from the count and EPA has not included their 14 dedicated pumpout facilities in the analysis below. Using the starting number of 678 from the 2005 Starcrest survey, this leaves an approximate 600 vessels that would be in need of other pumpout facilities. Using the starting number of 709 from the 2013 Starcrest survey would leave 631 vessels in need of pumpout facilities.

With the two stationary commercial pumpouts, at least 52 Sound-wide commercial pumper trucks, and the two Sound-wide mobile commercial pumpout barges described above, this amounts to at least 56 pumpouts available for commercial vessels which results in an approximate ratio of 11:1, using either the 600 or 631 vessel estimates cited above. In addition to this ratio, EPA has considered the fact that these mobile pumpouts provide service throughout Puget Sound, provide sufficient capacity for commercial vessels, and generally do not experience dock access issues. Moreover, these pumpout services can be scheduled by appointment to accommodate vessel needs and itineraries, and are sufficiently diversified such that they do not experience seasonal fluctuations. Given the widespread availability and flexibility of these services and the overall ratio of 11:1, EPA determines that adequate pumpout facilities for the safe and sanitary removal and treatment of sewage for commercial vessels are reasonably available for the waters of Puget Sound.

EPA further notes that the estimated ratio may be conservative, given that a number of the mobile pumpout boats and pumper trucks described above may also provide commercial pumpout services.

**Table of Facilities**

A list of pumpout facilities, phone numbers, locations, hours of operation, water depth, and fees is provided at this link to the Washington Department of Ecology Web site: [http://www.ecy.wa.gov/programs/wq/nonpoint/CleanBoating/VesselPumpoutTables.pdf](http://www.ecy.wa.gov/programs/wq/nonpoint/CleanBoating/VesselPumpoutTables.pdf).

Based on the information above, the EPA hereby makes a final affirmative determination that adequate facilities for the safe and sanitary removal and treatment of sewage from all vessels are reasonably available for the waters of Puget Sound.

Michelle L. Pirzadeh,
Acting Regional Administrator, Region 10.
