

Total Estimated Annual Burden: 293,521 hours.

Title: Safety Integration Plans.

OMB Control Number: 2130-0557.

Abstract: FRA and the Surface Transportation Board, working in conjunction, issued joint final rules establishing procedures for a Class I railroad proposing to undergo certain specified merger, consolidation, or acquisition of control transactions with another Class I railroad, or a Class II railroad it proposes to amalgamate operations with, to develop and implement safety integration plans ("SIPs" or "plans"). The scope of the transactions covered under the two rules is the same. FRA uses the information collected, *i.e.* the required SIPs, to maintain and promote a safe rail environment by ensuring affected railroads (Class Is and some Class IIs) address critical safety issues unique to the amalgamation of large, complex railroad operations.

Type of Request: Extension without change of a currently approved information collection.

Affected Public: Railroads.

Form(s): N/A.

Total Estimated Annual Responses: 60.

Total Estimated Annual Burden: 528 hours.

Title: Passenger Train Emergency Systems.

OMB Control Number: 2130-0576.

Abstract: The collection of information arises from FRA's passenger equipment safety regulations in 49 CFR part 238. Specifically, FRA rules for emergency passage through vestibule and other interior passageway doors and enhanced emergency egress and rescue have signage requirements. FRA also established requirements for low-location emergency exit path markings to assist occupants in reaching and operating emergency exits, particularly under conditions of limited visibility. Moreover, FRA has standards to ensure emergency lighting systems are provided in all passenger cars and enhanced requirements for the survivability of emergency lighting systems in new passenger cars. The purpose of this part is to prevent collisions, derailments, and other occurrences involving railroad passenger equipment that cause injury or death to railroad employees, railroad passengers, or the general public and to mitigate the consequences of such occurrences to the extent that they cannot be prevented.

Type of Request: Extension without change of a currently approved information collection.

Affected Public: Railroads.

Form(s): N/A.

Total Estimated Annual Responses: 89,780.

Total Estimated Annual Burden: 23,325 hours.

Addressee: Send comments regarding these information collections to the Office of Information and Regulatory Affairs, Office of Management and Budget, 725 17th Street NW., Washington, DC 20503, Attention: FRA Desk Officer. Comments may also be sent via email to OMB at the following address: oirp_submissions@omb.eop.gov.

Comments are invited on the following: Whether the proposed collections of information are necessary for DOT to properly perform its functions, including: Whether the information will have practical utility; the accuracy of DOT's estimates of the burden of the proposed information collections; ways to enhance the quality, utility, and clarity of the information to be collected; and ways to minimize the burden of the collections of information on respondents, including the use of automated collection techniques or other forms of information technology.

A comment to OMB is best assured of having its full effect if OMB receives it within 30 days of publication of this notice in the **Federal Register**.

Authority: 44 U.S.C. 3501-3520.
