Your comments should address one or more of the following four points:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Evaluate whether and if so how the quality, utility, and clarity of the information to be collected can be enhanced; and
- Minimize the burden of the collection of information on those who are to

respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.

Overview of This Information Collection

1. *Type of Information Collection:* Extension of a currently approved collection.

2. *The Title of the Form/Collection:* The National Instant Criminal Background Check System (NICS) Checks by Criminal Justice Agencies.

3. *The agency form number, if any, and the applicable component of the Department sponsoring the collection:* The form number is unnumbered. The applicable component within the Department of Justice is the Criminal Justice Information Services Division, in the Federal Bureau of Investigation.

4. *Affected public who will be asked or required to respond, as well as a brief abstract:*

Primary: City, county, state, tribal and federal law enforcement agencies.

Abstract: In November 1993, the Brady Handgun Violence Prevention Act of 1993 (Brady Act), Public Law 103-159, was signed into law and required Federal Firearms Licensees (FFL) to request background checks on individuals attempting to purchase a firearm. The permanent provisions of the Brady Act, which went into effect on November 20, 1998, required the United States Attorney General to establish the NICS whereas FFLs may contact by telephone or other electronic means in addition to telephone for information to be supplied within three business days or whether the receipt of a firearm by a prospective transferee would violate Section 922(g) or (n) of Title 18, United States Code, or state law. There are additional authorized uses of the NICS found at Title 28, Code of Federal Regulations (CFR), Section 25.6(j). The FBI authorized the CJAs to initiate a NICS check to assist their transfer of firearms to private individuals as a change to 28 CFR 25.6(j) in the **Federal Register**, Volume 78, Number 18 pages 5757-5760.

5. *An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond:* An estimate of the total number of respondents and the amount of time estimated for an average respondent to respond: It is estimated the time burden associated with this collection is 3 minutes per transaction, depending on the individual circumstances. The total annual

respondent entities taking advantage of this disposition process is 18,000 CJAs.

6. *An estimate of the total public burden (in hours) associated with the collection:* It is estimated the burden associated with this collection is 3 minutes per transaction depending on individual circumstances. If each of the 18,000 respondents conducted 3 dispositions with this authority per year at 3 minutes per check, then it is anticipated the business burden would be 2,700 hours per year.

Authority: 44 U.S.C. 3507(a)(1)(D).

SUPPLEMENTARY INFORMATION: This ICR seeks PRA authority for the Unemployment Insurance Benefits Operations Self-Assessment Report of Responses information collection. The report of responses to the state self-assessment will support periodic reviews conducted by ETA Regional and National Office staff for purposes of oversight and monitoring as well as providing technical assistance. This will enable the ETA to assess a state's activities and its administrative compliance with Federal law. The information gathered from the self-assessments will enable ETA Regional Office staff to work with the state to identify areas where performance improvements are needed. The results will be used to inform ETA technical assistance efforts nationally and with individual states. The results will also enable a more robust and effective collection and dissemination of state best practices. Social Security Act section 303(a)(6) authorizes this information collection. See 42 U.S.C. 503(a)(6).

This proposed information collection is subject to the PRA. A Federal agency generally cannot conduct or sponsor a collection of information, and the public is generally not required to respond to an information collection, unless it is approved by the OMB under the PRA and displays a currently valid OMB Control Number. In addition,

notwithstanding any other provisions of law, no person shall generally be subject to penalty for failing to comply with a collection of information if the collection of information does not display a valid Control Number. See 5 CFR 1320.5(a) and 1320.6. For additional information, see the related notice published in the **Federal Register** on June 30, 2016 (81 FR 42729).

Interested parties are encouraged to send comments to the OMB, Office of Information and Regulatory Affairs at the address shown in the **ADDRESSES** section within thirty (30) days of publication of this notice in the **Federal Register**. In order to help ensure appropriate consideration, comments should mention OMB ICR Reference Number 201612-1205-005. The OMB is particularly interested in comments that:

- Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
- Enhance the quality, utility, and clarity of the information to be collected; and
- Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses.
