This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219–0024.

OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on May 31, 2017. The DOL seeks to extend OMB authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the Federal Register on November 28, 2016 (81 FR 85643).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section within thirty (30) days of publication of this notice in the Federal Register. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1219–0024. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

SUPPLEMENTARY INFORMATION:

I. Background

The Department of Labor, as part of its continuing effort to reduce paperwork and respondent (i.e., employer) burden, conducts a preclearance consultation program to provide the public with an opportunity to comment on proposed and continuing information collection requirements in accord with the Paperwork Reduction Act of 1995 (PRA–95) (44 U.S.C. 3506(c)(2)(A)). This program ensures that information is in the desired format, reporting burden (time and costs) is minimal, collection instruments are clearly understood, and
OSHA’s estimate of the information collection burden is accurate. The Occupational Safety and Health Act of 1970 (the OSH Act) (29 U.S.C. 651 et seq.) authorizes information collection by employers as necessary or appropriate for enforcement of the OSH Act or for developing information regarding the causes and prevention of occupational injuries, illnesses, and accidents (29 U.S.C. 657). The OSH Act also requires that OSHA obtain such information with minimum burden upon employers, especially those operating small businesses, and to reduce to the maximum extent feasible unnecessary duplication of efforts in obtaining information (29 U.S.C. 657).

The collections of information contained in the Logging Operations Standard are necessary to reduce workers’ risk of death or serious injury by requiring employers to assure that operating and maintenance instructions are available on machines or in the area where the machine is operated. For vehicles, employers must assure that operating and maintenance instructions are available for each vehicle.

**Maintenance and Operating Instructions** (§§ 1910.266(f)(1)(iiii) and (g)(3))

Under paragraph (f)(1)(iiii) and (g)(3) of the Standard, employers must assure that operating and maintenance instructions are available on machines or in the area where the machine is being operated, and in vehicles. For those machines with no operating instructions in the cab, the employer will be required to obtain and retain a manual within the immediate work area for each machine. Since the Logging Operations final rule has been in effect since 1995, OSHA assumes that all employers are in compliance with the provision to have operating and maintenance instructions available on machines or in the area where the machines are being operated.

**Certification of Training** (§§ 1910.266(i)(10)(i) and (i)(10)(ii))

Paragraph (i)(10)(i) requires employers to certify in writing that a worker/supervisor received the training the Standard requires. Under paragraph (i)(10)(ii), employers need only maintain the most recent certification for training that a worker/supervisor has received.

**II. Special Issues for Comment**

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the Agency’s functions, including whether the information is useful;
- The accuracy of OSHA’s estimate of the burden (time and cost) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply, for example, by using automated or other technological information collection and transmission techniques.

**III. Proposed Action**

OSHA is requesting that OMB extend its approval of the information collection requirements contained in the Logging Operations Standard (29 CFR 1910.266). OSHA is proposing to decrease the burden hours in its currently approved information collection request from 1,622 burden hours to 1,606 burden hours (a total decrease of 16 hours). This decrease is due to updated data showing a decrease in the number of establishments affected by the Standard as well as the removal of burden hours associated with the requirement that employers provide training to workers. Upon further analysis, this provision is not considered to be a collection of information under PRA—95. The Agency will summarize the comments submitted in response to this notice and will include this summary in the request to OMB.

**Type of Review:** Extension of a currently approved collection.

**Title:** Logging Operations Standard (29 CFR 1910.266).

**OMB Control Number:** 1218—0198.

**Affected Public:** Business or other for-profits.

**Number of Respondents:** 7,908.

**Number of Responses:** 50,440.

**Frequency of Responses:** On occasion.

**Estimated Total Burden Hours:** 1,603 hours.

**Estimated Cost (Operation and Maintenance):** $3,469.

**IV. Public Participation—Submission of Comments on This Notice and Internet Access to Comments and Submissions**

You may submit comments in response to this document as follows: (1) Electronically at http://www.regulations.gov, which is the Federal eRulemaking Portal; (2) by facsimile (fax); or (3) by hard copy. All comments, attachments, and other material must identify the Agency name and the OSHA docket number for the ICR (Docket No. OSHA—2016—0041). You may supplement electronic submissions by uploading document files electronically. If you wish to mail additional materials in reference to an electronic or facsimile submission, you must submit them to the OSHA Docket Office (see the section of this notice titled ADDRESSES). The additional materials must clearly identify your electronic comments by your name, date, and the docket number so the Agency can attach them to your comments.

Because of security procedures, the use of regular mail may cause a significant delay in the receipt of comments. For information about security procedures concerning the delivery of materials by hand, express delivery, messenger, or courier service, please contact the OSHA Docket Office at (202) 693—2350, (TTY (877) 889—5627).

Comments and submissions are posted without change at http://www.regulations.gov. Therefore, OSHA encourages commenters about submitting personal information such as social security numbers and dates of birth. Although all submissions are listed in the http://www.regulations.gov index, some information (e.g., copyrighted material) is not publically available to read or download through this Web site. All submissions, including copyrighted material, are available for inspection and copying at the OSHA Docket Office. Information on using the http://www.regulations.gov Web site to submit comments and access the docket is available at the Web site’s “User Tips” link.

Contact the OSHA Docket Office for information about materials not available through the Web site, and for assistance in using the Internet to locate docket submissions.
