TWIC® and undergo the associated security threat assessment. The data used to conduct a comprehensive security threat assessment includes: (1) A criminal history records check; (2) a check of intelligence databases; and (3) an immigration status check. TSA may also use the data to determine a TWIC® holder’s eligibility to participate in TSA’s expedited screening program for air travel, TSA Pre✓®, without requiring an additional background check.

At the enrollment center, applicants verify their biographic information and provide identity documentation, biometric information, and proof of immigration status (if required). This information allows TSA to complete a security threat assessment. During enrollment, TSA collects from applicants a $125.25 fee for standard enrollment. (Effective October 1, 2016, TSA reduced the standard enrollment fee by $2.75 in alignment to the FBI’s fee update for fingerprint-based criminal history records checks.) If TSA determines that the applicant is eligible to receive a TWIC®, TSA issues and sends an activated TWIC® card to the address provided by the applicant or notifies the applicant that their TWIC® is ready for pick up and activation at an enrollment center. Once activated, this credential will be used for facility and vessel access control requirements to include card authentication, card validation, and identity verification. In the event of a lost, damaged or stolen credential, the cardholder may request a replacement card from an enrollment center for a $60.00 fee. The one-time temporary Extended Expiration Date (EED) TWIC® renewal option and collection requirement is discontinued. TSA also conducts a survey to capture applicant and cardholder overall satisfaction with the enrollment and activation process. This optional customer satisfaction survey is provided at the end of enrollment and at the end of the activation processes.

**Total Annual Survey Hour Burden:**
An estimated 9,351 hours annually, including 7,640 hours at enrollment and 1,711 hours at card issuance.

**Dated:** March 15, 2017.

**New Agency Information Collection Activity Under OMB Review: Travel Request and Expense Report Form for TSA Contractors**

**AGENCY:** Transportation Security Administration, DHS.

**ACTION:** 30-day Notice.

**SUMMARY:** This notice announces that the Transportation Security Administration (TSA) has forwarded the new Information Collection Request (ICR) abstracted below to the Office of Management and Budget (OMB) for review and approval under the Paperwork Reduction Act (PRA). The ICR describes the nature of the information collection and its expected burden. TSA published a Federal Register notice, with a 60-day comment period soliciting comments, of the following collection of information on December 6, 2016, 81 FR 87947. The collection involves the submission of basic identifying and travel information for a contractor intending to conduct travel determined to be a reimbursable expense under a TSA contract.

**DATES:** Send your comments by April 20, 2017. A comment to OMB is most effective if OMB receives it within 30 days of publication.

**ADDRESSES:** Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, OMB. Comments should be addressed to Desk Officer, Department of Homeland Security/TSA, and sent via electronic mail to oira_submission@omb.eop.gov or faxed to (202) 395–6974.

**FOR FURTHER INFORMATION CONTACT:** Christina A. Walsh, TSA PRA Officer, Office of Information Technology (OIT), TSA—11, Transportation Security Administration, 601 South 12th Street, Arlington, VA 20598–6011; telephone (571) 227–2062; email TSAPRA@tsa.dhs.gov.

**SUPPLEMENTARY INFORMATION:**

**Comments Invited**

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation is available at http://www.reginfo.gov. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

1. Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency’s estimate of the burden;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

**Information Collection Requirement**

**Title:** Travel Request and Expense Report Form for TSA Contractors

**Type of Request:** New collection.

**OMB Control Number:** Not yet assigned.

**Form(s):** TSA Form 308.

**Affected Public:** TSA Contractors.

**Abstract:** Pursuant to the Federal Travel Regulation (FTR), TSA has authority to implement statutory requirements and policies for travel by Federal civilian employees and others authorized to travel at government expense. See FTR, 41 CFR chapter 300. See also 5 U.S.C. 5707 (Travel, Transportation, and Subsistence). Consistent with this authority, TSA created the Contractor Travel Request and Expense Report form. The form allows a TSA Contracting Officer Representative to preauthorize reimbursable travel for a contractor intending to conduct travel determined to be a reimbursable expense under the contract. Additionally, the form allows for post-travel verification of the invoiced-amount with the preauthorized costs. The data collected on the form...
includes basic identifying information for the individual traveling, such as full name of the traveler, travel date(s) and location(s), departure information, justification for travel, all costs associated with the travel, name and contract number for the vendor and signature of the requesting vendor. The data will be collected as necessary when travel-related expenses under a contract meet the stipulated requirements for reimbursable travel.

Number of Respondents: 450.

Estimated Annual Burden Hours: An estimated 150 hours annually.

Christina A. Walsh,

TSA Paperwork Reduction Act Officer, Office of Information Technology.

SUPPLEMENTARY INFORMATION: This ICR seeks to extend PRA authority for the Health Standards for Diesel Particulate Matter Exposure in Underground Coal Mines information collection requirements codified in regulations 30 CFR 72.510(a) and (b) and 72.520(a) and (b). More specifically regulations section 72.510(b) requires an underground coal mine operator to keep a record for one year of having provided required training. Section 72.520(a) and (b) requires an underground coal mine operator to maintain an inventory of diesel powered equipment units together with a list of information about any unit’s emission control or filtration system. The list must be updated within seven (7) calendar days of any change. Federal Mine Safety & Health Act of 1977 sections 101(a) and 103(h) authorize this information collection. See 30 U.S.C. 811(a) and 813(h). This information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition, notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information that does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. The DOL obtains OMB approval for this information collection under Control Number 1219–0124. OMB authorization for an ICR cannot be for more than three (3) years without renewal, and the current approval for this collection is scheduled to expire on March 31, 2017. The DOL seeks to extend PRA authorization for this information collection for three (3) more years, without any change to existing requirements. The DOL notes that existing information collection requirements submitted to the OMB receive a month-to-month extension while they undergo review. For additional substantive information about this ICR, see the related notice published in the Federal Register on November 4, 2016 (81 FR 76968).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the ADDRESSES section within thirty (30) days of publication of this notice in the Federal Register. In order to help ensure appropriate consideration, comments should mention OMB Control Number 1219–0124. The OMB is particularly interested in comments that:

• Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;

• Evaluate the accuracy of the agency’s estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

• Enhance the quality, utility, and clarity of the information to be collected; and

• Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
