*Docket Number:* 16-017. Applicant: California Institute of Technology, Pasadena, CA 91125. Instrument: Photonic Professional GT 3D laser Lithography System. Manufacturer: Nanoscribe GmbH, Germany. Intended Use: See notice at 81 FR 89433, December 12, 2016.

*Comments:* None received. Decision: Approved. We know of no instrument of equivalent scientific value to the foreign instrument described below, for such purposes as this is intended to be used, that was being manufactured in the United States at the time of order. Reasons: The instrument will be used to develop structural meta-materials that are mechanically robust and multi-functional. The instrument allows the

fabrication of 3-dimensional architectures out of polymer, with dimensions on the order of nanometers. There is no other instrument capable of resolving features down to that size because to attain such resolution it is necessary to have the two-photon laser capability.
