SUPPLEMENTARY INFORMATION: The DOL, as part of continuing efforts to reduce paperwork and respondent burden, conducts a pre-clearance consultation program to provide the general public and Federal agencies an opportunity to comment on proposed and/or continuing collections of information before submitting them to the OMB for final approval. This program helps to ensure requested data can be provided in the desired format, reporting burden (time and financial resources) is minimized, collection instruments are clearly understood, and the impact of collection requirements can be properly assessed.

I. Background

Section 303(a)(1) of the Social Security Act requires a state’s unemployment insurance UI law to include provisions for:

Such methods of administration . . . as are found by the Secretary of Labor to be reasonably calculated to insure full payment of unemployment compensation when due . . .

Section 303(a)(5) of the Social Security Act further requires a state’s UI law to include provisions for:

Expenditure of all money withdrawn from an unemployment fund of such State, in the payment of unemployment compensation . . .

Section 3304(a)(4) of the Internal Revenue Code of 1954 provides that:

all money withdrawn from the unemployment fund of the State shall be used solely in the payment of unemployment compensation . . .

The Secretary of Labor has interpreted the above sections of federal law in Section 7511, Part V, ES Manual to further require a state’s UI law to include provisions for such methods of administration as are, within reason, calculated to: (1) Detect benefits paid through error by the State Workforce
Agencies (SWA) or through willful misrepresentation or error by the claimant or others; (2) deter claimants from obtaining benefits through willful misrepresentation; and (3) recover benefits overpaid. The ETA 227 is used to determine whether SWAs meet these requirements.

The ETA 227 contains data on the number and amounts of fraud and non-fraud overpayments established, the methods by which overpayments were detected, the amounts and methods by which overpayments were collected, the amounts of overpayments waived and written off, the accounts receivable for overpayments outstanding, and data on criminal/civil actions. These data are gathered by 53 SWAs and reported to the Department of Labor following the end of each calendar quarter. The overall effectiveness of SWAs’ UI integrity efforts can be determined by examining and analyzing the data. These data are also used by SWAs as a management tool for effective UI program administration.

This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6.

Interested parties are encouraged to provide comments to the contact shown in the ADDRESSES section. Comments must be written to receive consideration, and they will be summarized and included in the request for OMB approval of the final ICR. In order to help ensure appropriate consideration, comments should mention Overpayment Detection and Recovery Activities, OMB control number 1205–0187.

Submitted comments will also be a matter of public record for this ICR and posted on the Internet, without redaction. The DOL encourages commenters not to include personally identifiable information, confidential business data, or other sensitive statements/information in any comments.

The DOL is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.

Under the Government Performance and Results Act of 1993 (GPRA), the Department’s Strategic Plan is an integral part of the budget process. Among the purposes of the GPRA are to improve Federal program effectiveness and public accountability by focusing on program results, service quality, and customer satisfaction.

Strategic Objective 4.1 in the Department’s fiscal year (FY) 2014–2018 Strategic Plan is to provide income support when work is impossible or unavailable and facilitate return to work, which focuses on improving the operational performance and effectiveness of the Federal/state UI program. This goal is supported in part by the performance measure indicating the percentage of UI claimants reemployed by the end of the first quarter after the quarter in which they received their initial UI benefit payment. ETA collects the data to measure the facilitation of
