DEFENSE NUCLEAR FACILITIES SAFETY BOARD

Sunshine Act Notice

AGENCY: Defense Nuclear Facilities Safety Board.

ACTION: Notice of closed meeting; correction.

SUMMARY: The Defense Nuclear Facilities Safety Board (Board) published a notice in the **Federal Register** of March 21, 2017, (82 FR 14506), concerning a closed meeting on March 23, 2017, at the Board's headquarters located at 625 Indiana Avenue NW., Suite 352, Washington,

DC 20004-2901. The Board corrects that notice by changing the description of the meeting's closed status, as set forth below.

CONTACT PERSON FOR MORE INFORMATION: Katherine Herrera, Deputy General Manager, Defense Nuclear Facilities Safety Board, 625 Indiana Avenue NW., Suite 700, Washington, DC 20004-2901, (800) 788-4016. This is a toll-free number.

Correction

In the **Federal Register** of March 21, 2017, in FR Doc. 2017-05622, on page 14507, in the first column, correct the paragraph under the "Status" caption to read: "Closed. During the closed meeting, the Board Members will discuss issues dealing with potential Recommendations to the Secretary of Energy. The Board is invoking the exemptions to close a meeting described in 5 U.S.C. 552b(c)(3) and (9)(B) and 10 CFR 1704.4(c) and (h). The Board has determined that it is necessary to close the meeting since conducting an open meeting is likely to disclose matters that are specifically exempted from disclosure by statute, and/or be likely to significantly frustrate implementation of a proposed agency action. In this case, the deliberations will pertain to potential Board Recommendations which, under 42 U.S.C. 2286d(b) and (h)(3), may not be made publicly available until after they have been received by the Secretary of Energy or the President, respectively."

Dated: March 21, 2017.

Sean Sullivan,

Chairman.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. CP17–46–000]

Southern Natural Gas Company, LLC; Notice of Intent To Prepare an Environmental Assessment for the Proposed Fairburn Expansion Project and Request for Comments on Environmental Issues

The staff of the Federal Energy Regulatory Commission (FERC or Commission) will prepare an environmental assessment (EA) that will discuss the environmental impacts of

the Fairburn Expansion Project involving construction and operation of facilities by Southern Natural Gas Company, LLC (Southern) in Clayton, Cobb, Fayette, Fulton, and Monroe Counties, Georgia. The Commission will use this EA in its decision-making process to determine whether the project is in the public convenience and necessity.

This notice announces the opening of the scoping process the Commission will use to gather input from the public and interested agencies on the project. You can make a difference by providing us with your specific comments or concerns about the project. Your comments should focus on the potential environmental effects, reasonable alternatives, and measures to avoid or lessen environmental impacts. Your input will help the Commission staff determine what issues they need to evaluate in the EA. To ensure that your comments are timely and properly recorded, please send your comments so that the Commission receives them in Washington, DC on or before April 19, 2017.

If you sent comments on this project to the Commission before the opening of this docket on February 3, 2017, you will need to file those comments in Docket No. CP17–46–000 to ensure they are considered as part of this proceeding.

This notice is being sent to the Commission's current environmental mailing list for this project. State and local government representatives should notify their constituents of this proposed project and encourage them to comment on their areas of concern.

If you are a landowner receiving this notice, a pipeline company representative may contact you about the acquisition of an easement to construct, operate, and maintain the proposed facilities. The company would seek to negotiate a mutually acceptable agreement. However, if the Commission approves the project, that approval conveys with it the right of eminent domain. Therefore, if easement negotiations fail to produce an agreement, the pipeline company could initiate condemnation proceedings where compensation would be determined in accordance with state law.

Southern provided landowners with a fact sheet prepared by the FERC entitled "An Interstate Natural Gas Facility On My Land? What Do I Need To Know?". This fact sheet addresses a number of typically-asked questions, including the use of eminent domain and how to participate in the Commission's proceedings. It is also available for
