14 CFR Part 71

[Docket No. FAA-2016-9544; Airspace Docket No. 16-ASW-22]

Proposed Amendment of Class D and E Airspace for the Following Texas Towns; Sherman, TX; and Temple, TX, and Establishment of Class E Airspace, Temple, TX

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice of proposed rulemaking (NPRM).

SUMMARY: This action proposes to: amend Class D airspace at North Texas Regional Airport/Perrin Field, Sherman, TX; amend Class E surface airspace at Draughon-Miller Central Texas Regional Airport, Temple, TX; amend Class E airspace extending upward from 700 feet above the surface at North Texas Regional Airport/Perrin Field and Draughon-Miller Central Texas Regional Airport; and establish Class E airspace designated as an extension at Draughon-Miller Central Texas Regional Airport. Cancellation of standard instrument approach procedures at these airports has made this action necessary for the safety and management of Instrument Flight Rules (IFR) operations. Additionally, geographic coordinates, names of airports, and a navigation aid would be adjusted to coincide with the FAA's aeronautical database.

SUPPLEMENTARY INFORMATION:

Authority for This Rulemaking

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part, A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it would amend Class D airspace at North Texas

Regional Airport/Perrin Field, Sherman, TX; Class E surface airspace at Draughon-Miller Central Texas Regional Airport, Temple, TX; Class E airspace extending upward from 700 feet above the surface at North Texas Regional Airport/Perrin Field and Draughon-Miller Central Texas Regional Airport; and establish Class E airspace designated as an extension at Draughon-Miller Central Texas Regional Airport.

Comments Invited

Interested parties are invited to participate in this proposed rulemaking by submitting such written data, views, or arguments, as they may desire. Comments that provide the factual basis supporting the views and suggestions presented are particularly helpful in developing reasoned regulatory decisions on the proposal. Comments are specifically invited on the overall regulatory, aeronautical, economic, environmental, and energy-related aspects of the proposal. Communications should identify both docket numbers and be submitted in triplicate to the address listed above. Commenters wishing the FAA to acknowledge receipt of their comments on this notice must submit with those comments a self-addressed, stamped postcard on which the following statement is made: "Comments to Docket No. FAA-2016-9544/Airspace Docket No. 16-ASW-22." The postcard will be date/time stamped and returned to the commenter.

Availability of NPRMs

An electronic copy of this document may be downloaded through the Internet at <http://www.regulations.gov>. Recently published rulemaking documents can also be accessed through the FAA's Web page at http://www.faa.gov/air_traffic/publications/airspace_amendments/.

You may review the public docket containing the proposal, any comments received, and any final disposition in person in the Dockets Office (see the **ADDRESSES** section for the address and phone number) between 9:00 a.m. and 5:00 p.m., Monday through Friday, except federal holidays. An informal docket may also be examined during normal business hours at the Federal Aviation Administration, Air Traffic Organization, Central Service Center, Operations Support Group, 10101 Hillwood Parkway, Fort Worth, TX, 76177.

Availability and Summary of Documents Proposed for Incorporation by Reference

This document proposes to amend FAA Order 7400.11A, Airspace Designations and Reporting Points, dated August 3, 2016, and effective September 15, 2016. FAA Order 7400.11A is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11A lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

The Proposal

The FAA is proposing an amendment to Title 14 Code of Federal Regulations (14 CFR) Part 71 by modifying:

Class D airspace within a 4.7-mile radius (reduced from a 5.0-mile radius) at North Texas Regional Airport/Perrin Field (formerly Grayson County Airport), Sherman/Denison, TX, and updating the name of the airport to coincide with the FAA's aeronautical database; Class E surface airspace within a 4.2-mile radius (increased from a 4.1-mile radius) at Draughon-Miller Central Texas Regional Airport (formerly Draughon-Miller Municipal Airport), Temple, TX, eliminating the extension southeast of the airport, and updating the name and geographic coordinates of the airport to coincide with the FAA's aeronautical database;

Class E airspace extending upward from 700 feet above the surface:

Within a 7.2-mile radius (increased from a 6.9-mile radius) of North Texas Regional Airport/Perrin Field (formerly Grayson County Airport), Sherman/Denison, TX, and updating the name and geographic coordinates of the airport to coincide with the FAA's aeronautical database;

Within a 6.7-mile radius of Draughon-Miller Central Texas Regional Airport (formerly Draughon-Miller Municipal Airport), Temple, TX, eliminating the extensions north and southeast of the airport, amending the extension northwest of the airport from the 6.7-mile radius to 14.4 miles (reduced from 19.5 miles), adding an extension south of the airport from the 6.7-mile radius to 10.1 miles, adding an extension southwest of the airport from the 6.7-mile radius to 9.7 miles, and updating the name and geographic coordinates of the airport and the name of the Draughon-Miller Central Texas Regional Localizer (formerly Draughon-Miller Localizer) to coincide with the FAA's aeronautical database;

And establishing Class E airspace designated as an extension to Class E surface airspace within a 4.2-mile radius

of Draughon-Miller Central Texas Regional Airport, Temple, TX, with an extension southeast 7.7 miles.

Cancellation of standard instrument approach procedures at these airports prompted the FAA to conduct a review of the airspace. Controlled airspace is necessary for the safety and management of standard instrument approach procedures for IFR operations at these airports.

Class D and E airspace designations are published in paragraph 5000, 6002, 6004, and 6005, respectively, of FAA Order 7400.11A, dated August 3, 2016, and effective September 15, 2016, which is incorporated by reference in 14 CFR 71.1. The Class D and E airspace designations listed in this document will be published subsequently in the Order.

Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current, is non-controversial and unlikely to result in adverse or negative comments. It, therefore: (1) is not a "significant regulatory action" under Executive Order 12866; (2) is not a "significant rule" under DOT Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that will only affect air traffic procedures and air navigation, it is certified that this rule, when promulgated, would not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

Environmental Review

This proposal will be subject to an environmental analysis in accordance with FAA Order 1050.1F, "Environmental Impacts: Policies and Procedures" prior to any FAA final regulatory action.
