

IMLS is particularly interested in comments that help the agency to:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques, or other forms of information technology, *e.g.*, permitting electronic submissions of responses.

**SUPPLEMENTARY INFORMATION:**

**I. Background**

The Institute of Museum and Library Services is the primary source of federal support for the Nation's 123,000 libraries and 35,000 museums. The Institute's mission is to inspire libraries and museums to advance innovation, learning and civic engagement. The Institute works at the national level and in coordination with state and local organizations to sustain heritage, culture, and knowledge; enhance learning and innovation; and support professional development. IMLS is responsible for identifying national needs for and trends in museum, library, and information services; measuring and reporting on the impact

and effectiveness of museum, library and information services throughout the United States, including programs conducted with funds made available by IMLS; identifying, and disseminating information on, the best practices of such programs; and developing plans to improve museum, library and information services of the United States and strengthen national, State, local, regional, and international communications and cooperative networks (20 U.S.C. Chapter 72, 20 U.S.C. 9108).

**II. Current Actions**

The purpose of this collection is to assess the quality of Maker/STEM program implementation at 21st Century Community Learning Centers (21<sup>ST</sup> CCLC) and the associated outcomes for participating youth, 21st CCLC site staff, and museum/science center staff. The Maker/STEM Education Support for 21st CCLC project is designed to support Maker and Science, Technology, Engineering, and Math (STEM) education learning by providing professional development, activities, tools, and training to 21st CCLCs in 30-40 sites across seven States or regions.

The evaluation is intended to provide insight for future changes, programmatic improvements, and learning at all levels of the program. Methods will include qualitative and quantitative data collection via a mixed methods approach. Data will be collected through activities such as online and/or paper and pencil surveys, phone interviews, and in-person interviews.
