SECURITIES AND EXCHANGE COMMISSION

Proposed Collection; Comment Request

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE., Washington, DC 20549–27363

Extension: Rule 17a–2, SEC File No. 270–189, OMB Control No. 3235–0201

Rule 17a–2—Recordkeeping Requirements Relating to Stabilizing Activities—requires underwriters to maintain information regarding stabilizing activities conducted in accordance with Rule 104 of Regulation M. The collections of information under Regulation M and Rule 17a–2 are necessary for covered persons to obtain certain benefits or to comply with certain requirements. The collections of information are necessary to provide the Commission with information regarding syndicate covering transactions and penalty bids. The Commission may review this information during periodic examinations or with respect to investigations. Except for the information required to be kept under Rule 104(i) (17 CFR 242.104(i)) and Rule 17a–2(c), none of the information required to be collected or disclosed for PRA purposes will be kept confidential. The recordkeeping requirement of Rule 17a–2 requires the information be maintained in a separate file, or in a separately retrievable format, for a period of three years, the first two years in an easily accessible place, consistent with the requirements of Exchange Act Rule 17a–4(f) (17 CFR 240.17a–4(f)). There are approximately 716 respondents per year that require an aggregate total of 3,580 hours to comply with this rule. Each respondent makes an estimated 1 annual response. Each response takes approximately 5 hours to complete. Thus, the total compliance burden per year is 3,580 burden hours. The total estimated internal compliance cost for the respondents is approximately $232,700, resulting in an internal cost of compliance for each respondent per response of approximately $325.00 (i.e., $232,700.00/716 responses). Written comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission’s estimates of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology. Consideration will be given to comments and suggestions submitted in writing within 60 days of this publication.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Please direct your written comments to: Pamela Dyson, Director/Chief Information Officer, Securities and Exchange Commission, c/o Remi Pavlik-Simon, 100 F Street NE., Washington, DC 20549 or send an email to: PRA_Mailbox@sec.gov.

Eduardo A. Aleman,
Assistant Secretary.

SOCIAL SECURITY ADMINISTRATION

[Docket No: SSA–2017–0017]

Agency Information Collection Activities: Proposed Request

The Social Security Administration (SSA) publishes a list of information collection packages requiring clearance by the Office of Management and Budget (OMB) in compliance with Public Law 104–13, the Paperwork Reduction Act of 1995, effective October 1, 1995. This notice includes revisions of OMB-approved information collections.

SSA is soliciting comments on the accuracy of the agency’s burden estimate; the need for the information; its practical utility; ways to enhance its quality, utility, and clarity; and ways to minimize burden on respondents, including the use of automated collection techniques or other forms of information technology. Mail, email, or fax your comments and recommendations on the information collection(s) to the OMB Desk Officer and SSA Reports Clearance Officer at the following addresses or fax numbers.

Office of Management and Budget, Attn: Desk Officer for SSA, Fax: 202–395–6974, Email address: OIRA_Submission@omb.eop.gov.

Social Security Administration, OLCA, Attn: Reports Clearance Director, 3100 West High Rise, 6401 Security Blvd., Baltimore, MD 21235, Fax: 410–966–2830, Email address: OR.Reports.Clearance@ssa.gov.

Or you may submit your comments online through www.regulations.gov, referencing Docket ID Number [SSA–2017–0017].

The information collections below are pending at SSA. SSA will submit them to OMB within 60 days from the date of this notice. To be sure we consider your comments, we must receive them no later than June 12, 2017. Individuals can obtain copies of the collection instruments by writing to the above email address.

Type of Request: Revision of an OMB-approved information collection.

CE Collections

There are three CE information collections: (a) Medical evidence about claimants’ medical condition(s) the DDSs use to make disability determinations when the claimant’s own medical sources cannot, or will not, provide the required information, and proof of credentials from CE providers; (b) CE appointment letters; and (c) CE claimant reports sent to claimants’ doctors.

### Pain/Other Symptoms/Impairment Information From Claimants

The DDSs use information about pain/symptoms to determine how pain and symptoms affect the claimant’s ability to do work-related activities prior to making a disability determination.
The total estimated annual burden for all categories described in this information collection is 4,501,166 hours.

2. Teacher Questionnaire and Request for Administrative Information—20 CFR 404.1513, 416.913, and 416.924(a)—0960—0646. When determining the effects of a child’s impairment(s), SSA obtains information about the child’s functioning from teachers; parents; and others who observe the child on a daily basis. SSA obtains results of formal testing, teacher reports, therapy progress notes, individualized education programs, and other records of a child’s educational aptitude and achievement using Forms SSA–5665–BK and SSA–5666. The respondents are parents, teachers, and other education personnel.

Type of Request: Revision of an OMB-approved information collection.

3. Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery—0960—0788. As part of our continuing effort to reduce paperwork and respondent burden, SSA invites the general public to take this opportunity to comment on the “Generic Clearance for the Collection of Qualitative Feedback on Agency Service Delivery” for approval under the Paperwork Reduction Act (PRA) (44 U.S.C. 3501 et seq.). We developed this collection as part of a Federal Government-wide effort to streamline the process for seeking feedback from the public on service delivery. Under the auspices of Executive Order 12862, Setting Customer Service Standards, SSA conducts multiple satisfaction surveys each year. This proposed information collection activity provides a means to garner qualitative customer and stakeholder feedback in an efficient, timely manner, in accordance with SSA’s commitment to improving service delivery. By qualitative feedback, we mean information that provides useful insights on perceptions and opinions, but are not statistical surveys that yield qualitative results that can be generalized to the population of study. This feedback will provide insights into customer or stakeholder perceptions; experiences and expectations; provide an early warning of issues with service; or focus attention on areas where communication; training; or changes in operations might improve delivery of products or services. These collections will allow for ongoing, collaborative, and actionable communications between SSA and our customers and stakeholders. The solicitation of feedback will target areas such as: Timeliness; appropriateness; accuracy of information; courtesy; efficiency of service delivery; and resolution of issues with service delivery. We will assess responses to plan and inform efforts to improve or maintain the quality of service offered to the public. If we do not collect this information, we would not have access to vital feedback from customers and stakeholders on SSA’s services.

We will only submit a collection for approval under this generic clearance if it meets the following conditions: (1) The collections are voluntary; (2) the collections are low-burden for respondents (based on considerations of total burden hours, total number of respondents, or burden-hours per respondent) and are low-cost for both the respondents and the Federal Government; (3) the collections are non-controversial and do not raise issues of concern to other Federal agencies; (4) any collection targeted to the solicitation of opinions from respondents who have experience with the program or may have experience with the program in the near future; (5) we collect personally identifiable information (PII) only to the extent necessary and we do not retain it; (6) we will use information gathered only internally for general service improvement and program management purposes and we will not release it outside of the agency; (7) we will not use information we gather for the purpose of substantially informing influential policy decisions; and (8) information we gather will yield qualitative information; the collections will not be designed or expected to yield statistically reliable results or used as though the results are generalizable to the population of study.

Feedback collected under this generic clearance provides useful information, but it does not yield data that can be generalized to the overall population. We will not use this type of generic clearance for qualitative information collections designed to yield reliably actionable results, such as monitoring trends over time or documenting program performance. Such data uses require more rigorous designs that address the target population to which generalizations will be made; the sampling frame, the sample design (including stratification and clustering); the precision requirements or power calculations that justify the proposed sample size; the expected response rate, methods for assessing potential non- response bias; the protocols for data collection; and any testing procedures that were or will be undertaken prior to fielding the study. Depending on the degree of influence the results are likely to have, such collections may still be eligible for submission for other generic mechanisms designed to yield quantitative results. As a general matter, information collections will not result in any new system of records containing privacy information and will not ask questions of a sensitive nature, such as
