The Committee plans to submit a request to OMB to approve a collection of information concerning the qualifications of nonprofit agencies serving people who are blind or who have other significant disabilities to participate in the AbilityOne Program. The Committee is requesting a 3-year term of approval for this information collection activity.

Federal agencies may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The JWOD Act of 1971 (41 U.S.C. 8501–8506) is the authorizing legislation for the AbilityOne Program. The AbilityOne Program creates employment and training opportunities for people who are blind or who have other significant disabilities. Its primary means of doing so is by requiring Government agencies to purchase certain products and services from nonprofit agencies (NPA) employing such individuals. The AbilityOne Program is administered by the Committee. Two national, independent NPAs designated by the Committee, National Industries for the Blind (NIB) and SourceAmerica, help State and private nonprofit agencies participate in the AbilityOne Program.

The implementing regulations for the JWOD Act, which are located at 41 CFR Chapter 51, provide the requirements, procedures, and standards for the AbilityOne Program. Section 51–4.3 of the regulations sets forth the standards that a nonprofit agency must meet to maintain qualification for participation in the AbilityOne Program. Under this section of the regulations, a nonprofit agency that wants to continue to participate in the AbilityOne Program must submit a completed copy of the appropriate (Annual Representations and Certifications for AbilityOne Qualified Nonprofit Agency (OMB number 3037–0013). This documentation helps the Committee determine whether the nonprofit agency is meeting the requirements of the AbilityOne Program.

This information collection request seeks approval for the Committee to collect the information required under 41 CFR 51–4.3 of the regulations as part of its process to evaluate nonprofit agency qualifications under 41 CFR 51–2.4(a)(2). Whenever the result of a nonprofit agency’s request to the Committee for the addition of a new product or service to the Procurement List (PL) exceeds $500,000 in total contract value, the nonprofit agency will be required to complete a project specific representations and certification form to ensure that the

SUPPLEMENTARY INFORMATION: Under the PRA, Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. “Collection of Information” is defined in 44 U.S.C. 3502(3) and 5 CFR 1320.3 and includes agency requests or requirements that members of the public submit reports, keep records, or provide information to a third party. Section 3506(c)(2)(A) of the PRA, 44 U.S.C. 3506(c)(2)(A), requires Federal agencies to provide a 60-day notice in the Federal Register concerning each proposed collection of information before submitting the collection to OMB for approval. To comply with this requirement, the Commission is publishing notice of the existing collections of information listed below.

Title: Real-Time Public Reporting and Block Trade (OMB Control No. 3038–0070). This is a request for extension of currently approved information collections.

Abstract: Title VII of the Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank Act) added to the Commodity Exchange Act (CEA) new section 2(a)(13), which establishes standards and requirements related to real-time reporting and the public availability of swap transaction and pricing data. Section 2(a)(13) and part 43 of the Commission’s Regulations require reporting parties to publish real-time swap transactions and pricing data to the general public. Without the frequency of reporting set forth in part 43, the Commission would not be able to adequately assess the swap markets and, more importantly, would fail to achieve the frequency of reporting and promotion of increased price discovery in the swaps market which are mandated by the Dodd-Frank Act. With respect to these information collections, the Commission invites comments on:

- Whether the collections of information are necessary for the proper performance of the functions of the Commission, including whether the information will have a practical use;
- The accuracy of the Commission’s estimate of the burden of the collections of information, including the validity of the methodology and assumptions used;
- Ways to enhance the quality, usefulness, and clarity of the information to be collected; and
- Ways to minimize the burden of collection of information on those who are to respond, including through the use of appropriate automated electronic, mechanical, or other technological collection techniques or other forms of information technology: e.g., permitting electronic submission of responses.
