information is estimated to average 0.46 hours per response.

Respondents: Importers and shippers of plant pests, noxious weeds, and other regulated articles; State plant health officials; owners/operators of regulated garbage-handling facilities; Tribal groups; and individuals.

Estimated annual number of respondents: 4,805.
Estimated annual number of responses per respondent: 7.5.
Estimated annual number of responses: 36,173.
Estimated total annual burden on respondents: 16,723 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 7th day of February 2017.

Michael E. Gregoire,
Acting Administrator, Animal and Plant Health Inspection Service.

[Docket No. APHIS–2016–0103]

Notice of Availability of Proposed Changes to the National Poultry Improvement Plan Program Standards

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Notice of availability.

SUMMARY: We are advising the public that proposed changes to the National Poultry Improvement Plan Program Standards are available for review and comment.

DATES: We will consider all comments that we receive on or before March 15, 2017.

ADDRESSES: You may submit comments by either of the following methods:

• Federal eRulemaking Portal: Go to http://www.regulations.gov/ #docketDetail;D=APHIS-2016-0103 or in our reading room, which is located in room 1141 of the USDA South Building, 14th Street and Independence Avenue SW., Washington, DC. Normal reading room hours are 8 a.m. to 4:30 p.m., Monday through Friday, except holidays. To be sure someone is there to help you, please call (202) 799–7039 before coming.

FOR FURTHER INFORMATION CONTACT: Dr. Denise Brinson, DVM, Senior Coordinator, National Poultry Improvement Plan, VS, APHIS, USDA, 1506 Klondike Road, Suite 101, Conyers, GA 30094–5104; (770) 922–3496.

SUPPLEMENTARY INFORMATION: The National Poultry Improvement Plan (NPIP), also referred to below as “the Plan,” is a cooperative Federal-State-Industry mechanism for controlling certain poultry diseases. The Plan consists of a variety of programs intended to prevent and control poultry diseases. Participation in all Plan programs is voluntary, but breeding flocks, hatcheries, and dealers must first qualify as “U.S. Pullorum-Typhoid Clean” as a condition for participating in the other Plan programs.

The Plan identifies States, flocks, hatcheries, dealers, and slaughter plants that meet certain disease control standards specified in the Plan’s various programs. As a result, customers can buy poultry that has tested clean of certain diseases or that has been produced under disease-prevention conditions.

The regulations in 9 CFR parts 56, 145, 146, and 147 (referred to below as the regulations) contain the provisions of the Plan. The Animal and Plant Health Inspection Service (APHIS) of the U.S. Department of Agriculture (USDA) amends these provisions from time to time to incorporate new scientific information and technologies within the Plan.

In the past, APHIS has updated the regulations once every 2 years, following the Biennial Plan Conference of the NPIP General Conference Committee. The NPIP General Conference Committee advises the Secretary on poultry health and makes recommendations to improve the NPIP.

However, while changes in diagnostic science, technology, and best practices for maintaining sanitation are continual, the rulemaking process can be lengthy. As a result, the regulations have, at times, become outdated. To remedy this problem, we determined that we needed a more flexible process for amending provisions of the Plan. On July 9, 2014, we published in the Federal Register (79 FR 38752–38768, Docket No. APHIS–2011–0101) a final rule 1 that, among other things, amended the regulations by removing tests and detailed testing procedures, as well as sanitation procedures, from part 147, and making these available in an NPIP Program Standards document.2 The rule also amended the regulations to provide for the Program Standards document to be updated through the issuance of a notice in the Federal Register followed by a period of public comment. The latter change was intended to enable us to make the NPIP program more effective by allowing us to update some of the Plan provisions without the need for rulemaking.

We are advising the public that we have prepared updates to the NPIP Program Standards document. The proposed updates would amend the Program Standards by establishing new standards for biosecurity principles. We are also proposing to amend the hemagglutination inhibition test procedures for Mycoplasma, clarify the laboratory procedure recommended for the bacteriological examination of Salmonella in birds, amend the laboratory procedure recommended for polymerase chain reaction (PCR) tests for Mycoplasma gallisepticum and M. synoviae, and add new diagnostic tests for Mycoplasma and Salmonella.

Finally, we note that the Program Standards are currently divided into subparts in the same way the regulations are. We are proposing to change the use of the word “Subpart” to “Standard” in the Program Standards for ease of distinguishing between references to the regulations and the Program Standards.

After reviewing any comments we receive on the proposed updates, we will publish a second notice in the Federal Register announcing our decision regarding the proposed changes.

DEPARTMENT OF AGRICULTURE
Food Safety and Inspection Service

Notice of Request for Revision of an Approved Information Collection
(Advanced Meat Recovery)

AGENCY: Food Safety and Inspection Service, USDA.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995 and the Office of Management and Budget (OMB) regulations, the Food Safety and Inspection Service (FSIS) is announcing its intention to request a revision of the approved information collection regarding the regulatory requirements associated with the production of meat from advanced meat recovery systems. The OMB approval will expire on May 31, 2017. Based on a decrease in establishments that use advanced meat recovery systems, FSIS has decreased its total annual burden estimate by 4,050 hours.

DATES: Submit comments on or before April 14, 2017.

ADDRESSES: FSIS invites interested persons to submit comments on this information collection. Comments may be submitted by one of the following methods:

• Federal eRulemaking Portal: This Web site provides the ability to type short comments directly into the comment field on this Web page or attach a file for lengthy comments. Go to http://www.regulations.gov. Follow the on-line instructions at that site for submitting comments.

• Mail, including CD–ROMs, etc.: Send to Docket Clerk, U.S. Department of Agriculture, Food Safety and Inspection Service, Docket Clerk, Patriots Plaza 3, 1400 Independence Avenue SW., Mailstop 3782, Room 8–163A, Washington, DC 20250–3700.

• Hand- or courier-delivered submittals: Deliver to Patriots Plaza 3, 355 E Street SW., Room 8–163A, Washington, DC 20250–3700.

Instructions: All items submitted by mail or electronic mail must include the Agency name and docket number FSIS–2017–0001. Comments received in response to this docket will be made available for public inspection and posted without change, including any personal information, to http://www.regulations.gov.

Docket: For access to background documents or comments received, go to the FSIS Docket Room at Patriots Plaza 3, 355 E Street SW., Room 8–164, Washington, DC 20250–3700 between 8:00 a.m. and 4:30 p.m., Monday through Friday.

FOR FURTHER INFORMATION CONTACT: Gina Kouba, Office of Policy and Program Development, Food Safety and Inspection Service, USDA, 1400 Independence Avenue SW., Room 6065, South Building, Washington, DC 20250; (202) 720–5627.

SUPPLEMENTARY INFORMATION:

Title: Advanced Meat Recovery.

OMB Number: 0583–0130.

Expiration Date of Approval: 5/31/2017.

Type of Request: Revision of an approved information collection.

Abstract: FSIS has been delegated the authority to exercise the functions of the Secretary as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, et seq.). The statute provides that FSIS is to protect the public by verifying that meat products are safe, wholesome, not adulterated, and properly labeled and packaged.

FSIS is announcing its intention to request a revision of the approved information collection regarding the regulatory requirements associated with the production of meat from advanced meat recovery systems. The OMB approval will expire on May 31, 2017. Based on a decrease in establishments that use advanced meat recovery systems, FSIS has decreased its total annual burden estimate by 4,050 hours.

FSIS requires that official establishments that produce meat from AMR systems (1) ensure that the bones used for the systems do not contain brain, trigeminal ganglia, or spinal cord and, if the establishments produce beef AMR product, are from cattle younger than 30 months of age; (2) test for calcium, iron, spinal cord, and dorsal root ganglia (DRG); (3) document their testing protocols; (4) handle product in a manner that does not cause product to be misbranded or adulterated; and (5) maintain records of their documentation and of their test results (9 CFR 318.24).

FSIS has made the following estimates based upon an information collection assessment:

Estimate of Burden: FSIS estimates that it will take respondents an average of a half hour per response.

Respondents: Official establishments that produce meat from AMR systems.

Estimated Number of Respondents: 47.

Estimated Number of Annual Responses per Respondent: 900.

Estimated Total Annual Burden on Respondents: 21,159 hours.

Copies of this information collection assessment can be obtained from Gina Kouba, Office of Policy and Program Development, Food Safety and Inspection Service, USDA, 1400 Independence SW., 6065, South Building, Washington, DC 20250; (202) 720–5627.

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of FSIS’s functions, including whether the information will have practical utility; (b) the accuracy of FSIS’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques, or other forms of information technology. Comments may be sent to both FSIS, at the addresses provided above, and the Desk Officer for Agriculture, Office of Information and Regulatory Affairs, Office of Management and Budget, Washington, DC 20503.

Responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Additional Public Notification

Public awareness of all segments of rulemaking and policy development is important. Consequently, FSIS will announce this Federal Register publication on-line through the FSIS Web page located at: http://www.fsis.usda.gov/federal-register.

FSIS also will make copies of this publication available through the FSIS Constituent Update, which is used to provide information regarding FSIS policies, procedures, regulations, Federal Register notices, FSIS public meetings, and other types of information that could affect or would be of interest to our constituents and stakeholders. The Update is available on the FSIS Web page. Through the Web page, FSIS is able to provide information to a much broader, more diverse audience. In addition, FSIS offers an email subscription service which provides
