DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 117

[Docket No. USCG–2017–0048]

Drawbridge Operation Regulation; Atlantic Beach Bridge, Reynolds Channel, Lawrence, NY

AGENCY: Coast Guard, DHS.

ACTION: Notice of deviation from drawbridge regulation.

SUMMARY: The Coast Guard has issued a temporary deviation from the operating schedule that governs the Atlantic Beach Bridge across Reynolds Channel, mile 0.4 at Lawrence, New York. This action is necessary to recoat the superstructure and reconstruct the double-leaf bascule spans in three sequential two month stages within six months. The deviation will allow the bridge to open only one bascule span at a time in order to provide passage for vessels that require an opening.

DATES: This deviation is effective from 12:01 a.m. on April 17, 2017 to 11:59 p.m. on October 13, 2017.

ADDRESSES: The docket for this deviation, USCG–2017–0048 is available at http://www.regulations.gov. Type the docket number in the “SEARCH” box and click “SEARCH”. Click on Open Docket Folder on the line associated with this deviation.

FOR FURTHER INFORMATION CONTACT: If you have questions on this temporary deviation, call or email James M. Moore, Bridge Management Specialist, First District Bridge Branch, U.S. Coast Guard; telephone 212–514–4334, email james.m.moore2@uscg.mil.

SUPPLEMENTARY INFORMATION: The two leaf bascule bridge is located across Reynolds Channel, mile 0.4 at Lawrence, New York. The deviation will allow the bridge to open only one bascule span at a time in order to provide passage for vessels that require an opening.

In accordance with 33 CFR 117.35(e), the drawbridge must return to its regular operating schedule immediately at the end of the effective period of this temporary deviation. This deviation from the operating regulations is authorized under 33 CFR 117.35.

Dated: March 31, 2017.

C.J. Bisignano,
Supervisory Bridge Management Specialist, First Coast Guard District.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 63

Mercury and Air Toxics Standards (MATS) Electronic Reporting Requirements

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is amending the electronic reporting requirements for the National Emission Standards for Hazardous Air Pollutants: Coal- and Oil-Fired Electric Utility Steam Generating Units (also known as the Mercury and Air Toxics Standards (MATS)) to allow for the temporary submission, through June 30, 2018, of certain reports using the portable document file (PDF) format and to correct inadvertent errors. With this action owners or operators of Electric Utility Steam Generating Units (EGUs) will be able to continue to use temporarily a single electronic reporting system for MATS data submissions, to rely on correct language for mercury (Hg) relative accuracy test audit (RATA) requirements, and to rely on the correct acceptance criterion for ongoing quality assurance test requirements for Hg RATAs. This extension will allow the EPA the necessary time to develop, implement, and test the code necessary so that all MATS reports required to be submitted electronically can be submitted using the Emissions Collection and Monitoring Plan System (ECMPS) Client Tool.

DATES: This final rule is effective on April 6, 2017.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA–HQ–OAR–2009–0234. All documents in the docket are listed on the http://www.regulations.gov Web site. Although listed in the index, some information is not publicly available, e.g., confidential business information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the Internet and will be publicly available only in hard copy form. Publicly available docket materials are available electronically through http://www.regulations.gov.
