ACApermits@nsf.gov.

**DATES:** Interested parties are invited to submit written data, comments, or views with respect to this permit application by January 26, 2017. This application may be inspected by interested parties at the Permit Office, address below.

**APPLICATION DETAILS**

1. **Applicant:** Permit Application: 2017–037, Daniel McGrath, Resident Scientist, Earth Vision Institute, 2334 Broadway St, Suite D, Boulder, CO 80304

**Activity for Which Permit Is Requested**

Waste management. The applicant requests a permit for waste management activities associated with the continued operation of a network of time-lapse cameras installed in the Antarctic Peninsula region. The applicant will continue to maintain up to 12 cameras (nine currently installed at five visitor sites) with no more than two cameras installed at any one site. Cameras are placed in such a way so as not to disrupt wildlife. Cameras are secured using 6–8 rock bolts drilled into rock outcrops. Each camera is powered by a 10w solar panel and a sealed 12 volt 55 AH gel battery. The batteries are housed in a leak proof plastic case. The cameras will remain deployed for an additional 4 years and will be completely removed (including bolts and power sources) at before the permit expires. Each camera is visited every 1–2 years to retrieve data, make necessary repairs, and remove non-functioning equipment. The Earth Vision Institute has an established collaboration with Lindblad Expeditions for installation and maintenance of the cameras. The cameras are used to measure ice velocity and monitor the calving front of numerous outlet glaciers. The data will help advance scientific knowledge on the mechanics and pace of glacial retreat. Images gained from the cameras will also be used in global outreach campaigns to educate the public about the speed of climate change’s impact on the earth.

**Location**

Neko Harbor, Orne Harbor, Cierva Cove, Brown Bluff, Amsler Island, Western Antarctic Peninsula.

**Dates**

April 1, 2017–March 31, 2021.

Nadene G. Kennedy,
Polar Coordination Specialist, Division of Polar Programs.

**NOTES:** This permit is organized and will be managed by Lindblad Expeditions, a third party contractor, and Earth Vision Institute as a collaborating partner.

**Waste Management**

Earth Vision Institute and Lindblad Expeditions have a formal collaboration agreement to manage waste in Antarctica and will continue this collaboration for the term of the permit. The Waste Management Plan does not address the following activities: use of fishing equipment,取diet, receipt, storage, and removal of non-functioning equipment, the use of Antarctic marine species in the food chain, hunting, and collection and removal of non-functioning equipment. These activities are addressed in a separate permits that are not the subject of this permit application.

**Waste Management and Personnel Issues**

The applicant will remove all waste, including batteries from the cameras and remove non-functioning equipment. The cameras will be uploaded with data weekly or bi-weekly depending on signal strength. Each camera will be housed in a leak proof plastic case. The cameras will remain deployed for an additional 4 years and will be completely removed (including bolts and power sources) at before the permit expires. Each camera is visited every 1–2 years to retrieve data, make necessary repairs, and remove non-functioning equipment. The Earth Vision Institute has an established collaboration with Lindblad Expeditions for installation and maintenance of the cameras. The cameras are used to measure ice velocity and monitor the calving front of numerous outlet glaciers. The data will help advance scientific knowledge on the mechanics and pace of glacial retreat. Images gained from the cameras will also be used in global outreach campaigns to educate the public about the speed of climate change’s impact on the earth.

**Location**

Neko Harbor, Orne Harbor, Cierva Cove, Brown Bluff, Amsler Island, Western Antarctic Peninsula.

**Dates**

April 1, 2017–March 31, 2021.

Nadene G. Kennedy,
Polar Coordination Specialist, Division of Polar Programs.
