documents such as the RI/FS, Risk Assessment, ROD, Proposed Plan, ESD and Five-Year Reviews.

On July 25, 2006 representatives from the EPA, ADEM, CSXT, and AMEC held a public availability session, regarding the upcoming IEWP for the Site. The purpose of the availability session was to inform the general public and local residents living near the Site, of the success of the long term cleanup activities at the Site. At the time of the meeting, benzene was detected in only three of the monitoring wells, with two of those exceeding the 5 µg/L cleanup level.

On September 16, 2009 representatives from the EPA, ADEM, CSXT, and AMEC held a public availability session to discuss the closure of a portion of the monitoring network, located south of Highway 47. These wells had completed five years of sampling with laboratory results below the 5 µg/L cleanup goal. In accordance with the approved CMP, this milestone achieved allowed the southern portion of the former plume to be eligible for closure.

On March 19, 2014 representatives held a public availability session to discuss the attainment of cleanup goals for five consecutive years in each of the remaining monitoring wells. With the attainment of all cleanup goals set forth for the Site, this public availability session served to inform the local community that all monitoring and site related activities would cease.

Public participation activities have been satisfied as required in CERCLA Section 113(k), 42 U.S.C. 9613(k) and CERCLA Section 117, 42 U.S.C. 9617. Documents in the deletion docket, which the EPA relied on for the Site, are available for inspection at the information repositories identified above.

Determination That the Site Meets the Criteria for Deletion From the NCP

Region 4 has followed the procedures required by 40 CFR 300.425(e) as mentioned above and the implemented remedy achieves the degree of cleanup specified in the ROD for all pathways of exposure. Specifically, ground water sampling results have below the benzene clean-up goal of 5 µg/L for five consecutive years. These results verify that the Site has achieved the ROD cleanup standards, and that all cleanup actions specified in the ROD and ESD have been implemented. All selected remedial and removal action objectives and associated cleanup levels are consistent with agency policy and guidance. This Site meets all the site completion requirements as specified in Office of Solid Waste and Emergency Response (OSWER) Directive 9320.22, Close-Out Procedures for National Priorities List Sites. No further Superfund response is needed to protect human health and the environment.

V. Deletion Action

The EPA, with concurrence of the State of Alabama through ADEM, has determined that all appropriate response actions under CERCLA have been completed. Therefore, the EPA is deleting the Site from the NPL.

Because the EPA considers this action to be noncontroversial and routine, the EPA is taking it without prior publication. This action will be effective May 16, 2017 unless the EPA receives adverse comments by April 17, 2017. If adverse comments are received within the 30-day public comment period, the EPA will publish a timely withdrawal of this direct final notice of deletion before the effective date of the deletion, and it will not take effect. The EPA will prepare a response to comments and continue with the deletion process on the basis of the notice of intent to delete and the comments already received. There will be no additional opportunity to comment.

List of Subjects in 40 CFR Part 300

Environmental protection, Air pollution control, Chemicals, Hazardous waste, Hazardous substances, Intergovernmental relations, Penalties, Reporting and recordkeeping requirements, Superfund, Water pollution control, Water supply.

Dated: September 6, 2016.

V. Anne Heard,
Acting Regional Administrator, Region 4.

For the reasons set out in this document, 40 CFR part 300 is amended as follows:

PART 300—NATIONAL OIL AND HAZARDOUS SUBSTANCES POLLUTION CONTINGENCY PLAN

1. The authority citation for part 300 is revised to read as follows:

2. Table 1 of Appendix B to part 300 is amended by removing “AL”, “Perdido Ground Water Contamination”, “Perdido”.

DEPARTMENT OF HOMELAND SECURITY

Federal Emergency Management Agency

44 CFR Part 67

[Docket ID FEMA–2016–0002]

Final Flood Elevation Determinations

AGENCY: Federal Emergency Management Agency, DHS.

ACTION: Final rule.

SUMMARY: Base (1% annual-chance) Flood Elevations (BFEs) and modified BFEs are made final for the communities listed below. The BFEs and modified BFEs are the basis for the floodplain management measures that each community is required either to adopt or to show evidence of being already in effect in order to qualify or remain qualified for participation in the National Flood Insurance Program (NFIP).

DATES: Effective March 17, 2017. The date of issuance of the Flood Insurance Rate Map (FIRM) showing BFEs and modified BFEs for each community may be obtained by contacting the office where the maps are available for inspection as indicated in the table below.

ADDRESSES: The final BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

FOR FURTHER INFORMATION CONTACT: Rick Sachibbit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW., Washington, DC 20472, (202) 646–7659, or (email) patrick.sachibbit@fema.dhs.gov; or visit the FEMA Map Information eXchange (FMIX) online at www.floodmaps.fema.gov/fhm/fmx_main.html.

SUPPLEMENTARY INFORMATION: The Federal Emergency Management Agency (FEMA) makes the final determinations listed below for the modified BFEs for each community listed. These modified elevations have been published in newspapers of local circulation and ninety (90) days have elapsed since that publication. The Deputy Associate
Administrator for Insurance and Mitigation has resolved any appeals resulting from this notification. This final rule is issued in accordance with section 110 of the Flood Disaster Protection Act of 1973, 42 U.S.C. 4104, and 44 CFR part 67. FEMA has developed criteria for floodplain management in floodprone areas in accordance with 44 CFR part 60. Interested lessees and owners of real property are encouraged to review the proof Flood Insurance Study and FIRM available at the address cited below for each community. The BFEs and modified BFEs are made final in the communities listed below. Elevations at selected locations in each community are shown.

National Environmental Policy Act. FEMA has reviewed this final rule for purposes of the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.) and has determined that this action will not have a significant effect on the human environment. This action is covered by categorical exclusions A4 and A 7 in Department of Homeland Security (DHS) Instruction 023–01–001–01, Appendix A.

Regulatory Flexibility Act. As flood elevation determinations are not within the scope of the Regulatory Flexibility Act, 5 U.S.C. 601–612, a regulatory flexibility analysis is not required.

Regulatory Classification. This final rule is not a significant regulatory action under the criteria of section 3(f) of Executive Order 12866 of September 30, 1993, Regulatory Planning and Review, 58 FR 51735.

Executive Order 13132, Federalism. This final rule involves no policies that have federalism implications under Executive Order 13132.

Executive Order 12988, Civil Justice Reform. This final rule meets the applicable standards of Executive Order 12988.

---

**List of Subjects in 44 CFR Part 67**

Administrative practice and procedure, Flood insurance, Reporting and recordkeeping requirements.

Dated: December 21, 2016.

Accordingly, 44 CFR part 67 is amended as follows:

**PART 67—[AMENDED]**

1. The authority citation for part 67 continues to read as follows:

§ 67.11 [Amended]

2. The tables published under the authority of § 67.11 are amended as follows:

---

### Flooding source(s) | Location of referenced elevation | *Elevation in feet (NGVD)* | +Elevation in feet (NAVD) | #Depth in feet above ground | *Elevation in meters (MSL)* | Modified | Communities affected
---|---|---|---|---|---|---|---
Beal Creek | Approximately 750 feet upstream of State Highway 47 .... | +170 | City of Forest Grove, Unincorporated Areas of Washington County.
Beaverton Creek | At upstream side of Southwest 197th Avenue .......... | +160 | City of Beaverton, City of Hillsboro, Unincorporated Areas of Washington County.
| Approximately 870 feet upstream of Southwest Laurelwood Avenue. | +267 | Unincorporated Areas of Washington County.
Bethany Creek | Approximately 0.21 mile downstream of Northwest 185th Avenue. | +174 | City of Beaverton, City of Hillsboro, Unincorporated Areas of Washington County.
| Approximately 0.58 mile upstream of Northwest West Union Road. | +188 | Unincorporated Areas of Washington County.
Bronson Creek | Approximately 65 feet downstream of Northwest Anzalone Drive. | +158 | City of Beaverton, City of Hillsboro, Unincorporated Areas of Washington County.
| Approximately 1.0 mile upstream of Northwest West Union Road. | +238 | Unincorporated Areas of Washington County.
Butternut Creek | Approximately 940 feet downstream of Southwest 209th Avenue. | +165 | Unincorporated Areas of Washington County.
| Approximately 80 feet upstream of Southwest Farmington Road. | +200 | City of Beaverton, Unincorporated Areas of Washington County.
Cedar Creek | Approximately 0.4 mile downstream of Southwest Edy Road. | +145 | City of Sherwood, Unincorporated Areas of Washington County.
| Approximately 560 feet upstream of Southwest Sunset Boulevard. | +176 | City of Beaverton, Unincorporated Areas of Washington County.
Cedar Mill Creek | Approximately 0.6 mile downstream of Portland & Western Railroad. | +171 | City of Beaverton, Unincorporated Areas of Washington County.
| Approximately 90 feet upstream of Northwest 113th Avenue. | +300 | City of Beaverton, Unincorporated Areas of Washington County.
Cedar Mill Creek—North Overflow. | At the Cedar Mill Creek confluence .......................... | +207 | City of Beaverton, Unincorporated Areas of Washington County.
| Approximately 250 feet upstream of Southwest 131st Avenue. | +213 | City of Beaverton, Unincorporated Areas of Washington County.
Cedar Mill Creek—South Overflow. | At the Cedar Mill Creek confluence .......................... | +195 | City of Beaverton, Unincorporated Areas of Washington County.

**DEPARTMENT OF HOMELAND SECURITY**

**Federal Emergency Management Agency**

**44 CFR Part 67**

[Docket No. FEMA–2016–0002]

**Final Flood Elevation Determinations**

**AGENCY:** Federal Emergency Management Agency; DHS.

**ACTION:** Final rule; correction.

**SUMMARY:** On October 26, 2015, FEMA published in the Federal Register a final rule that contained an erroneous table. This rule provides corrections to that table, to be used in lieu of the information published. The table provided here represents the final Base (1% annual-chance) Flood Elevations (BFEs) and modified BFEs and communities affected for St. Charles County, Missouri and Incorporated Areas.

**DATES:** Effective March 17, 2017. The date of issuance of the Flood Insurance Rate Map (FIRM) showing BFEs and modified BFEs for each community may be obtained by contacting the office where the maps are available for inspection as indicated in the table below.

**ADDRESSES:** The final BFEs for each community are available for inspection at the office of the Chief Executive Officer of each community. The respective addresses are listed in the table below.

**FOR FURTHER INFORMATION CONTACT:** Rick Sachibit, Chief, Engineering Services Branch, Federal Insurance and Mitigation Administration, FEMA, 400 C Street SW., Washington, DC 20472, (202) 646–7659, or (email) patrick.sachibit@fema.dhs.gov; or visit the FEMA Map Information eXchange (FMIX) online at www.floodmaps.fema.gov/fhm/fmix_main.html.

**SUPPLEMENTARY INFORMATION:** On October 26, 2015, FEMA published in the Federal Register a final rule that contained an erroneous table. This rule provides corrections to that table, to be used in lieu of the information published at 80 FR 65162–65164.

The Federal Emergency Management Agency (FEMA) makes the final determinations listed below for the modified BFEs for each community listed. These modified elevations have been published in newspapers of local circulation and ninety (90) days have elapsed since that publication. The Deputy Associate Administrator for Insurance and Mitigation has resolved any appeals resulting from this notification.
