paperwork and reporting burden currently experienced by importers and exporters. Beginning on December 31, 2016, traders will access the ITDS system via an integrated web portal hosted by CBP. Users may visit https://www.cbp.gov/trade/automated for more information on the single portal.

Through the CBP Partner Government Agency (PGA) program, DDTC promulgated a PGA Message Set that requires traders to enter data relevant to DDTC’s jurisdiction. Beginning December 31, 2016, when declaring permanent or temporary exports and/or temporary imports of defense articles controlled by the U.S. Munitions List (USML), traders will input data relevant to DDTC in CBP’s electronic system(s). CBP will transmit the relevant shipment details to DDTC via an electronic data exchange, eliminating the need for traders to notify DDTC separately.

This rule amends pertinent provisions throughout the ITAR to reflect this new submission mechanism and allow for successor systems to be put in place.

This rule will make the following changes to the ITAR (22 CFR parts 120–130):

Section 120.28—Listing of Forms Referred to in This Subchapter

Section 120.28 is revised to strike the reference to the Automated Export System and add, in its place, “U.S. Customs and Border Protection’s electronic system(s)”.

Section 120.30—The Automated Export System (AES)

Section 120.30 is removed and reserved.

Section 123.4—Temporary Import License Exemptions

Section 123.16—Exemptions of General Applicability

Sections 123.16(b)(4) and (5) are revised to clarify that certifications will be sent to CBP electronically and not via hard copy.

Executive Orders 12866 and 13563

Executive Orders 12619, 12866 and 13563 direct agencies to assess costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributed impacts, and equity). These executive orders stress the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. The Department has determined that the benefits of this rulemaking outweigh any cost to the public, which the Department believes will be minimal. OMB has designated this rule non-significant.

Executive Order 12998

The Department of State has reviewed the proposed amendment in light of Executive Order 12998 to eliminate ambiguity, minimize litigation, establish clear legal standards, and reduce burden.

Executive Order 13175

The Department of State has determined that this rulemaking will not have tribal implications, will not have significant federalism implications to require consultations on Federal programs and activities not apply to this rulemaking.

(1) If necessary, an export may be made through a port other than the one designated on the license if the exporter complies with the procedures established by U.S. Customs and Border Protection.

The documentation provided to U.S. Customs and Border Protection must include the Internal Transaction Number (ITN) for the shipment and must be accompanied by an explanation for urgency. The export filing via U.S. Customs and Border Protection’s electronic system(s) must be made at least two hours prior to any departure by air from the United States. When shipping via ground, the filing in U.S. Customs and Border Protection’s electronic system(s) must be made when the exporter provides the articles to the carrier or at least one hour prior to departure from the United States, when the permanent export of the hardware has been authorized for export:

A copy of the electronic notification to DDTC must accompany the technical data shipment and be made available to
the U.S. Customs and Border Protection upon request.

(c) Return of licenses. Licenses issued by the Directorate of Defense Trade Controls are subject to return requirements as follows:

(1) A license issued electronically by DDTC and decremented by U.S. Customs and Border Protection through its electronic system(s) is not required to be returned to DDTC. A copy of the license must be maintained by the applicant in accordance with §122.5 of this subchapter.

(2) Licenses issued by DDTC but not decremented by U.S. Customs and Border Protection through its electronic system(s) (e.g., oral or visual technical data releases) must be returned by the applicant, or the government agency with which the license was filed, to DDTC upon expiration, to include when the total authorized value or quantity has been shipped. A copy of the license must be maintained by the applicant in accordance with §122.5 of this subchapter.
