The EEOC has made electronic filing much easier for respondents required to file the EEO–5 Report. As a result, more respondents are using this filing method. This development, along with the greater availability of human resource information software, is expected to significantly reduce the actual burden of reporting. The Commission continues to develop more reliable estimates of reporting burdens given the significant increase in electronic filing and explore new approaches to make such reporting even less burdensome. In order to help reduce survey burden, respondents are encouraged to report data electronically, whenever possible.

For the Commission.

Victoria A. Lipnic,
Acting Chair.
