Catalog of Federal Domestic Assistance (CFDA) Number: 84.217A.

Deadline for Transmittal of Applications: April 7, 2017.
Deadline for Intergovernmental Review: June 6, 2017.

Full Text of Announcement

I. Funding Opportunity Description

Purpose of Program: The Ronald E. McNair Postbaccalaureate Achievement (McNair) Program is one of the eight programs known as the Federal TRIO Programs, which provides postsecondary educational support for qualified individuals from disadvantaged backgrounds. The McNair Program awards discretionary grants to programs designed to provide disadvantaged college students with effective preparation for doctoral study.

Background
The Federal TRIO programs, including the McNair Program, represent a national commitment to education for all students regardless of race, ethnic background, disability status, or economic circumstances. The Department of Education (Department) has a strong interest in ensuring that groups traditionally underrepresented in postsecondary education, such as low-income students, first-generation college students, students who are English learners, students with disabilities, homeless students, students who are in foster care, and other disconnected students, receive the support necessary to assist them in successfully pursuing doctoral degrees.

To strategically align the McNair Program with overarching national strategies for increasing the number of students pursuing and completing degrees in the Science, Technology, Engineering, and Mathematics (STEM) fields, this notice includes a competitive preference priority intended to encourage applicants to propose activities that support this comprehensive goal, consistent with a logic model (as defined in this notice).

The inclusion of this competitive preference priority will encourage applicants to increase the number of individuals in the McNair Program’s target population that have access to STEM programs at the postsecondary level and are prepared for graduate study in STEM. The McNair Program’s target population includes groups underrepresented in graduate education, as defined in the McNair Program regulations; low-income individuals who are first generation college students; and groups underrepresented in STEM as documented by standard statistical references or other national survey data submitted to and accepted by the Secretary.

Consistent with 34 CFR 75.210, the Secretary will use the selection criteria outlined in 34 CFR 647.21 to evaluate the applications submitted for new
