Notice of Proposed Addition of Thermal Features Within Valles Caldera National Preserve to the Geothermal Steam Act List of Significant Thermal Features Within Units of the National Park System

AGENCY: National Park Service, Interior.

ACTION: Notice of proposal.

SUMMARY: The National Park Service (NPS) is publishing for public review and comment a proposal that the Department of the Interior (Department) designate the thermal features within Valles Caldera National Preserve (Preserve), New Mexico, as “significant thermal features,” and that they be added to the list of significant thermal features within units of the National Park System, in accordance with the Geothermal Steam Act (the Act), as amended. The Act requires that those thermal features in units of the National Park System that are determined to be significant, and included in or added to the list at 30 U.S.C. 1026, must be protected from any geothermal leasing, exploration, development or utilization that might adversely affect those features.

DATES: Comments must be received on or before January 27, 2017 to be assured of receiving consideration. After considering all comments received, the NPS will issue a final notice of the Department’s determination in the **Federal Register**. Copies of public comments received in response to this Notice will be available for public review according to the specifications of the final notice.

ADDRESSES: Submit comments to the PEPC Web site at <https://parkplanning.nps.gov/vallego>.

FOR FURTHER INFORMATION CONTACT: Ms. Julia F. Brunner, Policy and Regulatory Specialist, Geologic Resources Division, National Park Service, P.O. Box 25287, Lakewood CO 80225-0287; telephone 303-969-2012.

SUPPLEMENTARY INFORMATION: The Geothermal Steam Act (the Act), as amended, authorizes the Secretary of the Interior (Secretary) to issue geothermal leases for exploration, development and utilization of geothermal resources on available public lands administered by the Department of the Interior, as well as on federal lands administered by the Department of Agriculture, and on lands

that have been conveyed by the United States subject to a reservation to the United States of the geothermal resources in those lands. 30 U.S.C. 1002. The Bureau of Land Management (BLM) administers the geothermal program pursuant to its regulations at 43 CFR parts 3000, 3200, and 3280. On federal lands managed by the Agriculture Department or used for a federal water power project, the BLM must first obtain the consent of the Secretary of Agriculture or Secretary of Energy, respectively, before it may issue any leases for geothermal resources underlying those lands. See 30 U.S.C. 1014(b).

The Act does not make lands administered by the NPS subject to geothermal leasing, thereby prohibiting geothermal leasing in park units (30 U.S.C. 1002, 1014(c)). In addition, the Valles Caldera National Preserve has been expressly withdrawn from the operation of the geothermal leasing laws. 16 U.S.C. 698v-11(b)(9).

The Act requires the Secretary to maintain a list of significant thermal features within units of the National Park System (30 U.S.C. 1026(a)). For those listed significant thermal features, the Act requires:

(1) The Secretary to maintain a monitoring program, including a research program carried out by NPS in cooperation with the U.S. Geological Survey (30 U.S.C. 1026(b));

(2) the Secretary to determine, on the basis of scientific evidence, and subject to notice and public comment, whether exploration, development, or utilization of the land subject to a lease application would be reasonably likely to result in a significant adverse effect on any listed feature and, if so, not to issue the lease (30 U.S.C. 1026(c));

(3) the Secretary to determine, on the basis of scientific evidence, whether the exploration, development, or utilization of the land subject to a lease or drilling permit is reasonably likely to *adversely affect* any listed features and, if so, to include stipulations in the lease or drilling permit to protect those features (30 U.S.C. 1026(d));

(4) the Secretary of Agriculture to consider the effects on significant thermal features within units of the National Park System in determining whether to consent to leasing on national forest lands or other lands administered by the Department of Agriculture (30 U.S.C. 1026(e)).

The Act lists sixteen park units as having significant thermal features, and the Act also authorizes the Secretary to add significant thermal features within park units to the list after notice and public comment (see 30 U.S.C. 1026(a)).
