install a tire with an inside diameter of 24.5, it would be too large for the 22.5 size rim and thus not fit. Given the label being provided and the construction details sheet provided in accordance with NFPA® 1901 Standard for Automotive Fire Apparatus 2016 edition, Spartan believes the noncompliance is inconsequential as it relates to motor vehicle safety, and requests that their petition to be exempted from providing notification of the noncompliance, as required by 49 U.S.C. 30118, and a remedy for the noncompliance, as required by 49 U.S.C. 30120, should be granted.

To view Spartan’s petition analyses in its entirety you can visit https://www.regulations.gov by following the online instructions for accessing the dockets and by using the docket ID number for this petition shown in the heading of this notice.

NHTSA notes that the statutory provisions (49 U.S.C. 30118(d) and 30120(b)) that permit manufacturers to file petitions for a determination of inconsequentiality allow NHTSA to exempt manufacturers only from the duties found in sections 30118 and 30120, respectively, to notify owners, purchasers, and dealers of a defect or noncompliance and to remedy the defect or noncompliance. Therefore, any decision on this petition only applies to the subject vehicles that Spartan no longer controlled at the time it determined that the noncompliance existed. However, any decision on this petition does not relieve vehicle distributors and dealers of the prohibitions on the sale, offer for sale, or introduction or delivery for introduction into interstate commerce of the noncompliant vehicles under their control after Spartan notified them that the subject noncompliance existed.

Authority: (49 U.S.C. 30118, 30120; delegations of authority at 49 CFR 1.95 and 501.8).

Jeffrey M. Giuseppe,
Director, Office of Vehicle Safety Compliance.

Publication of Nonconventional Source Production Credit Reference Price for Calendar Year 2016

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Notice.

SUMMARY: Publication of the reference price for the nonconventional source production credit for calendar year 2016.

SUPPLEMENTARY INFORMATION: The credit period for nonconventional source production credit ended on December 31, 2013 for facilities producing coke or coke gas (other than from petroleum based products). However, the reference price continues to apply in determining the amount of the enhanced oil recovery credit under section 43 of title 26 of the U.S.C. the marginal well production credit under section 45I of title 26 of the U.S.C., and the percentage depletion in case of oil and natural gas produced from marginal properties under section 613A of title 26 of the U.S.C.
