error positions.81 Also, the Exchange and NES will be required to make and keep records to document all determinations to treat positions as error positions; all determinations to assign error positions to Members or to liquidate error positions; and the liquidation of error positions through the third-party broker-dealer.82

The Commission recognizes that technical or systems issues may occur, and believes that proposed ISE Rule 1904, in allowing the Exchange or NES to cancel orders affected by technical or systems issues, should provide a reasonably efficient means for the Exchange to handle such orders, and appears reasonably designed to permit the Exchange to maintain fair and orderly markets.83 The Commission also believes that allowing the Exchange to resolve error positions through the use of an error account maintained by NES pursuant to the procedures set forth in the rule, and as described above, is consistent with the Act. The Commission notes that the rule establishes criteria for determining which positions are error positions,84 and that the Exchange or NES, in connection with a particular technical or systems issue, will be required to either assign or liquidate all resulting error positions.85 Also, the Exchange or NES will assign error positions that result from a particular technical or systems issue to Members only if all such error positions can be assigned to all of the Members affected by that technical or systems issue.86 If the Exchange or NES cannot assign all error positions to all Members, NES will liquidate all of those error positions.87 In this regard, the Commission believes that the new rule appears reasonably designed to further just and equitable principles of trade and the protection of investors and the public interest, and to help prevent unfair discrimination, in that it should help assure the handling of error positions will be based on clear and objective criteria, and that the resolution of those positions will occur promptly through a transparent process.

In addition, the Commission notes that it has previously expressed concern about the potential for unfair competition and conflicts of interest between an exchange’s self-regulatory obligations and its commercial interest when the exchange is affiliated with one of its members.88 The Commission has also previously expressed its concern about the potential for misuse of confidential and proprietary information.89 The Commission believes that the requirements that NES provide complete time and price discretion for the liquidation of error positions to a third-party broker-dealer, including that NES not attempt to exercise any influence or control over the timing or methods of such trading, combined with the requirement that the Exchange establish and enforce policies and procedures that are reasonably designed to restrict the flow of confidential and proprietary information to the third-party broker-dealer liquidating such positions, should mitigate the Commission’s concerns. In particular, the Commission believes that these requirements should help assure that none of the Exchange, NES, or the third-party broker-dealer is able to misuse confidential or proprietary information obtained in connection with the liquidation of error positions for its own benefit. The Commission also notes that the Exchange and NES would be required to make and keep records to document all determinations concerning error positions and resulting assignments or liquidations.90 In addition, the Commission notes that the proposed procedures for cancelling orders and the handling of error positions are consistent with procedures the Commission has approved for other exchanges.91

IV. Implementation of Proposed Rule Change
ISE stated that it intends to begin implementation of the proposed rule change in the second quarter of 2017, in tandem with a technology migration to Nasdaq INET architecture, and that the migration will be on a symbol-by-symbol basis. ISE has represented that it will issue an alert to Members to announce the relevant migration date for specific symbols.92 ISE explained that the rules in ISE Chapter 19, including ISE Rules 1901, 1903, 1904, and 1905, are incorporated by reference into the rulebooks of ISE Gemini and ISE Mercury.93 ISE Gemini and ISE Mercury submitted proposed rule changes that, among other things, would permit ISE Gemini and ISE Mercury to each use NES to route options orders outbound to away markets, route options orders inbound from the Affiliated Exchanges, and utilize the same procedures for cancellation of orders and handling of error accounts described herein.94 ISE stated that it intends to begin implementation of the proposed rule changes for ISE Gemini and ISE Mercury in the first quarter and third quarter of 2017, respectively, on a symbol-by-symbol basis. ISE further represented that it will add notations in each rulebook to cross-reference the amended rule text and clarify the respective implementation dates.95

III. Conclusion
It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change (SR–ISE–2016–27), as modified by Amendment No. 1, be, and hereby is, approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.97
Eduardo A. Aleman,
Assistant Secretary.

that it does advise (e.g., other funds in the fund complex), and (ii) a subadviser (and its affiliated persons) to enter into transactions and arrangements with funds the subadviser does advise, but only with respect to discrete portions of the subadvised fund for which the subadviser does not provide investment advice.

To qualify for the exemptions in rule 17a–10, the subadvisory relationship must be the sole reason why section 17(a) prohibits the transaction. In addition, the advisory contracts of the subadviser entering into the transaction, and any subadviser that is advising the purchasing portion of the fund, must prohibit the subadvisers from consulting with each other concerning securities transactions of the fund, and limit their responsibility to providing advice with respect to discrete portions of the fund’s portfolio. This requirement regarding the prohibitions and limitations in advisory contracts of subadvisors relying on the rule constitutes a collection of information under the Paperwork Reduction Act of 1995 (“PRA”).

The staff assumes that all existing funds with subadvisory contracts amended those contracts to comply with the adoption of rule 17a–10 in 2003, which conditioned certain exemptions upon these contractual alterations, and therefore there is no continuing burden for those funds. However, the staff assumes that all newly formed subadvised funds, and funds that enter into new contracts with subadvisers, will incur the one-time burden by amending their contracts to add the terms required by the rule.

Based on an analysis of fund filings, the staff estimates that approximately 319 funds enter into new subadvisory agreements each year. Based on discussions with industry representatives, the staff estimates that it will require approximately 3 attorney hours to draft and execute additional clauses in new subadvisory contracts in order for funds and subadvisers to be able to rely on the exemptions in rule 17a–10. Because these additional clauses are identical to the clauses that a fund would need to insert in their subadvisory contracts to rely on rules 10f–3, 12d3–1, and 17e–1, and because we believe that funds that use one such rule generally use all of these rules, we apportion this 3 hour time burden equally among all four rules. Therefore, we estimate that the burden allocated to rule 17a–10 for this contract change would be 0.75 hours. Assuming that all 319 funds that Commission new subadvisory contracts each year make the modification to their contract required by the rule, we estimate that the rule’s contract modification requirement will result in 239 burden hours annually, with an associated cost of approximately $90,820.

The estimate of average burden hours is made solely for the purposes of the Paperwork Reduction Act. The estimate is not derived from a comprehensive or even a representative survey or study of the costs of Commission rules. Complying with this collection of information requirement is necessary to obtain the benefit of relying on rule 17a–10. Responses will not be kept confidential. SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; NASDAQ BX, Inc.; The Nasdaq Stock Market LLC; NASDAQ PHXL LLC; Order Granting Approval of Proposed Rule Changes, as Modified by Amendment No. 1s, To Accept Orders Routed Inbound From the International Stock Exchange, LLC, ISE Gemini, LLC, and ISE Mercury, LLC, by Nasdaq Execution Services, LLC

February 9, 2017.

I. Introduction

On December 9, 2016, NASDAQ BX, Inc. ("BX"), The NASDAQ Stock Market LLC ("NASDAQ"), and NASDAQ PHXL LLC ("PHXL" and, each of BX, Nasdaq, and PHXL a "NASDAQ Exchange" or "Exchange") filed with the Securities and Exchange Commission ("Commission") pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act").1 and Rule 19b–4 ("Commission"), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),2 and Rule 19b–4 thereunder,3 proposed rule changes to permit BX, PHXL, and NASDAQ to seek approval of certain limitations and conditions.4

II. Background

Phlx Rule 985(b)(i)(A) prohibits Phlx or any entity with which it is affiliated from, directly or indirectly, acquiring or maintaining an ownership interest in, or engaging in a business venture with, an Exchange member or an affiliate of an Exchange member in the absence of an effective filing under Section 19(b) of the Act.

NASDAQ’s and BX’s rules include similar prohibitions.5 NES is a registered broker-dealer that is a member of NOM,6 BX,7 and PHXL8 and currently provides to members of each, optional routing services to other markets.9 NES is owned by Nasdaq, Inc.,10 which also owns all of the Affiliated Exchanges.11 Thus, NES is an affiliate of the NASDAQ Exchanges, as well as an affiliate of the ISE Exchanges. Absent an effective filing, the rules of NASDAQ, BX, and PHXL would prohibit NES from being a member of each of those Exchanges. Today, NES is a member of each of the NASDAQ Exchanges and performs certain limited activities for each, pursuant to effective filings pursuant to Section 19(b).12 Among other activities, each of the NASDAQ Exchanges accepts options orders routed inbound from each of the other NASDAQ Exchanges pursuant to those same limitations and conditions.13

With the current proposed rule changes, the NASDAQ Exchanges seek approval to permit NES to also route options orders inbound from the ISE Exchanges pursuant to those same limitations and conditions.14

III. Discussion and Commission Findings

After careful review, the Commission finds that the proposed rule changes, each as modified by Amendment No. 1, today approving these proposed rule changes. See Securities Exchange Act Release Nos. 79994 (February 9, 2017); and 79995 (February 9, 2017) ("ISE Exchange Routing Orders").

8 NOM is a facility of Nasdaq. See Nasdaq Options Rules, Chapter I, Section 1(a)(28).
9 The ISE Exchanges submitted related proposed rule changes that, among other things, would permit each ISE Exchange to use NES to route options orders outbound to away markets. See Securities Exchange Act Release Nos. 79665 (December 22, 2016), 81 FR 96092 (December 29, 2016) (SR–ISE–2016–27); 79664 (December 22, 2016), 81 FR 96136 (December 29, 2016) (SR–ISE Gemini–2016–16); and 79663 (December 22, 2016), 81 FR 96089 (December 29, 2016) (SR–ISE Mercury–2016–22). The Commission is also 20, 2016, each of the NASDAQ Exchanges filed an Amendment No. 1 to its respective proposed rule change. The proposed rule changes, each as modified by Amendment No. 1 thereto, were published for comment in the Federal Register on December 29, 2016. The Commission received no comments on the proposals. This order approves the proposed rule changes, as modified by their respective Amendment No. 1s.16
