DEPARTMENT OF LABOR

Bureau of Labor Statistics

Technical Advisory Committee; Request for Nominations

AGENCY: Bureau of Labor Statistics (BLS), Labor.

ACTION: Request for nominations to the BLS Technical Advisory Committee.

SUMMARY: The BLS is soliciting new members for the Technical Advisory Committee (TAC). Five current membership terms expire on May 20, 2017. The TAC provides advice and makes recommendations to the Bureau of Labor Statistics on technical aspects of data collection and the formulation of economic measures. On some technical issues there are differing views, and receiving feedback at public meetings provides BLS with the opportunity to

consider all viewpoints. The Committee will consist of 16 members and will be chosen from a cross-section of economists, statisticians, and behavioral scientists who represent a balance of expertise.

DATES: Nominations for the TAC membership should be postmarked by April 17, 2017.

ADDRESSES: Nominations for the TAC membership should be sent to: Acting Commissioner Bill Wiatrowski, U.S. Bureau of Labor Statistics, 2 Massachusetts Avenue NE., Room 4040, Washington, DC 20212.

FOR FURTHER INFORMATION CONTACT: Lucy Eldridge, Associate Commissioner, U.S. Bureau of Labor Statistics, 2 Massachusetts Avenue NE., Office of Productivity and Technology, Room 2180, Washington, DC 20212. Telephone: 202-691-5600. This is not a toll free number.

SUPPLEMENTARY INFORMATION: BLS intends to renew memberships in the TAC for another three years. The Bureau often faces highly technical issues while developing and maintaining the accuracy and relevancy of its data on employment and unemployment, prices, productivity, and compensation and working conditions. These issues range from how to develop new measures to how to make sure that existing measures account for the ever-changing economy. The BLS presents issues and then draws on the specialized expertise of Committee members representing specialized fields within the academic disciplines of economics, statistics and survey design. Committee members are also invited to bring to the attention of BLS, issues that have been identified in the academic literature or in their own research.

The TAC was established to provide advice to the Commissioner of Labor Statistics on technical topics selected by the BLS. Responsibilities include, but are not limited to providing comments on papers and presentations developed by BLS research and program staff, conducting research on issues identified by BLS on which an objective technical opinion or recommendation from outside of BLS would be valuable, recommending BLS conduct internal research projects to address technical problems with BLS statistics that have been identified in the academic literature, participating in discussions of areas where the types or coverage of economic statistics could be expanded or improved and areas where statistics are no longer relevant, and establishing working relationships with professional associations with an interest in BLS statistics, such as the American

Statistical Association and the American Economic Association.

Nominations: BLS is looking for committed TAC members who have a strong interest in, and familiarity with, BLS data. The Agency is looking for nominees who use and have a comprehensive understanding of economic statistics. The U.S. Bureau of Labor Statistics is committed to bringing greater diversity of thought, perspective, and experience to its advisory committees. Nominees from all races, gender, age, and disabilities are encouraged to apply. Interested persons may nominate themselves or may submit the name of another person who they believe to be interested in and qualified to serve on the TAC. Nominations may also be submitted by organizations. Nominations should include the name, address, and telephone number of the candidate. Each nomination should include a summary of the candidate's training or experience relating to BLS data specifically, or economic statistics more generally. BLS will conduct a basic background check of candidates before their appointment to the TAC. The background check will involve accessing publicly available, Internet-based sources.

The economists will have research experience with technical issues related to BLS data and will be familiar with employment and unemployment statistics, price index numbers, compensation measures, productivity measures, occupational and health statistics, or other topics relevant to BLS data series. The statisticians will be familiar with sample design, data analysis, computationally intensive statistical methods, non-sampling errors or other areas which are relevant to BLS work. The behavioral scientists will be familiar with questionnaire design, usability or other areas of survey development. BLS invites persons interested in serving on the TAC to submit their names for consideration for committee membership.

Authority: This notice was prepared in accordance with the provisions of the Federal Advisory Committee Act (FACA), 5 U.S.C. App. 2, the Secretary of Labor has determined that the Bureau of Labor Statistics Data Users Advisory Committee is in the public interest in connection with the performance of duties imposed upon the Commissioner of Labor Statistics by 29 U.S.C. 1 and 2. This determination follows consultation with the Committee Management Secretariat, General Services Administration.

Signed at Washington, DC, this 22nd day of March 2017.
