AGENCY: National Park Service, Interior.

ACTION: Notice.

SUMMARY: The National Park Service is soliciting comments on the significance of properties nominated before January 21, 2017, for listing or related actions in the National Register of Historic Places.

DATES: Comments should be submitted by March 14, 2017.

ADDRESSES: Comments may be sent via U.S. Postal Service to the National Register of Historic Places, National Park Service, 1849 C St. NW., MS 2280, Washington, DC 20240; by all other carriers, National Register of Historic Places, National Park Service, 1201 Eye St. NW., 8th floor, Washington, DC 20005; or by fax, 202–371–6447.

SUPPLEMENTARY INFORMATION: The properties listed in this notice are being considered for listing or related actions in the National Register of Historic Places. Nominations for their consideration were received by the National Park Service before January 21, 2017. Pursuant to section 60.13 of 36 CFR part 60, written comments are being accepted concerning the significance of the nominated properties under the National Register criteria for evaluation.

Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that

your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

BILLING CODE 4312-52-P

DEPARTMENT OF THE INTERIOR

Bureau of Ocean Energy Management

[OMB Control Number 1010-0187]

Information Collection: Project Planning for the Use of Outer Continental Shelf Sand, Gravel, and Shell Resources in Construction Projects That Qualify for a Negotiated Noncompetitive Agreement; Proposed Collection for OMB Review; Comment Request; MMAA104000

ACTION: 60-day notice.

SUMMARY: To comply with the Paperwork Reduction Act of 1995 (PRA), the Bureau of Ocean Energy Management (BOEM) is inviting comments on a renewal of a collection of information that we will submit to the Office of Management and Budget (OMB) for review and approval. The information collection request (ICR) concerns the paperwork requirements that respondents will submit to BOEM to obtain Outer Continental Shelf (OCS) sand, gravel, and shell resources for use in shore protection, beach and coastal restoration, and other authorized projects that qualify for a negotiated noncompetitive agreement.

DATES: Submit written comments by April 28, 2017.

ADDRESSES: Please send your comments on this ICR to the BOEM Information Collection Clearance Officer, Anna Atkinson, Bureau of Ocean Energy Management, 45600 Woodland Road, Sterling, Virginia 20166 (mail); or anna.atkinson@boem.gov (email); or 703-787-1209 (fax). Please reference ICR 1010-0187 in your comment and include your name and return address.

FOR FURTHER INFORMATION CONTACT: To obtain information pertaining to this notice, contact Anna Atkinson at (703) 787-1025.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 1010-0187.

Title: Project Planning for the Use of Outer Continental Shelf Sand, Gravel, and Shell Resources in Construction

Projects that Qualify for a Negotiated Noncompetitive Agreement.

Abstract: Under the authority delegated by the Secretary of the Interior, BOEM is authorized, pursuant to section 8(k)(2) of the OCS Lands Act (43 U.S.C. 1337(k)(2)), to convey rights to OCS sand, gravel, and shell resources by negotiated noncompetitive agreement for use in shore protection and beach and coastal restoration, or for use in construction projects funded, in whole or part by, or authorized by the Federal Government.

Background

Between 1994 and 2014, 43 shore protection or beach and coastal restoration projects were completed using OCS sand resources, conveying more than 119 million cubic yards of OCS material and restoring more than 295 miles of shoreline. The program has seen an increase in demand for OCS resources due to the decreasing availability of sand sources located in state waters and an increase in coastal storm intensity, duration, and frequency. Since 2014, an additional eight projects have been processed. In order for BOEM to continue to meet the needs of local and state governments, information regarding upcoming projects must be acquired to plan for future projects and anticipated workload. Therefore, BOEM will issue calls for information about needed resources and locations from interested parties to develop and maintain a project schedule. It includes an annual call for information and the potential for a call in response to an emergency declaration, such as a tropical storm. This ICR has no significant changes from the 2014 OMB approved information collection.

BOEM's calls for information (e.g., letters or **Federal Register** notices) will request interested parties to submit, in writing or electronically, a description of their proposed projects for which OCS resources will be used. The description must include the offshore borrow sites (if known); the estimated date of construction; a short description of current project funding; the name of a primary point of contact with that person's mailing address, telephone number, and email address and any additional information concerning the status of the project that would be useful to BOEM. This information may include detailed maps; geospatial data and coordinates of desired sand resources and sites that would be nourished; a description of the environmental documents that have been completed to date concerning any portion of the project; a cited reference

list; status of geological and geophysical permit (if required); information concerning known or suspected archaeological or historic artifacts; interpretations of the geology and extent of sand areas; known volumes of sand resource sites; historical data related to the proposed borrow or placement area; and a description of the status of Federal, state, and/or local permits required for the project.

In the event the number of requested projects exceeds the limits of the current BOEM staff and funding resources, BOEM may request the relevant states to prioritize their own projects based on several criteria including likelihood of project funding and progress of environmental work.

BOEM will use the information to determine appropriate future resource allocations, identify potential conflicts of use, conduct environmental analyses, develop negotiated noncompetitive agreements, and meet all necessary environmental and legal requirements. BOEM will publish all ongoing projects on the Web site <https://www.boem.gov/MMP-State-and-Regional-Activities/>.

With this renewal, we are also including a provision for a call in response to emergency declarations, such as a tropical storm. Hurricane Sandy demonstrated BOEM's need for accurate and timely information following a natural disaster declaration.

We will protect information from respondents considered proprietary under the Freedom of Information Act (5 U.S.C. 552) and the Department of the Interior's implementing regulations at 43 CFR part 2. No items of a sensitive nature are collected, and responses are voluntary.

Frequency: Annually and on occasion.

Description of Respondents: Potential respondents comprise States, counties, localities and tribes.

Estimated Reporting and Recordkeeping Hour Burden: We estimate that the annual reporting burden for this collection is about 200 hours, assuming an emergency declaration is made each year.

Local Government Compilation: 25 local \times 1 hour/entity \times 2 responses/year = 50 hours; State Compilation: 15 States \times 5 hours/State \times 2 responses/year = 150 hours (50 county hours + 150 State hours = 200 total burden hours).

Estimated Reporting and Recordkeeping Non-Hour Cost Burden: We have identified no non-hour paperwork cost burdens for this collection.

Public Disclosure Statement: The PRA (44 U.S.C. 3501, *et seq.*) provides that an agency may not conduct or sponsor a collection of information, unless it
