SUPPLEMENTARY INFORMATION:

I. Background

The Institute of Museum and Library Services (IMLS) is an independent Federal grant-making agency and is the primary source of federal support for the Nation’s 123,000 libraries and 35,000 museums. IMLS provides a variety of grant programs to assist the Nation’s museums and libraries in improving their operations and enhancing their services to the public. IMLS is responsible for identifying national needs for and trends in museum, library, and information services: measuring and reporting on the impact and effectiveness of museum, library, and information services throughout the United States, including programs conducted with funds made available by IMLS; identifying, and disseminating information on, the best practices of such programs; and developing plans to improve museum, library, and information services of the United States and strengthen national, State, local, regional, and international communications and cooperative networks (20 U.S.C. Chapter 72, 20 U.S.C. 9108).

II. Current Actions

This proposed request is to renew IMLS’ generic clearance for collection of qualitative feedback on the Agency’s service delivery. This data collection activity provides a means to garner qualitative customer and stakeholder feedback in an efficient and timely manner in accordance with the Administration’s commitment to improving service delivery. By qualitative feedback, IMLS means information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield quantitative results that can be generalized to the population of study. The Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery has been conducted by the Institute of Museum and Library Services under the clearance number 3137–0081, which expires July 31, 2017.

Title: Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery.
OMB Number: 3137–0081.
Agency Number: 3137.
Affected Public: State and local governments, State library agencies, and public libraries.
Number of Respondents: 4,900.
Frequency of Response: Once per request.
Average Minutes per Response: 55 minutes.
Total Burden Hours: 1,418.
Cost Burden (Dollars): $39,520.

IMLS is particularly interested in comments that help the agency to:
• Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
• Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used;
• Enhance the quality, utility and clarity of the information to be collected; and
• Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g. permitting electronic submissions of responses.

Grants Management Specialist, Office of the Chief Financial Officer.

NATIONAL SCIENCE FOUNDATION

Notice of Intent To Seek Approval To Renew an Information Collection

AGENCY: National Science Foundation.
ACTION: Notice and request for comments.

SUMMARY: The National Science Foundation (NSF) is announcing plans to request clearance of this collection. In accordance with the requirement of the Paperwork Reduction Act of 1995, we are providing opportunity for public comment on this action. After obtaining and considering public comment, NSF will prepare the submission requesting that OMB approve clearance of this collection for no longer than three years.

DATES: Written comments on this notice must be received by April 17, 2017 to be assured of consideration. Comments received after that date will be considered to the extent practicable.

ADDRESSES: Contact Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 1265, Arlington, Virginia 22230; telephone (703) 292–7556; or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1–800–877–8399, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays). You also may obtain a copy of the data collection instrument and instructions from Ms. Plimpton.

SUPPLEMENTARY INFORMATION:
Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency’s estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology.

Title of Collection: NSF Surveys to Measure Customer Service Satisfaction.
OMB Number: 3145–0157.
Expiration Date of Approval: July 31, 2017.

BILLING CODE 7035–01–P
Type of Request: Intent to seek approval to renew an information collection.

Abstract: Proposed Project: On September 11, 1993, President Clinton issued Executive Order 12862, “Setting Customer Service Standards,” which calls for Federal agencies to provide service that matches or exceeds the best service available in the private sector. Section 1(b) of that order requires agencies to “survey customers to determine the kind and quality of services they want and their level of satisfaction with existing services.” The National Science Foundation (NSF) has an ongoing need to collect information from its customer community (primarily individuals and organizations engaged in science and engineering research and education) about the quality and kind of services it provides and use that information to help improve agency operations and services.

Estimate of Burden: The burden on the public will change according to the needs of each individual customer satisfaction survey; however, each survey is estimated to take approximately 30 minutes per response.

Respondents: Will vary among individuals or households; business or other for-profit; not-for-profit institutions; farms; federal government; state, local or tribal governments.

Estimated Number of Responses per Survey: This will vary by survey.

Suzanne H. Plimpton,
Reports Clearance Officer, National Science Foundation.
