RINs 0648–XE743, 0648–XE614, 0648–XF085, and 0648–XB065

Marine Mammals and Endangered Species; File Nos. 15844–02, 18059, 20114, and 20443

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; issuance of permits and permit amendments.

SUMMARY: Notice is hereby given that permits and permit amendments have been issued to the following entities:

RIN 0648–XB065; Permit No. 15844–02: Glacier Bay National Park and Preserve, Gustavus, AK, 99826

[Responsible Party: Philip N. Hooge];

RIN 0648–XF085; Permit No. 18059: David Wiley, Ph.D., Stellwagen Bank National Marine Sanctuary, 175 Edward Foster Road, Scituate, MA 02066;

RIN 0648–XE614; Permit No. 20114: Commonwealth of Northern Mariana Islands (CNMI) Department of Lands & Natural Resources, Sea Turtle Program, Caller Box 10007 Saipan, MP 96950 Northern Mariana Islands [Responsible Party: Richard B. Seman];

RIN 0648–XE743; Permit No. 20443: Alaska Department of Fish and Game, PO Box 115526, Juneau, AK, 99811–5526 [Responsible Party: Robert Small, Ph.D.].

ADDRESSES: The permits and related documents are available for review upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427–8401; fax (301) 713–0376.

FOR FURTHER INFORMATION CONTACT: Courtney Smith (File No. 15844–02) Sara Young (File No. 18059, 20443), and Amy Hapeman (File No. 20114) at (301) 427–8401.

SUPPLEMENTARY INFORMATION: Notices were published in the *Federal Register* that requests for a permit or permit amendment had been submitted by the above-named applicants. The requested permits have been issued under the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*), and the regulations governing the taking, importing, and exporting of

endangered and threatened species (50 CFR parts 222–226), as applicable.

Permit No. 15844–02: The original permit (77 FR 14352, March 9, 2012) authorizes Glacier Bay National Park and Preserve to conduct passive acoustics, videography, photo-identification surveys, biopsy sampling, and collect sloughed skin and/or feces to study humpback whales, killer whales and minke whales. Research would occur around southeastern Alaska especially in Glacier Bay National Park and Preserve. The amended permit (No. 15844–02) extends the original permit for one year—through February 28, 2018, or until the permit holder has exhausted the total number of takes authorized for the fifth year of the permit, whichever occurs first.

Permit No. 18059: The requested permit (82 FR 3727, January 12, 2017) authorizes research to investigate the foraging ecology, habitat use, physiology, and acoustic and social behavior of humpback (*Megaptera novaeangliae*), fin (*Balaenoptera physalus*), minke (*B. acutorostrata*), and sei (*B. borealis*) whales in the Gulf of Maine. Up to 130 adult and juvenile humpback, 90 fin, 60 minke, and 70 sei whales will be approached for suction cup tagging, prey mapping, obtaining biological samples including biopsies, and photo ID. Up to 10 humpback, 5 fin, and 3 sei whale calves will also be approached for tagging and blow sampling. Up to 690 humpback, 480 fin, 250 minke, and 370 sei whales will be incidentally harassed during research. The permit is valid for five years from the date of issuance.

Permit No. 20114: The requested permit (81 FR 37576, June 10, 2016) authorizes researchers to study green (*Chelonia mydas*) and hawksbill (*Eretmochelys imbricata*) sea turtles in the waters of the CNMI to characterize their population structure, size class composition, foraging ecology, health, and migration patterns. Researchers may capture live sea turtles by hand and perform a suite of biological sampling, marking, and tagging procedures prior to release. Carcasses and parts of dead sea turtles may also be salvaged. The permit is valid through February 15, 2022.

Permit No. 20443: The requested permit (81 FR 83202, November 21, 2016) authorizes research on harbor seals (*Phoca vitulina*) throughout their range in Alaska including Southeast Alaska, Gulf of Alaska and Bering Sea. The research activities include aerial, vessel and ground surveys, radio tracking, photo-identification, photograph/video, behavioral

observations and monitoring, and capture of up to 350 animals by entanglement in a net in the water or by hoop net or dip net on land. Captured animals may be chemical restraint; physical restraint by hand, net, cage or stretcher. Researchers may collect biological samples (e.g., scat, blood, milk from lactating females, blubber, muscle, skin, hair, mucus membrane swabs, stomach content subsample, tooth and vibrissae); standard morphometrics and weight; measurements of blubber via ultrasound; and inject PIT tags and attach flipper tags. A subset of the captured animals may also be outfitted with external transmitters and dataloggers. The applicant also requests export (worldwide) and import of samples for analysis, incidental disturbance and unintentional mortality of harbor seals and porpoises (*Phocoena phocoena*), and intentional mortality (euthanasia) of harbor seals. The permit is valid for five years from date of issuance.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), a final determination has been made that the activities proposed are categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

As required by the ESA, as applicable, issuance of these permit was based on a finding that such permits: (1) Were applied for in good faith; (2) will not operate to the disadvantage of such endangered species; and (3) are consistent with the purposes and policies set forth in section 2 of the ESA.

Dated: April 4, 2017.

Julia Harrison,

Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

RIN 0648–XF331

Marine Mammals; File No. 21280

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that the Columbus Zoo Park Association,

Inc., 9990 Riverside Drive, P.O. Box 400, Powell, OH 43065-0400 [Greg Bell, Responsible Official] has applied in due form for a permit to import seven California sea lions (*Zalophus californianus*) for public display purposes.

DATES: Written, telefaxed, or email comments must be received on or before May 8, 2017.

ADDRESSES: These documents are available upon written request or by appointment in the Permits and Conservation Division, Office of Protected Resources, NMFS, 1315 East-West Highway, Room 13705, Silver Spring, MD 20910; phone (301) 427-8401; fax (301) 713-0376.

Written comments on this application should be submitted to the Chief, Permits and Conservation Division, at the address listed above. Comments may also be submitted by facsimile to (301) 713-0376, or by email to NMFS.Pr1Comments@noaa.gov. Please include the File No. 21280 in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request to the Chief, Permits and Conservation Division at the address listed above. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Jennifer Skidmore or Courtney Smith, (301) 427-8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216).

The applicant proposes to import seven captive-born California sea lions from Shanghai Changfeng Ocean World in Shanghai City, China to the Columbus Zoo satellite facility in Myakka City, FL for the purpose of public display. The Columbus Zoo has provided documentation that its satellite facility will be: (1) Open to the public on regularly scheduled basis with access that is not limited or restricted other than by charging for an admission fee; (2) offers a conservation and educational program based on professionally accepted standards of the Association of Zoos and Aquariums; and (3) holds an Exhibitor's License issued by the U.S. Department of Agriculture under the Animal Welfare Act (7 U.S.C. 2131-59).

In addition to determining whether the applicant meets the three public display criteria, NMFS must determine

whether the applicant has demonstrated that the proposed activity is humane and does not represent any unnecessary risks to the health and welfare of marine mammals; that the proposed activity by itself, or in combination with other activities, will not likely have a significant adverse impact on the species or stock; and that the applicant's expertise, facilities and resources are adequate to accomplish successfully the objectives and activities stated in the application. The requested duration of the permit is five years.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: April 3, 2017.

Julia Harrison,

Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

National Oceanic and Atmospheric Administration

Proposed Information Collection; Comment Request; Economic Surveys of American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands Small Boat-Based Fisheries

AGENCY: National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice.

SUMMARY: The Department of Commerce, as part of its continuing effort to reduce paperwork and respondent burden, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995.

DATES: Written comments must be submitted on or before June 6, 2017.

ADDRESSES: Direct all written comments to Jennifer Jessup, Departmental Paperwork Clearance Officer, Department of Commerce, Room 6616,

14th and Constitution Avenue NW., Washington, DC 20230 (or via the Internet at pracomments@doc.gov).

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or copies of the information collection instrument and instructions should be directed to Minling Pan, Pacific Islands Fisheries Science Center, 1845 Wasp Blvd., Building 176, Honolulu, HI 96818, (808) 725-5349 or Minling.Pan@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This request is for extension of a currently approved information collection.

The National Marine Fisheries Service (NMFS) collects information about fishing expenses in the American Samoa, Guam, and the Commonwealth of the Northern Mariana Islands (CNMI) boat-based reef fish, bottomfish, and pelagics fisheries with which to conduct economic analyses that will improve fishery management in those fisheries; satisfy NMFS' legal mandates under Executive Order 12866, the Magnuson-Steven Fishery Conservation and Management Act (U.S.C. 1801 *et seq.*), the Regulatory Flexibility Act, the Endangered Species Act, and the National Environmental Policy Act; and quantify achievement of the performances measures in the NMFS Strategic Operating Plans. An example of these performance measures: The economic data collected will allow quantitative assessment of the fisheries sector's social and economic contribution, linkages and impacts of the fisheries sector to the overall economy through Input-output (I-O) models analyses. Results from I-O analyses will not only provide indicators of social-economic benefits of the marine ecosystem, a performance measure in the NMFS Strategic Operating Plans, but also be used to assess how fishermen and economy will be impacted by and respond to regulations likely to be considered by fishery managers. These data are collected in conjunction with catch and effort data already being collected in this fishery as part of its creel survey program. The creel survey program is one of the major data collection systems to monitor fisheries resources in these three geographic areas. The survey monitors the islands' fishing activities and interviews returning fishermen at the most active launching ramps/docks during selected time periods on the islands. Participation in the economic data collection is voluntary.
