

under NEPA,²³ and the permitted exclusion of emissions attributable to presumed to conform actions under the General Conformity Rule. Regarding the latter, 40 CFR 93.152 states: “The portion of emissions which are exempt or presumed to conform under Section 93.153(c), (d), (e), or (f) are not included in the total of direct and indirect emissions.” Likewise, as stated in the preamble (58 FR 63233): “The final rule requires the inclusion of the total direct and indirect emissions in the applicability and conformity determinations, except the portion of emissions which are exempt or presumed to conform.”²⁴

The BLM will apply this definition to exclude emissions for single and multiple presumed to conform actions that are not connected to one another. BLM’s procedures for combined actions offer a reasonable approach by placing a more conservative limit on the permitted exclusion of presumed to conform emissions than 40 CFR 93.152.

Documentation

Documentation requirements for combined/multiple actions are typically greater than for single actions. For some projects with combined/multiple actions, the BLM may require that proponents submit a project-specific emissions inventory in lieu of using the Presumed to Conform list. This methodology is project-specific and more refined than quantifying the project emissions using the Presumed to Conform List emission estimates.

Specifically, the methodology described above must be used if the project includes: (1) One or more presumed to conform actions that are connected to non-presumed to conform actions which are being evaluated under the environmental review requirements of NEPA; or (2) actions which are not supported by emissions quantification described elsewhere in the Notice. Consistent with the goal of reducing the analysis burden for presumed to conform actions, the BLM UGRB Presumed to Conform List may be used to document emissions for select activities in lieu of a project-specific emissions inventory if the activities are represented on the Presumed to Conform List.

²³ 40 CFR 1508.7.

²⁴ The EPA gives as an example a Federal action that includes construction of a new industrial boiler project, that is exempt, and a separate office building. The emissions from the hypothetical boiler exceed de minimis levels however it is exempt and so the emissions are excluded. The emissions from the office building alone are below de minimis levels. As a result, the action as a whole does not need a conformity determination. (58 FR 63233).

Also, where the emissions in the BLM UGRB Presumed to Conform List are based on specific project assumptions that vary from the project in question, the emissions in the list may be adjusted as described in the BLM Emissions Workbook if appropriate. In other words, the BLM UGRB Presumed to Conform List may be used if the project is a single action or if it is limited to multiple presumed to conform actions that are supported in the Notice.

INTERNATIONAL TRADE COMMISSION

[Investigation Nos. 701-TA-470-471 and 731-TA-1169-1170 (Review)]

Certain Coated Paper Suitable for High-Quality Print Graphics Using Sheet-Fed Presses From China and Indonesia; Determinations

On the basis of the record¹ developed in the subject five-year reviews, the United States International Trade Commission ("Commission") determines, pursuant to the Tariff Act of 1930 ("the Act"), that revocation of the countervailing and antidumping duty orders on certain coated paper suitable for high-quality graphics using sheet-fed presses from China and Indonesia would be likely to lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.

Background

The Commission, pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)), instituted these reviews on October 1, 2015 (80 FR 59189) and determined on January 4, 2016 that it would conduct full reviews (81 FR 1966, January 14, 2016). Notice of the scheduling of the Commission's reviews and of a public hearing to be held in connection therewith was given by posting copies of the notice in the Office of the Secretary, U.S. International Trade Commission, Washington, DC, and by publishing the notice in the **Federal Register** on June 24, 2016 (81 FR 41345). The hearing was held in Washington, DC, on October 27, 2016, and all persons who requested the opportunity were permitted to appear in person or by counsel.

The Commission made these determinations pursuant to section 751(c) of the Act (19 U.S.C. 1675(c)). It completed and filed its determinations in these reviews on December 22, 2016. The views of the Commission are contained in USITC Publication 4656 (December 2016), entitled *Certain Coated Paper Suitable for High-Quality Print Graphics Using Sheet-Fed Presses from China and Indonesia: Investigation Nos. 701-TA-470-471 and 731-TA-1169-1170 (Review)*.

By order of the Commission.

Issued: December 22, 2016.

Lisa R. Barton,

Secretary to the Commission.
