Frequency of response: Once every five years.
Total estimated burden: 2,765 hours (per year). Burden is defined at 5 CFR 1320.03(b)
Total estimated cost: $108,649 (per year), includes $0 annualized capital or operation & maintenance costs.

Changes in Estimates: There is a decrease of 2,862 hours (per year) in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease reflects full implementation of efficiencies instituted just prior to the submittal of the currently approved ICR in addition to continued experience on the part of respondents with the review process. Also, adjustments were made to the estimates because several alternative respondents were consulted to who had completed a more recent review.
