SUPPLEMENTARY INFORMATION: CPSC has submitted the following currently approved collection of information to OMB for extension.

A. Background

The Commission has promulgated several standards under section 4 of the Flammable Fabrics Act (FFA), 15 U.S.C. 1193, to prohibit the use of dangerously flammable textiles and related materials in wearing apparel. Clothing and fabrics intended for use in clothing (except children’s sleepwear in sizes 0 through 14) are subject to the Standard for the Flammability of Clothing Textiles (16 CFR part 1610). Clothing made from vinyl plastic film and vinyl plastic film intended for use in clothing (except children’s sleepwear in sizes 0 through 14) are subject to the Standard for the Flammability of Vinyl Plastic Film (16 CFR part 1611). These standards prescribe a test to ensure that articles of wearing apparel, and fabrics and film intended for use in wearing apparel, are not dangerously flammable because of rapid and intense burning. (Children’s sleepwear and fabrics and related materials intended for use in children’s sleepwear in sizes 0 through 14 are subject to other, more stringent flammability standards codified at 16 CFR parts 1615 and 1616.)

Section 8 of the FFA (15 U.S.C. 1197) provides that a person who receives a guaranty in good faith that a product complies with an applicable flammability standard is not subject to criminal prosecution for a violation of the FFA resulting from the sale of any product covered by the guaranty. The Commission uses the information compiled and maintained by firms that issue these guaranties to help protect the public from risks of injury or death associated with flammable clothing and fabrics and vinyl film intended for use in clothing. In addition, the information helps the Commission arrange corrective actions if any products covered by a guaranty fail to comply with the applicable standard in a manner that creates a substantial risk of injury or death to the public. Section 8 of the FFA requires that a guaranty must be based on “reasonable and representative tests.” The testing and recordkeeping requirements by firms that issue guaranties are set forth under 16 CFR part 1610, subpart B, and 16 CFR part 1611, subpart B.

B. Burden

The Commission estimates that approximately 1,000 firms issue guaranties. Although the Commission’s records indicate that approximately 675 firms have filed continuing guaranties at the CPSC, staff believes additional guaranties may be issued that are not filed with the Commission. Accordingly, staff has estimated the number of firms upwards to account for those guaranties. Staff estimated the burden hours based on an estimate of the time for each firm to conduct testing, issue guaranties, and to establish and maintain associated records.

- Burden Hours per Firm—An estimated 5 hours for testing per firm, using either the test and conditioning procedures in the regulations or alternate methods. Although many firms are exempt from testing to support guaranties under 16 CFR 1610.1(d), CPSC staff does not know the proportion of those firms that are testing vs. those that are exempt. Thus, staff has included testing for all firms in the burden estimates.
- Guaranties Issued per Firm—On average, 20 new guaranties are issued per firm per year for new fabrics or garments.
- Estimated Annual Testing Time per Firm—100 hours per firm (5 hours for testing × 20 guaranties issued = 100 hours per firm).
- Estimated Annual Recordkeeping per Firm—1 hour to create, record, and enter test data into a computerized dataset; 20 minutes (0.3 hours) for annual review/removal of records; 20 minutes (0.3 hours) to respond to one CPSC records request per year; for a total of 1.6 recordkeeping hours per firm (1 hour + .3 hours + .3 hours = 1.6 hours per firm).

- Total Estimated Annual Burden Hours per Firm—100 hours estimated annual testing time per firm + 1.6 estimated annual recordkeeping hours per firm = 101.6 hours per firm.
- Total Estimated Annual Industry Burden Hours—101.6 hours per firm × 1,000 firms issuing guaranties = 101,600 industry burden hours. The total annual industry burden imposed by the flammability standards for clothing textiles and vinyl plastic film and enforcement regulations on manufacturers and importers of garments, fabrics, and related materials is estimated to be about 101,600 hours (101.6 hours per firm × 1,000 firms).
- Total Annual Industry Cost—The hourly wage for the testing and recordkeeping required by the standards is approximately $66.19 (for management, professional, and related occupations in goods-producing industries, Bureau of Labor Statistics, June 2016), for an estimated annual cost to the industry of approximately $6.7 million (101,600 × $66.19 = $6,724,904).

SUPPLEMENTARY INFORMATION:

Purpose of the Meeting: This meeting is being held under the provisions of the Federal Advisory Committee Act of 1972 (FACA) (5 U.S.C., Appendix, as amended), the Government in the Sunshine Act of 1976 (5 U.S.C. 552b, as amended), and 41 CFR 102–3.150. The Government-Industry Advisory Panel will review sections 2320 and 2321 of title 10, United States Code (U.S.C.), regarding rights in technical data and the validation of proprietary data restrictions and the regulations implementing such sections, for the purpose of ensuring that such statutory and regulatory requirements are best structured to serve the interest of the taxpayers and the national defense. The scope of the panel is as follows: (1) Ensuring that the Department of Defense (DoD) does not pay more than once for the same work, (2) Ensuring that the DoD contractors are appropriately rewarded for their innovation and invention, (3) Providing for cost-effective procurement, sustainment, modification, and upgrades to the DoD systems, (4) Encouraging the private sector to invest in new products, technologies, and processes relevant to the missions of the DoD, and (5) Ensuring that the DoD has appropriate access to innovative products, technologies, and processes developed by the private sector for commercial use.

Agenda: This will be the fifteenth meeting of the Government-Industry Advisory Panel. The panel will cover details of 10 U.S.C. 2320 and 2321, begin understanding the implementing regulations and detail the necessary groups within the private sector and government to provide supporting documentation for their review of these codes and regulations during follow-on meetings. Agenda items for this meeting will include the following: (1) Final review of tension point information papers; (2) Rewrite FY17 NDAA 2320 and 2321 language; (3) Review Report Framework and Format for Publishing; (4) Comment Adjudication & Planning for follow-on meeting.

Availability of Materials for the Meeting: A copy of the agenda or any updates to the agenda for the April 26–27 meeting will be available as requested or at the following site: https://database.faca.gov/committee/meetings.aspx?cid=2561. It will also be distributed upon request.

Minor changes to the agenda will be announced at the meeting. All materials will be posted to the FACA database after the meeting.
