Settings

# I. All settings.

Our population of interest is adults 18 years of age or older with depression who have not responded to treatment(s). The depressive illness can be part of either major depressive disorder or a bipolar disorder, but one of these diagnoses must be a primary diagnosis. For example, schizophrenia with a secondary diagnosis of MDD, or dysthymia, would not be eligible for this report. If a study involves both eligible and ineligible patients and does not report data separately, that whole study will be excluded. Populations with no evidence of treatment nonresponse (e.g., a study in which the absence of treatment response is not part of the selection criteria) will not be eligible.

Eligible interventions include those that have both been tested as a treatment targeting TRD in adults and been identified by guidelines, consensus statements, the MEDCAC panel, or systematic reviews as alternatives for TRD treatment. These criteria ensure consideration of interventions with a minimum threshold amount of data addressing its effectiveness in TRD populations. Comparison groups include concurrent control groups (e.g., active, sham, or placebo) and a control group from an interrupted time series.

We will require outcomes to have been identified previously as the most meaningful to depression management decision making. In our earlier comparative effectiveness work on depression, we asked our Technical Expert Panel and Key Informants to rank the relative importance of these outcomes following a process proposed by the GRADE Working Group.30 We used SurveyMonkey© for an anonymous ranking of the relative importance of outcomes. Participants used a 9-point Likert scale to rank outcomes into three categories: (1) Critical for decision making, (2) important but not critical for decision making, and (3) of low importance for decision making. They identified six outcomes as critical and five as important, and they supported the inclusion of an additional depressive outcome (change in depressive severity). For one of the adverse events outcomes. serious adverse events, we will use the FDA definition and will consider physical, psychological, and cognitive events. We will require relevant studies for the current project to report on at least 1 of these 12 outcomes.

All study durations and all settings are eligible. Pre/post studies that do not use interrupted time series analyses will be excluded, because potential

confounding from multiple sources renders questionable the ability of these study designs to support causal inferences. We will include Englishlanguage articles and exclude studies that are not published fully in English.

# **National Vaccine Injury Compensation Program: List of Petitions Received**

**AGENCY:** Health Resources and Services Administration (HRSA), Department of Health and Human Services (HHS).

**ACTION:** Notice.

**SUMMARY:** HRSA is publishing this notice of petitions received under the National Vaccine Injury Compensation Program (the Program), as required by the Public Health Service (PHS) Act, as amended. While the Secretary of HHS (the Secretary) is named as the respondent in all proceedings brought by the filing of petitions for compensation under the Program, the United States Court of Federal Claims is charged by statute with responsibility for considering and acting upon the petitions.

# FOR FURTHER INFORMATION CONTACT: For

information about requirements for filing petitions, and the Program in general, contact the Clerk, United States Court of Federal Claims, 717 Madison Place NW., Washington, DC 20005, (202) 357-6400. For information on HRSA's role in the Program, contact the Director, National Vaccine Injury Compensation Program, 5600 Fishers Lane, Room 08N146B, Rockville, MD 20857; (301) 443-6593, or visit our Web site at: http://www.hrsa.gov/ vaccinecompensation/index.html.

SUPPLEMENTARY INFORMATION: The Program provides a system of no-fault compensation for certain individuals who have been injured by specified childhood vaccines. Subtitle 2 of Title XXI of the PHS Act, 42 U.S.C. 300aa-10 et seq., provides that those seeking compensation are to file a petition with the U.S. Court of Federal Claims and to serve a copy of the petition on the Secretary, who is named as the respondent in each proceeding. The Secretary has delegated this responsibility under the Program to

HRSA. The Court is directed by statute to appoint special masters who take evidence, conduct hearings as appropriate, and make initial decisions as to eligibility for, and amount of, compensation.

A petition may be filed with respect to injuries, disabilities, illnesses, conditions, and deaths resulting from vaccines described in the Vaccine Injury Table (the Table) set forth at 42 CFR 100.3. This Table lists for each covered childhood vaccine the conditions that may lead to compensation and, for each condition, the time period for occurrence of the first symptom or manifestation of onset or of significant aggravation after vaccine administration. Compensation may also be awarded for conditions not listed in the Table and for conditions that are manifested outside the time periods specified in the Table, but only if the petitioner shows that the condition was caused by one of the listed vaccines.

Section 2112(b)(2) of the PHS Act, 42 U.S.C. 300aa-12(b)(2), requires that "[w]ithin 30 days after the Secretary receives service of any petition filed under section 2111 the Secretary shall publish notice of such petition in the Federal Register." Set forth below is a list of petitions received by HRSA on December 1, 2016, through December 31, 2016. This list provides the name of petitioner, city and state of vaccination (if unknown then city and state of person or attorney filing claim), and case number. In cases where the Court has redacted the name of a petitioner and/or the case number, the list reflects such redaction.

Section 2112(b)(2) also provides that the special master "shall afford all interested persons an opportunity to submit relevant, written information" relating to the following:

- 1. The existence of evidence "that there is not a preponderance of the evidence that the illness, disability, injury, condition, or death described in the petition is due to factors unrelated to the administration of the vaccine described in the petition," and
- 2. Any allegation in a petition that the petitioner either:
  - a. "[S]ustained, or had significantly aggravated, any illness, disability, injury, or condition not set forth in the Vaccine Injury Table but which was caused by" one of the vaccines referred to in the Table, or
  - b. "[S]ustained, or had significantly aggravated, any illness, disability, injury, or condition set forth in the Vaccine Injury Table the first symptom or manifestation of the

onset or significant aggravation of which did not occur within the time period set forth in the Table but which was caused by a vaccine" referred to in the Table.

In accordance with Section 2112(b)(2), all interested persons may submit written information relevant to the issues described above in the case of the petitions listed below. Any person choosing to do so should file an original and three (3) copies of the information with the Clerk of the U.S. Court of Federal Claims at the address listed above (under the heading "For Further Information Contact"), with a copy to HRSA addressed to Director, Division of Injury Compensation Programs, Healthcare Systems Bureau, 5600 Fishers Lane, 08N146B, Rockville, MD 20857. The Court's caption (Petitioner's Name v. Secretary of Health and Human Services) and the docket number assigned to the petition should be used as the caption for the written submission. Chapter 35 of title 44, United States Code, related to paperwork reduction, does not apply to information required for purposes of carrying out the Program.

Dated: February 6, 2017.
