Title: FERC-725E, Mandatory Reliability Standards for the Western Electric Coordinating Council.

OMB Control No.: 1902-0246.

Type of Request: Revision to the FERC-725E information collection requirements, as discussed in Docket No. RD16-10.

Abstract: On March 23, 2016 (and supplemented on November 16, 2016), the North American Electric Reliability Corporation (NERC) and Western Electricity Coordinating Council (WECC) filed a joint petition to retire regional Reliability Standard TOP-007-WECC-1a—System Operating Limits ("SOL"). The purpose of the proposed retirement is to shift away from the path-centric model and allow entities in the Western Interconnection to align their operating practices with the framework established in the continent-wide TOP/IRO Reliability Standards approved in Order No. 817,¹ which, according to NERC and WECC, achieve the objective of operating within acceptable pre- and post-contingency reliability criteria (*i.e.*, within SOLs and Interconnection Reliability Operating Limits ("IROL")). On March 10, 2017, the Commission approved the retirement of regional Reliability Standard TOP-007-WECC-1a.²

The remaining reporting requirements included in FERC-725E are not being revised.³

Type of Respondents: Public utilities.

*Estimate of Annual Burden*⁴: The Commission estimates the reduction in the annual public reporting burden for the FERC-725E (due to the retirement of

¹ The burdens related to Order No. 871 are included in FERC-725Z (Mandatory Reliability Standards: IRO Reliability Standards, OMB Control No. 1902-0276), and FERC-725A (Mandatory Reliability Standards for the Bulk-Power System, OMB Control No. 1902-0244).

² The Delegated Letter Order is posted in FERC's eLibrary at <https://elibrary.ferc.gov/idmws/common/opennat.asp?fileID=14515285>.

³ In the current OMB-approved inventory for FERC-725E, the total remaining requirements are estimated annually at 7,038 burden hours for reporting and 771 burden hours for recordkeeping.

⁴ Burden is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. For further explanation of what is included in the information collection burden, refer to 5 Code of Federal Regulations 1320.3.
