[Project No. 14680–002–RI]

Water Street Land, LLC; Notice of Availability of Environmental Assessment

In accordance with the National Environmental Policy Act of 1969 and

the Federal Energy Regulatory Commission's regulations, 18 CFR part 380 (Order No. 486, 52 FR 47879), the Office of Energy Projects has reviewed the application for exemption from licensing for the Natick Pond Dam Hydroelectric Project, to be located on the Pawtuxet River, in the towns of Warwick and West Warwick, Kent County, Rhode Island, and has prepared an Environmental Assessment (EA). In the EA, Commission staff analyzes the potential environmental effects of the project and concludes that issuing an exemption for the project, with appropriate environmental measures, would not constitute a major federal action significantly affecting the quality of the human environment.

A copy of the EA is on file with the Commission and is available for public inspection. The EA may also be viewed on the Commission's Web site at <http://www.ferc.gov> using the "eLibrary" link. Enter the docket number, excluding the last three digits in the docket number field, to access the document. For assistance, contact FERC Online Support at FERCOnlineSupport@ferc.gov or toll-free at 1–866–208–3676, or for TTY, (202) 502–8659. DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP17–40–000]

Spire STL Pipeline Company, LLC; Supplemental Notice of Intent To Prepare an Environmental Assessment for the Proposed Spire STL Pipeline Project and Request for Comments on Environmental Issues

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of the Spire STL Pipeline Project (Project) involving construction and operation of

facilities by Spire STL Pipeline Company, LLC (Spire) in Scott, Greene, and Jersey Counties, Illinois and St. Charles and St. Louis Counties, Missouri. The Commission will use this EA in its decision-making process to determine whether the Project is in the public convenience and necessity.

On October 26, 2016, the Federal Energy Regulatory Commission (FERC or Commission) issued in Docket No. PF16–9–000 a *Notice of Intent to Prepare an Environmental Assessment for the Planned Spire STL Pipeline Project, Request for Comments on Environmental Issues, and Notice of Public Scoping Sessions* (NOI). Spire has subsequently filed a potential pipeline route alternative in St. Louis County, Missouri.

This supplemental notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies regarding the pipeline route alternative. You can make a difference by providing us with your specific comments or concerns about the new route under consideration. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. Your input will help the Commission staff determine what issues to evaluate in the EA. To ensure that your comments are timely and properly recorded, please send your comments so that the Commission receives them in Washington, DC on or before April 3, 2017.

This notice is being sent to a subset of the Commission's current environmental mailing list for this Project, relevant to the new alternative in St. Louis County. State and local government representatives should also notify their constituents and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the planned facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the Commission approves the Project, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings where compensation would be determined in accordance with state law.
