

will be followed. Consequently, future waves will incorporate dependent data, which is information collected from the prior wave interview brought forward to the current interview as a way to reduce respondent burden and improve data quality.

The Census Bureau plans to continue to use Computer Audio-Recorded Interview (CARI) technology for all of the respondents during the 2018 SIPP Panel. CARI is a tool available during data collection to capture audio along with response data. With the respondent's consent, a portion of each interview is recorded unobtrusively and both the sound file and screen images are returned with the response data to Census Headquarters for evaluation. Census staff may review the recorded portions of the interview to improve questionnaire design and for quality assurance purposes.

Approximately 20,000 households are expected to be interviewed for the 2018 SIPP Panel. We estimate that each household contains 2.1 people age 15 and above, yielding approximately 42,000 person-level interviews per wave in this panel. Completing the SIPP interview will take approximately 60 minutes per adult on average, consequently the total annual burden for 2018 SIPP interviews will be 42,000 hours per year in FY 2018, 2019, 2020, and 2021.

II. Method of Collection

The 2018 SIPP Panel will use the Computer-Assisted Personal Interviewing (CAPI) method of data collection. The instrument will consist of one interview per person per wave (year) resulting in four total interviews over the life of the panel. Each interview will reference the previous calendar year depending on the wave. A field representative will conduct the interview in person with all household members 15 years old or over using regular proxy-respondent rules. In the instances where the residence is not accessible or the respondent makes a request, the field representative will conduct the interview by telephone.

III. Data

OMB Control Number: 0607-0977.

Form Number: SIPP/CAPI Automated Instrument.

Type of Review: Regular submission.

Affected Public: Individuals or Households.

Estimated Number of Respondents: 42,000 people per wave.

Estimated Time per Response: 60 minutes per person on average.

Estimated Total Annual Burden Hours: 42,000 hours per wave.

Estimated Total Annual Cost: \$0.

Respondent's Obligation: Voluntary.

Legal Authority: Title 13, United States Code, Sections 141 and 182.

IV. Request for Comments

Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden (including hours and cost) of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Comments submitted in response to this notice will be summarized and/or included in the request for OMB approval of this information collection; they also will become a matter of public record.

Sheleen Dumas,

PRA Departmental Lead, Office of the Chief Information Officer.

Foreign-Trade Zones Board

[S-159-2016]

Approval of Subzone Status; Aceros de América, Inc., San Juan, Puerto Rico

On November 10, 2016, the Executive Secretary of the Foreign-Trade Zones (FTZ) Board docketed an application submitted by the Puerto Rico Trade & Export Company, grantee of FTZ 61, requesting subzone status subject to the existing activation limit of FTZ 61, on behalf of Aceros de América, Inc., in San Juan, Puerto Rico.

The application was processed in accordance with the FTZ Act and Regulations, including notice in the **Federal Register** inviting public comment (81 FR 80635, November 16, 2016). The FTZ staff examiner reviewed the application and determined that it meets the criteria for approval.

Pursuant to the authority delegated to the FTZ Board's Executive Secretary (15 CFR 400.36(f)), the application to establish Subzone 61S is approved, subject to the FTZ Act and the Board's regulations, including section 400.13,

and further subject to FTZ 61's 1,821.07-acre activation limit.

Dated: April 13, 2017.

Andrew McGilvray,

Executive Secretary.

[B-86-2016]

Foreign-Trade Zone (FTZ) 38—Spartanburg County, South Carolina Authorization of Production Activity, Black & Decker (U.S.) Inc., Subzone 38E, (Power Tools) Fort Mill, South Carolina

On December 15, 2016, Black & Decker (U.S.) Inc., submitted a notification of proposed production activity to the Foreign-Trade Zones (FTZ) Board for its facility within Subzone 38E, in Fort Mill, South Carolina.

The notification was processed in accordance with the regulations of the FTZ Board (15 CFR part 400), including notice in the **Federal Register** inviting public comment (81 FR 95961, December 29, 2017). The FTZ Board has determined that no further review of the activity is warranted at this time. The production activity described in the notification is authorized, subject to the FTZ Act and the FTZ Board's regulations, including Section 400.14.

Dated: April 14, 2017.

Elizabeth Whiteman,

Acting Executive Secretary.

International Trade Administration

[A-570-970; C-570-971]

Multilayered Wood Flooring from the People's Republic of China: Clarification of the Scope of the Antidumping and Countervailing Duty Orders

AGENCY: Enforcement and Compliance, International Trade Administration, Commerce.

SUMMARY: The Department of Commerce (the Department) has issued numerous scope determinations finding that wood flooring products consisting of only two layers are outside the scope of the antidumping and countervailing duty orders on multilayered wood flooring (MLWF) from the People's Republic of China (PRC). The products subject to these rulings typically (but not exclusively) consist of a single wood veneer layer, or ply, in combination with a base layer of various constructions and materials. Due to the large number of scope ruling requests concerning the aforementioned two-layer MLWF products since the imposition of the *Orders*, the Department finds it necessary to clarify the scope of the orders. Interested parties are invited to comment on this scope clarification.

DATES: Effective April 19, 2017.

FOR FURTHER INFORMATION CONTACT: Jesus Saenz or Michael Bowen, AD/CVD Operations, Office VIII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW., Washington, DC 20230; telephone: 202-482-8184 or 202-482-0768, respectively.

SUPPLEMENTARY INFORMATION:

Background

The regulations governing the Department's scope determinations are found at 19 CFR 351.225. In past scope determinations,¹ in accordance with 19 CFR 351.225(k)(1), the Department has relied on the description of the merchandise contained in the petitions, the initial investigations, prior scope determinations, and rulings by the ITC to determine that two-layer MLWF products are outside the scope of the *Orders*.²

Scope of the Orders

Multilayered wood flooring is composed of an assembly of two or more layers or plies of wood veneer(s) in combination with a core. The several layers, along with the core, are glued or otherwise bonded together to form a final assembled product. Multilayered wood flooring is often referred to by other terms, e.g., "engineered wood flooring" or "plywood flooring." Regardless of the particular terminology, all products that meet the description set forth herein are intended for inclusion within the definition of subject merchandise.

All multilayered wood flooring is included within the definition of subject merchandise, without regard to: Dimension (overall thickness, thickness of face ply, thickness of back ply, thickness of core, and thickness of inner plies; width; and length); wood species used for the face, back and inner veneers; core composition; and face grade. Multilayered wood flooring included within the definition of subject merchandise may be unfinished (*i.e.*, without a finally finished surface to protect the face veneer from wear and tear) or "prefinished" (*i.e.*, a coating applied to the face veneer, including, but not exclusively, oil or oil-modified or water-based polyurethanes, ultraviolet light cured polyurethanes, wax, epoxy-ester finishes, moisture-cured

¹ See e.g., Department Memorandum, "Final Scope Ruling on the Antidumping and Countervailing Duty Orders on Multilayered Wood Flooring from the People's Republic of China: Request by Dunhua Shengda Wood Industry Co., Ltd. dated December 14, 2016 and Department Memorandum, "Final Scope Ruling on the Antidumping and Countervailing Duty Orders on Multilayered Wood Flooring from the People's Republic of China: Request by Alston, Inc." dated March 12, 2013.

² See *Multilayered Wood Flooring from the People's Republic of China: Amended Final Determination of Sales at Less Than Fair Value and Antidumping Duty Order*, 76 FR 76690 (December 8, 2011) and *Multilayered Wood Flooring from the People's Republic of China: Countervailing Duty Order*, 76 FR 76693 (December 8, 2011), as amended, *Multilayered Wood Flooring from the People's Republic of China: Amended Antidumping and Countervailing Duty Orders*, 77 FR 5484 (February 3, 2012) (collectively, *Orders*).

urethanes and acid-curing formaldehyde finishes). The veneers may be also soaked in an acrylic-impregnated finish. All multilayered wood flooring is included within the definition of subject merchandise regardless of whether the face (or back) of the product is smooth, wire brushed, distressed by any method or multiple methods, or hand-scraped. In addition, all multilayered wood flooring is included within the definition of subject merchandise regardless of whether or not it is manufactured with any interlocking or connecting mechanism (for example, tongue-and-groove construction or locking joints). All multilayered wood flooring is included within the definition of the subject merchandise regardless of whether the product meets a particular industry or similar standard.

The core of multilayered wood flooring may be composed of a range of materials, including but not limited to hardwood or softwood veneer, particleboard, medium-density fiberboard, high-density fiberboard ("HDF"), stone and/or plastic composite, or strips of lumber placed edge-to-edge.

Multilayered wood flooring products generally, but not exclusively, may be in the form of a strip, plank, or other geometrical patterns (e.g., circular, hexagonal). All multilayered wood flooring products are included within this definition regardless of the actual or nominal dimensions or form of the product. Specifically excluded from the scope are cork flooring and bamboo flooring, regardless of whether any of the sub-surface layers of either flooring are made from wood. Also excluded is laminate flooring. Laminate flooring consists of a top wear layer sheet not made of wood, a decorative paper layer, a core-layer of HDF, and a stabilizing bottom layer.

Imports of the subject merchandise are provided for under the following subheadings of the Harmonized Tariff Schedule of the United States ("HTSUS"): 4412.31.0520; 4412.31.0540; 4412.31.0560; 4412.31.0620; 4412.31.0640; 4412.31.0660; 4412.31.2510; 4412.31.2520; 4412.31.2610; 4412.31.2620; 4412.31.3175; 4412.31.4040; 4412.31.4050; 4412.31.4060; 4412.31.4070; 4412.31.4075; 4412.31.4080; 4412.31.4140; 4412.31.4160; 4412.31.4175; 4412.31.5125; 4412.31.5135; 4412.31.5155; 4412.31.5165; 4412.31.5175; 4412.31.5225; 4412.31.6000; 4412.31.9100; 4412.32.0520; 4412.32.0540; 4412.32.0560;
