Series for the period of time and accessibility specified in Rule 17a–4(b). Because proposed Rule 6890 incorporates Rule 17a–4(b) and implements the recordkeeping provision of the CAT NMS Plan, the Commission finds that proposed Rule 6890 is consistent with the Act.

K. Timely, Accurate and Complete Data (Rule 6893)

The Commission finds that proposed Rule 6893 is consistent with the Act as it implements the requirements for reporting timely, accurate and complete data to the CAT as set forth in the CAT NMS Plan. FINRA notes that proposed Rule 6893 implements the requirement in Rule 613 and the CAT NMS Plan that data reported to the CAT be timely, accurate and complete. Specifically, proposed Rule 6893(a) requires that Industry Members record and report data to the Central Repository as required by the proposed Rule 6800 Series in a manner that ensures the timeliness, accuracy, integrity and completeness of such data. Proposed Rule 6893(b) requires Industry Members to accurately provide the LEIs in their records as required by the proposed Rule 6800 Series and states that Industry Members may not knowingly submit inaccurate LEIs to the Central Repository. Paragraph (b) notes, however, that this requirement does not impose any additional due diligence obligations on Industry Members with regard to LEIs for CAT purposes.

Proposed Rule 6893(c) and (d) require Industry Members to be in compliance with the ERROR RATE as set forth in the CAT NMS Plan and the Compliance Thresholds as discussed in the CAT NMS Plan and determined by the Operating Committee. Proposed Rule 6893 implements the CAT NMS Plan’s provisions.

L. Compliance Dates (Rule 6895)

The Commission finds that the compliance dates in proposed Rule 6895 are consistent with the Act, as they implement the compliance dates for reporting data to the CAT as set forth in the CAT NMS Plan and an exemptive order issued by the Commission. Proposed Rule 6895(a) states that, except as set forth in paragraphs (b) and (c) of the Rule or otherwise set forth in this Rule Series, the compliance date for the proposed Rule 6800 Series will be the date of Commission approval of the proposed rule change.

Proposed Rule 6895(b)(1) states that each Industry Member that captures time in milliseconds shall comply with Rule 6820 with regard to Business Clocks on or before March 15, 2017. Paragraph (b)(2) states that each Industry Member that does not capture time in milliseconds shall comply with Rule 6820 with regard to Business Clocks on or before February 19, 2018. The Commission notes that the compliance date set forth in proposed Rule 6895(b)(2) reflects the exemptive relief requested by the Participants and granted by the Commission with regard to the clock synchronization requirements related to Business Clocks that do not capture time in milliseconds.

Proposed Rule 6895(c)(1) requires each Industry Member (other than Small Industry Members) to record and report the Industry Member Data to the Central Repository by November 15, 2018. Proposed rule 6895(c)(2) requires that each Industry Member that is a Small Industry Member to record and report the Industry Member Data to the Central Repository by November 15, 2019. Proposed Rule 6895(c)(1) and (c)(2) implement the CAT NMS Plan’s provisions regarding the reporting of Industry Member data to the Central Repository.

The Commission notes that one commenter also requested that FINRA classify all firms currently exempt from reporting to OATS as classified as a “Small Industry Member” as defined by the CAT NMS Plan. The commenter notes that some OATS exempt firms would be classified as Large Industry Members but really should be subject to the three year implementation timeframe for Small Industry Members. The Participants responded that the definition of “Small Industry Member” is appropriate because it is an existing regulatory standard. The Commission believes that the proposed rule change’s use of the “Small Industry Member” definition is consistent with the CAT NMS Plan.

The Commission notes that a commenter suggested that a cost/benefit analysis be performed to review the impact of CAT on firms currently exempt from reporting to OATS. The Participants responded the Commission had already undertaken into account the impact of CAT on firms currently exempt from OATS. The Commission likewise notes that it took into account the impact of the Plan on firms currently exempt from reporting to OATS when it approved the CAT NMS Plan.

VI. Conclusion

It is therefore ordered, pursuant to Section 19(b)(2) of the Act, that the proposed rule change [SR–FINRA–2017–003] is approved.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.

Eduardo A. Aleman,
Assistant Secretary.

[SEC File No. TM–S7–11–10, OMB Control
No. 3235–0671]

Notice is hereby given that pursuant to
the Paperwork Reduction Act of 1995
(44 U.S.C. 3501 et seq.), the Securities
and Exchange Commission (“Commission”) has submitted to the
Office of Management and Budget (“OMB”) a request for approval of an
amendment to a collection of
information in connection with an
National Market System (NMS) Plan
filed with the Commission under Rule
613 (17 CFR 242.613), under the
Securities Exchange Act of 1934 (15
U.S.C. 78a et seq.).

Rule 613 of Regulation NMS (17 CFR
part 242) required national securities
exchanges and national securities
associations (“Participants”) to jointly
submit to the Commission a national
market system (“NMS”) plan to govern
the creation, implementation, and
maintenance of a consolidated audit
trail (“CAT”) and Central Repository for
the collection of information for NMS
securities. On February 27, 2015, the
Participants submitted the CAT NMS
Plan to the Commission.1

On April 27, 2016, the Commission published a notice soliciting comments from the public (“CAT NMS Plan Notice”).2 On November 15, 2016, the Commission approved the CAT NMS Plan (“CAT NMS Plan Order”), including the information collections proposed in the CAT NMS Plan Notice and certain additional information collections that are the subject of this Notice.3 This Notice addresses only the new information collections noticed in the CAT NMS Plan Order, which are: (1) A one-time independent audit of the fees, costs, and expenses incurred by the Participants on behalf of CAT NMS, LLC prior to the Effective Date 4 of the Plan; (2) a one-time assessment of the clock synchronization standards in the Plan before reporting begins for Industry Members, which assessment shall take into account the diversity of CAT Reporters and systems; (3) a one-time report that discusses the Participants’ assessment of implementing coordinated surveillance; (4) a one-time report discussing the feasibility and advisability of allowing Industry Members to bulk download the Raw Data that it has submitted to the Central Repository; (5) a one-time assessment of the nature and extent of errors in the Customer information submitted to the Central Repository and whether the correction of certain data fields over others should be prioritized; (6) a one-time report on the impact of tiered fees on market liquidity, including an analysis of the impact of the tiered-fee structure on Industry Members provision of liquidity; (7) an assessment of the projected impact of any Material Systems Change on the Maximum Error Rate, prior to the implementation of such Material Systems Change; (8) an annual requirement that that the CAT LLC financials be (i) in compliance with GAAP, (ii) be audited by an independent public accounting firm, and (iii) be made publicly available.12 The Commission believes that these audits, reports, and assessments of various aspects of the CAT NMS Plan are necessary to achieving the CAT NMS Plan’s objective of improving the quality of the data available to regulators in four areas that affect the ultimate effectiveness of core regulatory efforts—completeness, accuracy, accessibility, and timeliness.13

The new information collections further require that each Participant conduct background checks for its employees and contractors that will use the CAT System.14 The Commission believes that these background checks are necessary to ensure that only authorized and qualified persons are using the CAT System.

There are 21 respondents that require an aggregate total of 8,269,747.99 hours to comply with the collection of information, as amended. The Commission further estimates that the aggregate cost to comply with the collection of information, as amended, is $534,465,565.81.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information under the PRA unless it displays a currently valid OMB control number.
