

given month from \$450,000 to \$550,000 because the Exchange believes it will attract additional QCC Orders to the Exchange because the amount of rebates they may be eligible for has increased.

The Exchange believes that it is equitable and not unfairly discriminatory to increase the maximum amount of the QCC Rebate the Exchange would pay a market participant in a given month from \$450,000 to \$550,000 because all qualifying market participants are eligible to obtain this maximum amount of QCC rebates provided they transact a qualifying number of QCC Orders. All market participants are eligible to transact QCC Orders.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. In terms of inter-market competition, the Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its fees to remain competitive with other exchanges and with alternative trading systems that have been exempted from compliance with the statutory standards applicable to exchanges. Because competitors are free to modify their own fees in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited. In sum, if the changes proposed herein are unattractive to market participants, it is likely that the Exchange will lose market share as a result. Accordingly, the Exchange does not believe that the proposed change will impair the ability of members or competing order execution venues to maintain their competitive standing in the financial markets or will impose any inter-market burden on competition for the reasons stated above.

The Exchange does not believe that the proposed rule change will impose any intra-market burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The Exchange believes that its proposal to increase the maximum QCC Rebate does not impose a burden on competition, rather the increased cap

should encourage market participants to transact a greater number of QCC Orders in order to obtain the maximum QCC Rebate. All market participants are eligible to transact QCC Orders.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.
