

Appendix C, National Policy Requirements Matrix. The companion resources, when finalized, will be posted on the NSF Web site at: <https://www.nsf.gov/awards/managing/rtc.jsp>. The RTCs include flexibility for additional individual agency clarification through the incorporation of Appendices A–C and Agency-Specific Requirements.

These RTCs will apply to an award when they are included as part of that award, or when incorporated into that award by reference. Each participating agency will develop their own implementation plan, and agency specific requirements to the RTCs, which will be posted on the NSF Web site at: <https://www.nsf.gov/awards/managing/rtc.jsp>. Since there will be multiple implementation dates, the RTC Web site should be consulted frequently.

Other agencies not identified above that would like to implement the RTCs are strongly encouraged to do so. In order to provide the necessary documentation to the research community, the following information must be provided to NSF prior to adoption of the RTCs: Prior Approval Matrix, Subaward Requirements Matrix, Agency-Specific Requirements, and agency implementation plan.

On behalf of the RBM, the National Science Foundation (NSF) has agreed to continue to serve as the sponsor of the updated version of these RTCs.

Dated: March 9, 2017.

### Agency Information Collection Activities: Comment Request

**AGENCY:** National Science Foundation.

**ACTION:** Submission for OMB review; comment request.

**SUMMARY:** The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995, Public Law 104-13. This is the second notice for public comment; the first was published in the **Federal Register** at 81 FR 91959, and no comments were received. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second

notice. The full submission (including comments) may be found at: <http://www.reginfo.gov/public/do/PRAMain>.

**Comments:** Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Foundation, including whether the information will have practical utility; (b) the accuracy of the Foundation's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of automated collection techniques or other forms of information technology.

**DATES:** Written comments on this notice must be received by April 13, 2017, to be assured consideration. Comments received after that date will be considered to the extent practicable. Send comments to address below.

**FOR FURTHER INFORMATION CONTACT:** Ms. Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 4201 Wilson Boulevard, Suite 1265, Arlington, Virginia 22230; telephone (703) 292-7556; or send email to [splimpto@nsf.gov](mailto:splimpto@nsf.gov). Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

#### SUPPLEMENTARY INFORMATION:

*Title of Collection:* Grantee Reporting Requirements for National User Facilities managed by the NSF Division of Materials Research.

*OMB Number:* 3145-0234.

*Expiration Date of Approval:* March 31, 2017.

*Type of Request:* Intent to seek approval to renew an information collection.

#### *Overview of This Information Collection:*

The NSF Division of Materials Research (DMR) supports a number of National User Facilities that provide specialized capabilities and instrumentation to the scientific

community on a competitive proposal basis. In addition to the user program, these facilities support in-house research, development of new instrumentation or techniques, education, and knowledge transfer.

The facilities integrate research and education for students and post-docs involved in experiments, and support extensive K-12 outreach to foster an interest in Science Technology Engineering and Mathematics (STEM) and STEM careers. Facilities capitalize on diversity through participation in center activities and demonstrate leadership in the involvement of groups underrepresented in science and engineering.

National User Facilities will be required to submit annual reports on progress and plans, which will be used as a basis for performance review and determining the level of continued funding. User facilities will be required to develop a set of management and performance indicators for submission annually to NSF via the Research Performance Project Reporting (RPPR) module in Research.gov. These indicators are both quantitative and descriptive and may include, for example, lists of successful proposal and users, the characteristics of facility personnel and students; sources of financial support and in-kind support; expenditures by operational component; research activities; education activities; knowledge transfer activities; patents, licenses; publications; degrees granted to students supported through the facility or users of the facility; descriptions of significant advances and other outcomes of this investment. Such reporting requirements are included in the cooperative agreement which is binding between the academic institution and the NSF.

Each facility's annual report will address the following categories of activities: (1) Research, (2) education and training, (3) knowledge transfer, (4) partnerships, (5) diversity, (6) management, and (7) budget issues.

For each of the categories the report will describe overall objectives and metrics for the reporting period, challenges or problems the facility has encountered in making progress towards goals, anticipated problems in the following year, and specific outputs and outcomes.

Facilities are required to file a final report through the RPPR. Final reports contain similar information and metrics as annual reports, but are retrospective and focus on the period that was not addressed in previous annual reports.

*Use of the Information:* NSF will use the information to continue funding of

the DMR National User Facilities, and to evaluate the progress of the program.

*Estimate of Burden:* 200 hours per facility for three National User Facilities for a total of 600 hours.

*Respondents:* Non-profit institutions.

*Estimated Number of Responses per Report:* One (1) from each of the DMR user facilities.

Dated: March 8, 2017.
