Estimate of Annual Burden: 9 minutes (average).  
Type of Respondents: Visitors to lands and waters managed by the U.S. Forest Service.  
Estimated Annual Number of Respondents: 45,000.  
Estimated Annual Number of Responses per Respondent: One.  
Estimated Total Annual Burden on Respondents: 6,400 hours.  

Comment is invited on: (1) Whether this collection of information is necessary for the stated purposes and the proper performance of the functions of the agency, including whether the information will have practical or scientific utility; (2) the accuracy of the agency’s estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

The data from this collection provides vital information for strategic planning efforts, decisions regarding allocation of resources, and revisions of land and resource management plans for national forests. It provides managers with reliable estimates of the number of recreational visitors to a national forest, activities of those visitors (including outdoor physical activities), customer satisfaction, and visitor values. The knowledge gained from this effort helps identify recreational markets as well as the economic contributions visitors’ spending has on economic areas around forest lands. For the Forest Service, the collection is designed for a five-year cycle of coverage across all national forests. Conducting the collection less frequently puts information updates out of cycle with forest planning and other data preparation and reporting activities.

At recreation sites or access points, agency personnel or contractors will conduct onsite interviews of visitors as they complete their visit. Interviewers will ask about the purpose and length of the visit, the trip origin, activities, annual visitation rates, trip-related spending patterns, use of recreation facilities, satisfaction with agency services and facilities, and the composition of the visiting party. Primary analysis of the information for the Forest Service and partnering agencies will be performed by Forest Service staff in the Washington Office and by scientists in one or more of the agency’s research stations.

The notification was processed in accordance with the regulations of the FTZ Board (15 CFR part 400), including notice in the Federal Register inviting public comment (81 FR 91115, December 16, 2016). The FTZ Board has determined that no further review of the activity is warranted at this time. The production activity described in the notification is authorized, subject to the FTZ Act and the FTZ Board’s regulations, including Section 400.14.

Andrew McGilvray,  
Executive Secretary.

BILLING CODE 3510–DS–P
DEPARTMENT OF COMMERCE
International Trade Administration

[Vol. 82, No. 70 / Thursday, April 13, 2017 / Notices 17777

Summary: The Department of Commerce (the "Department") published its notice of initiation and preliminary results of changed circumstances reviews ("CCRs") of the antidumping duty ("AD") orders on crystalline silicon photovoltaic cells, whether or not assembled into modules, from the People's Republic of China ("PRC") and certain crystalline silicon photovoltaic products ("solar products") from the PRC ("Preliminary Results"). The Department preliminary determined that Hanwha Q CELLS Qidong Co., Ltd.'s Request for a Changed Circumstances Review ("CCR Request"). The Department initiated the instant CCRs and made a preliminary finding that: Q CELLS Qidong is the successor-in-interest to SolarOne Qidong and is entitled to SolarOne Qidong's AD cash deposit rate with respect to the AD order on solar products from the PRC. The Department received comments on October 11, 2016 from SolarWorld Americas, Inc. ("Petitioner") concerning Q CELLS Hong Kong and Q CELLS Qidong's CCR request. On February 24, 2017, the Department initiated the instant CCRs and made a preliminary finding that: Q CELLS Qidong is the successor-in-interest to SolarOne Qidong and is entitled to SolarOne Qidong's AD cash deposit rate with respect to the AD order on solar products from the PRC. We provided interested parties 14 days from the date of publication of the Preliminary Results to submit case briefs or request a hearing. No interested parties submitted case briefs or requested a hearing.

Scope of the Orders

The merchandise covered by the Solar Cells Order is crystalline silicon photovoltaic cells, and modules, laminates, and panels, consisting of crystalline silicon photovoltaic cells, whether or not partially or fully assembled into other products, including, but not limited to, modules, laminates, panels, and building integrated materials. Imports of the merchandise subject to the Solar Cells Order are currently classified under the following subheadings of the Harmonized Tariff Schedule of the United States ("HTSUS"): 8501.61.0000, 8507.20.80, 8541.40.6020, 8541.40.6030, and 8501.31.8000.

Purpose of the Order

Pursuant to the Department's notice, the Department determined that the articles subject to the AD order on solar products from the PRC.

Effective April 13, 2017.

Supplementary Information:

Background

On December 7, 2012, the Department published the AD order on solar cells from the PRC in the Federal Register. On February 18, 2015, the Department published the AD order on solar products from the PRC in the Federal Register. On September 8, 2016, the Department received a request on behalf of Q CELLS Hong Kong and Q CELLS Qidong for expedited CCRs to establish Q CELLS Hong Kong and Q CELLS Qidong as SolarOne Hong Kong for purposes of the AD order on solar products from the PRC.

DATES: Effective April 13, 2017.
