

explain why we are unable to provide dispute resolution services, and advise them of other options.

(c) Mediators facilitate communication between the parties, including joint or separate discussions, to help them come to a mutually agreeable solution. The mediators may use all appropriate customary techniques associated with dispute resolution.

(d) We do not permit the parties to make any audio or video recordings of dispute resolution meetings. The mediator's notes are confidential and we do not disclose them. The parties also agree to keep the content of the dispute resolution discussions confidential.

(e) Proceedings with the mediator are informal, and the mediator has no authority to compel the parties to resolve the dispute. Either party may withdraw from the dispute resolution process at any point. If one of the parties initiates litigation during the course of the dispute resolution process, they must notify us.

(f) If the parties reach an impasse, the mediator may raise the dispute to the Deputy Director of OGIS. The Deputy Director may provide the parties with an assessment of the situation as an additional level of dispute resolution efforts to assist the parties with breaking the impasse. Any assessment the Deputy Director provides is confidential and the parties may not rely upon it in any subsequent proceedings.

(g) OGIS issues a final response letter to the parties when the dispute resolution process concludes. This letter documents the outcome of the process and any resolution the parties reach. No party may rely on the letter in subsequent proceedings and its contents are confidential unless both parties agree in writing to allow OGIS to disclose it publicly.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R05-OAR-2016-0502; FRL-9955-88-Region 5]

Air Plan Approval; Illinois; Volatile Organic Compounds Definition

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve a revision to the Illinois State Implementation Plan (SIP). The revision amends the Illinois Administrative Code by updating the definition of volatile organic material or volatile organic compounds to exclude 2-amino-2-methyl-1-propanol. This revision is in response to an EPA rulemaking in 2014 which exempted this compound from the Federal definition of volatile organic compounds on the basis that the compound makes a negligible contribution to tropospheric ozone formation.

DATES: Comments must be received on or before January 27, 2017.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA-R05-OAR-2016-0502 at <http://www.regulations.gov> or via email to aburano.douglas@epa.gov. For comments submitted at [Regulations.gov](http://www.regulations.gov), follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from [Regulations.gov](http://www.regulations.gov). For either manner of submission, EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.* on the web, cloud, or other file sharing system). For additional submission methods, please contact the person identified in the "For Further Information Contact" section. For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

SUPPLEMENTARY INFORMATION: In the Final Rules section of this **Federal Register**, EPA is approving the State's SIP submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial submittal and anticipates no adverse comments. A detailed rationale for the approval is set forth in the direct final rule. If no adverse comments are received in response to this rule, no further activity is contemplated. If EPA receives adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed rule. EPA will not institute a second comment period. Any parties interested in commenting on this action should do so at this time. Please note that if EPA receives adverse comment on an amendment, paragraph, or section of this rule and if that provision may be severed from the remainder of the rule, EPA may adopt as final those provisions of the rule that are not the subject of an adverse comment. For additional information, see the direct final rule which is located in the Rules section of this **Federal Register**.
