approved by the Director of the Federal Register as of September 30, 2017.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION: On February 6, 2017, the United States Department of Energy (“DOE”) temporarily postponed the effective date of its final rule amending the baseline Federal building standards published in the Federal Register on January 10, 2017. See 82 FR 9343. The January 31st rule temporarily postponed the effective date of the final rule by 60 days, starting from January 20, 2017. The temporary 60-day delay in effective date was necessary to give the newly appointed Secretary of Energy (Secretary) the opportunity for further review and consideration of new regulations. However, the Secretary was not confirmed and did not begin work in his position until March 3, 2017. As a result, the Secretary was unable to accomplish the review and consideration during the original postponement of the effective date of the regulation establishing the baseline Federal building standards. Therefore, DOE hereby further temporarily postpones the effective date of that baseline Federal building standards regulation to allow the Secretary the opportunity to accomplish this task. The effective date of this regulation is postponed until September 30, 2017. This will not change the statutory compliance date, which will remain on January 10, 2018.

To the extent that 5 U.S.C. 553 applies to this action, it is exempt from notice and comment because it constitutes a rule of procedure under 5 U.S.C. 553(b)(A). Alternatively, DOE’s implementation of this action without opportunity for public comment, effective immediately upon publication in the Federal Register, is based on the good cause exceptions in 5 U.S.C. 553(b)(B) and 553(d)(3). Pursuant to 5 U.S.C. 553(b)(B), DOE has determined that good cause exists to forego the requirement to provide prior notice and an opportunity for public comment thereon for this rule as such procedures would be impracticable, unnecessary and contrary to the public interest. DOE is temporarily postponing the effective date of this regulation pursuant to the previously-noted need for review by the Secretary. The January 10, 2018, compliance date is unaffected by this action. As a result, seeking public comment on this delay is unnecessary and contrary to the public interest. It is also impracticable given the timing of the Secretary’s confirmation and the March 21 effective date established by the prior temporary postponement. For these same reasons DOE finds good cause to waive the 30-day delay in effective date provided for in 5 U.S.C. 553(d).

Issued in Washington, DC, on March 15, 2017.
John T. Lucas,
Acting General Counsel.

Small Business Investment Companies: Passive Business Expansion and Technical Clarifications
AGENCY: U.S. Small Business Administration.
ACTION: Final rule; delay of effective date.

SUMMARY: On December 28, 2016, the Small Business Administration (SBA) published a final rule to expand permitted investments in passive businesses and provide further clarification with regard to investments in such businesses for the Small Business Investment Company (SBIC) program. With an effective date of January 27, 2017, on January 26, 2017, SBA published a delay of effective date until March 21, 2017 and re-opened the rule for additional public comment in response to the memorandum dated January 20, 2017 from the Assistant to the President and Chief of Staff, entitled “Regulatory Freeze Pending Review.” SBA requires additional time to consider this final rule and determine whether any further changes are required; therefore, the effective date for this final rule is delayed until May 20, 2017. Any changes to the final rule based on this redetermination will be published in the Federal Register.

DATES: As of March 21, 2017, the effective date of the SBA final rule published December 28, 2016 (81 FR 95419), and delayed January 26, 2017 (82 FR 8499), is further delayed until May 20, 2017.
exception and in the second exception eliminates the prior approval requirement and expands the purposes for which a blocker corporation may be formed. The final rule also adds new reporting and other requirements for passive investments to help protect SBA’s financial interests and ensure adequate oversight and makes minor technical amendments. Finally, this rule makes a conforming change to the regulations regarding the amount of leverage available to SBICs under common control. This change is necessary for consistency with the Consolidated Appropriations Act, 2016, which increased the maximum amount of such leverage to $350 million from $225 million.

Dated: March 10, 2017.

Airworthiness Directives; The Boeing Company Airplanes

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; request for comments.

SUMMARY: We are superseding Airworthiness Directive (AD) 2017–03–04, which applied to all The Boeing Company Model 737–500 series airplanes. AD 2017–03–04 required inspections to detect cracks in the fuselage skin panels, permanent repairs of time-limited repairs, skin panel replacement, and related investigative and corrective actions if necessary. This AD reduces the applicability of AD 2017–03–04. This AD was prompted by a determination that airplanes were inadvertently included in the applicability of AD 2017–03–04. We are
