SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; The NASDAQ Stock Market LLC; Notice of Designation of a Longer Period for Commission Action on a Proposed Rule Change To Adopt Rule 7017

April 17, 2017.

On February 17, 2017, The NASDAQ Stock Market LLC (“Nasdaq”) filed with the Securities and Exchange Commission (“Commission”), pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”)1 and Rule 19b–4 thereunder,2 a proposed rule change to adopt Rule 7017 to enhance the level of information provided to a member acting as the stabilizing agent for a follow-on offering of additional shares of a security that is listed on Nasdaq. The proposed rule change was published for comment in the Federal Register on March 6, 2017.3 The Commission has received no comment letters on the proposed rule change.

Section 19(b)(2) of the Act4 provides that within 45 days of the publication of notice of the filing of a proposed rule change, or within such longer period up to 90 days as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding, or as to which the self-regulatory organization consents, the Commission shall either approve the proposed rule change, disapprove the proposed rule change, or institute proceedings to determine whether the proposed rule change should be disapproved. The 45th day after publication of the notice for this proposed rule change is April 20, 2017. The Commission is extending this 45-day time period.

The Commission finds it appropriate to designate a longer period within which to take action on the proposed rule change so that it has sufficient time to consider this proposed rule change. Accordingly, the Commission, pursuant to Section 19(b)(2) of the Act,5 designates June 4, 2017, as the date by which the Commission shall either approve or disapprove, or institute proceedings to determine whether to disapprove, the proposed rule change (File No. SR–NASDAQ–2017–015).

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.6

Brent J. Fields, Secretary.

SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; NASDAQ PHLX LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Relating To Customer Rebates and Pricing for Multiply Listed Options

April 17, 2017.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”),1 and Rule 19b–4 thereunder,2 notice is hereby given that on April 3, 2017, NASDAQ PHLX LLC (“Phlx” or “Exchange”) filed with the Securities and Exchange Commission (“SEC” or “Commission”) the proposed rule change as described in Items I, II, and III, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to: (i) Amend Section B of the Exchange’s Pricing Schedule to create a new Category D and make other amendments to this section; and (ii) amend Section II of the Exchange’s Pricing Schedule entitled “Multiply Listed Options Fees,”3 to assess a surcharge related to Complex Orders.4

The text of the proposed rule change is available on the Exchange’s Web site at http://nasdaaphlx.chchwallstreet.com, at the principal office of the Exchange,

4 A Complex Order is any order involving the simultaneous purchase and/or sale of two or more different options series in the same underlying security, priced at a net debit or credit based on the relative prices of the individual components, for the same account, for the purpose of executing a particular investment strategy. Furthermore, a Complex Order can also be a stock-option order, which is an order to buy or sell a stated number of units of an underlying stock or ETF coupled with the purchase or sale of options contract(s). See Rule 1098.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.6

Brent J. Fields, Secretary.

[FR Doc. 2017–08055 Filed 4–20–17; 8:45 am]
BILLING CODE 8011–01–P
II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

1. Purpose

The purpose of the proposed rule change is to amend the Pricing Schedule: (i) At Section B to create an additional incentive to encourage market participants to send Customer Complex Order flow to Phlx; and (ii) at Section II to adopt certain surcharges for electronically-delivered Complex Orders so that the Exchange may pay increased Customer Rebates. Each of the proposed amendments is discussed in greater detail below.

Customer Rebate Program

The Exchange proposes to amend Section B, entitled “Customer Rebate Program,” to amend Category C and add a new Category D to continue existing incentives to direct Customer Complex Order flow to the Exchange and create additional incentives. Currently, the Exchange has a Customer Rebate Program consisting of the following five tiers that pay Customer rebates on three Categories, A, B, and C, of transactions:

<table>
<thead>
<tr>
<th>Tier</th>
<th>Rebate Criteria</th>
<th>Category A</th>
<th>Category B</th>
<th>Category C</th>

Customer PIXL Orders are capped at 4,000 contracts per order leg for Complex PIXL Orders, but will continue to cap them for Simple PIXL Orders as noted in Category B.

Rebates on Non-Penny Pilot Options in Section II symbols, which are proposed to be subject to the proposed Category D rebate. For Category C, rebates will continue to be paid on Customer PIXL, Complex Orders in Section II symbols that execute against non-Initiating Order interest.

Customer Complex PIXL Orders that execute against a Complex PIXL Initiating Order will continue to not be paid a Category C rebate under any circumstances. The Category C rebate will continue to not be paid when an electronically-delivered Customer Complex Order, including Customer Complex PIXL Order, executes against another electronically-delivered Customer Complex Order. The Exchange proposes to no longer cap rebates on Customer PIXL Orders at 4,000 contracts per order leg for Orders that execute against a Complex PIXL Initiating Order are not paid a rebate under any circumstances. The Category C Rebate is not paid when an electronically-delivered Customer Complex Order, including Customer Complex PIXL Order, executes against another electronically-delivered Customer Complex Order.

The Exchange proposes to amend Category C by decreasing the Tier 2 rebate from $0.17 to $0.16 per contract and increasing the Tier 3 rebate from $0.17 to $0.18 per contract. The Category C rebates will continue to be paid on electronically-delivered Customer Complex Orders in Penny Pilot Options, but will no longer be paid on Non-Penny Pilot Options in Section II symbols.

The Exchange proposes to amend Category C by decreasing the Tier 2 rebate from $0.17 to $0.16 per contract and increasing the Tier 3 rebate from $0.17 to $0.18 per contract. The Category C rebates will continue to be paid on electronically-delivered Customer Complex Orders in Penny Pilot Options, but will no longer be paid on Non-Penny Pilot Options in Section II symbols.

The Exchange proposes to amend Category C by decreasing the Tier 2 rebate from $0.17 to $0.16 per contract and increasing the Tier 3 rebate from $0.17 to $0.18 per contract. The Category C rebates will continue to be paid on electronically-delivered Customer Complex Orders in Penny Pilot Options, but will no longer be paid on Non-Penny Pilot Options in Section II symbols.
will not be paid when an electronically-delivered Customer Complex Order, including a Customer Complex PIXL Order, executes against another electronically-delivered Customer Complex Order.

The Exchange proposes to adopt a new Category D rebate which will be paid to members executing electronically-delivered Customer Complex Orders in Non-Penny Pilot Options in Section II symbols. Rebates will be paid on Customer PIXL Complex Orders in Section II symbols that execute against an Initiating Order interest. Customer Complex PIXL Orders that execute against a Complex PIXL Initiating Order will not be paid a rebate under any circumstances. The Category D Rebate will not be paid when an electronically-delivered Customer Complex Order, including a Customer Complex PIXL Order, executes against another electronically-delivered Customer Complex Order. The Exchange will pay no Tier 1 Category D rebate. The Exchange will pay a $0.21 per contract Category 2 rebate. The Exchange will pay a $0.22 per contract Tier 3 Category D rebate. The Exchange will pay a $0.26 per contract Tier 4 Category D rebate. The Exchange will pay a $0.27 per contract Tier 5 Category D rebate. Today, rebates are not paid on NDX and MNX contracts in any Category, however NDX and MNX contracts count toward the volume requirements to qualify for a Customer Rebate Tier. This will continue to be the case.

Today, the Exchange pays a $0.02 per contract Category A and B rebate and a $0.03 per contract Category C rebate in addition to the applicable Tier 2 and 3 rebate, provided the Specialist, Market Maker or Appointed Specialist and Market Maker has reached the Monthly Market Maker Cap as defined in Section II, to: (1) A Specialist or Market Maker who is not under Common Ownership; or (2) an OFP member or member organization affiliate under Common Ownership; or (3) an Appointed OFP of an Affiliated Entity.

MM has reached the Monthly Market Maker Cap as defined in Section II, to: (1) A Specialist or Market Maker who is not under Common Ownership; or (2) an OFP member or member organization affiliate under Common Ownership; or (3) an Appointed OFP of an Affiliated Entity.

Today, the Exchange pays a $0.05 per contract Category C rebate in addition to the applicable Tier 2 and 3 rebates to members or member organizations or member or member organization affiliate under Common Ownership provided the member or member organization qualified for a Tier 1 or 2 MARS Payments in Section IV, Part E. The Exchange is proposing to expand this additional rebate to apply the $0.05 per contract rebate to Category D and also expand the applicable Tiers from 2 to 3 to Tiers 2, 3, 4 or 5 rebate tiers

---

12 The term “Specialist” shall apply to the account of a Specialist (as defined in Exchange Rule 1064(a)). A Specialist is an Exchange member who is registered as an options specialist pursuant to Rule 501(a). An options Specialist includes a Remote Specialist which is defined as an options specialist in one or more classes that does not have a physical presence on an Exchange floor and is approved by the Exchange pursuant to Rule 501.

13 The term “Market Maker” describes fees and rebates paid to eligible Options Traders (“ROTs”), Streaming Quote Traders (“SQTs”), Remote Streaming Quote Traders (“RSQTs”), and Appointed OFP Members (“OFPs”). A ROT is defined in Exchange Rule 1014(b)(ii)(A) as an ROT which has received permission from the Exchange to trade in options electronically in options to which such SQT is assigned. An RSQT is defined in Exchange Rule 1014(b)(ii)(B) as an ROT that is a member affiliated with an RSQTO with no physical trading floor presence who has received permission from the Exchange to generate and submit option quotations electronically in options to which such RSQT has been assigned. A Remote Streaming Quote Trader Organization or “RSQTO,” which may also be referred to as a Remote Market Making Organization (“RMO”), is a member organization in good standing that satisfies the RSQTO readiness requirements in Rule 507(a), RSQTOs may also be referred to as Remote Market Markers (“RMMs”).

14 An Appointed MM is a Phlx Market Maker or Specialist who has been appointed by an Order Flow Provider (“OPF”) for purposes of qualifying as an Affiliated Entity. An OPF is a member or member organization that submits orders, as agent or principal, to the Exchange.

15 Specialists and Market Makers are subject to a “Monthly Market Maker Cap” of $500,000 for: (i) Electronic and Floor Option Transaction Charges; (ii) FCC Transaction Fees (as defined in Exchange Rule 1088(o) and Floor FCC Orders, as defined in 1064(o)); and (iii) an order or quote that is contra to a PIXL Order or specifically responding to a PIXL auction. The trading activity of separate Specialist and Market Maker member organizations is aggregated in calculating the Monthly Market Maker Cap if there is Common Ownership between the member organizations. All dividend, merger, short stock interest, reversal and order removing liquidity.

16 An Appointed MM is a Phlx Market Maker or Specialist who has been appointed by an Order Flow Provider (“OPF”) for purposes of qualifying as an Affiliated Entity. An OPF is a member or member organization that submits orders, as agent or principal, to the Exchange.

17 The term “Common Ownership” shall mean members or member organizations under 75% common ownership or control.

18 Today, Phlx members that have System Eligibility, as described in Section IV, Part E, and have executed the requisite number of Eligible Contracts, as described in Section IV, Part E, in a month will be paid per contract rebates based on a 4 tier structure which pays a certain MARS Payment based on Average Daily Volume.
The Exchange believes that its proposal to amend its Pricing Schedule is consistent with Section 6(b)(5) of the Act, in general, and furthers the objectives of Section 6(b)(4) and (b)(5) of the Act, in particular, in that it provides for the equitable allocation of reasonable dues, fees and other charges among members and issuers and other persons using its facilities, and is not designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

The Commission and the courts have repeatedly expressed their preference for competition over regulatory intervention in determining prices, products, and services in the securities markets. In Regulation NMS, while adopting a series of steps to improve the current market model, the Commission highlighted the importance of market forces in determining prices and SRO revenues and, also, recognized that current regulation of the market system “has been remarkably successful in promoting market competition in its broader forms that are most important to investors and listed companies.”21 Likewise, in NetCoalition v. Securities and Exchange Commission,22 (“NetCoalition”) the D.C. Circuit upheld the Commission’s use of a market-based approach in evaluating the fairness of market data fees against a challenge claiming that Congress mandated a cost-based approach.23 As the court emphasized, the Commission “intended in Regulation NMS that ‘market forces, rather than regulatory requirements’ play a role in determining the market data . . . to be made available to investors and at what cost.”24 Further, “[n]o one disputes that competition for order flow is ‘fierce.’ . . . As the SEC explained, ‘[i]n the U.S. national market system, buyers and sellers of securities, and the broker-dealers that act as their order-routing agents, have a wide range of choices of where to route orders for execution’; and ‘no exchange can afford to take its market share percentages for granted’ because ‘no exchange possesses a monopoly, regulatory or otherwise, in the execution of order flow from broker dealers.’ . . .”25 Although the court and the SEC were discussing the cash equities markets, the Exchange believes that these views apply with equal force to the options markets.

Customer Rebates
The Exchange’s proposal to amend Section B, entitled “Customer Rebate Program,” to amend Category C and add a new Category D is reasonable because today the Exchange pays a Customer Complex Order rebate on both Penny and Non-Penny Pilot Options. The Exchange will continue to pay rebates for both Penny and Non-Penny Pilot Options, but will amend the rebates paid for Non-Penny Pilot Options as proposed for Category D. The Exchange notes that today it assesses different fees for Penny and Non-Penny Pilot Options.26 The Exchange’s proposal to amend Section B, entitled “Customer Rebate Program,” to amend Category C and add a new Category D is equitable and not unfairly discriminatory because the Exchange will uniformly pay Customer rebates to all qualifying market participants. Any market participant may qualify for a Customer Rebate.

With respect to the proposed rebates for Category D, the Exchange believes that it is reasonable to pay no rebate for Tier 1, which has a National Customer Volume requirement between 0.00%–0.60%, because no other Category pays a rebate for this level of volume. The Exchange believes that it is reasonable to pay the proposed Tier 2 through 5 rebates,27 progressively higher rebates which are commensurate with the increased National Customer Volume requirement for each Tier.

With respect to the proposed rebates for Category D, the Exchange believes the proposed rebates are equitable and not unfairly discriminatory because the Exchange will uniformly pay Customer rebates to all qualifying market participants. Any market participant may qualify for a Customer Rebate.

The Exchange’s proposal to no longer cap rebates on Customer PIXL Orders at 4,000 contracts per order leg for Complex PIXL Orders is reasonable because the Exchange will potentially attract a greater amount of Customer liquidity to the Exchange without a cap. Customer orders bring valuable liquidity to the market which liquidity benefits other market participants. Customer liquidity benefits all market participants by providing more trading opportunities, which attracts Specialists and Market Makers. An increase in the activity of these market participants in turn facilitates tighter spreads, which may cause an additional corresponding increase in order flow from other market participants.

The Exchange’s proposal to no longer cap rebates on Customer PIXL Orders at 4,000 contracts per order leg for Complex PIXL Orders is equitable and not unfairly discriminatory because the Exchange will uniformly not cap Category C rebates for any market participant.

The Exchange’s proposal to structure the Category D rebate similar to the Category C rebate is reasonable because today, electronically-delivered Customer Complex Orders in Non-Penny Pilot Options in Section II symbols, will be [sic] subject to the same terms. Rebates will continue to be paid on Customer PIXL Complex Orders in Section II symbols that execute

22 15 U.S.C. 78f(b)[4], [5].
24 NetCoalition v. SEC, 615 F.3d 525 (D.C. Cir. 2010).
25 See id. at 534–535.
26 See id. at 537.
28 See Section II of the Pricing Schedule.
29 The National Customer Volume would be in Multi-Listed Equity and ETF Options Classes, excluding SPY Options, on a monthly basis.
against non-Initiating Order interest. Customer Complex PIXL orders that execute against a Complex PIXL Initiating Order will continue to not be paid a rebate under any circumstances. The Category D Rebate will continue to not be paid when an electronically-delivered Customer Complex Order, including a Customer Complex PIXL Order, executes against another electronically-delivered Customer Complex Order. Also, the Exchange is proposing to remove the 4,000 contracts per order cap, as noted above, for the Category C rebates and the cap will not be applicable for the Category D rebates.

The Exchange’s proposal to structure the Category D rebate similar to the Category C rebate is equitable and not unfairly discriminatory because the Exchange will uniformly apply the Category D rebates to all market participants.

The Exchange’s proposal to pay a $0.03 per contract Category D rebate, in addition to the applicable Tier 2 and 3 rebates, provided the Specialist, Market Maker or Appointed MM has reached the Monthly Market Maker Cap as defined in Section II, to: (1) A Specialist or Market Maker who is not under Common Ownership or is not a party of an Affiliated Entity; or (2) an OFP member or member organization affiliate under Common Ownership; or (3) an Appointed OFP of an Affiliated Entity is reasonable. Today, market participants sending electronically-delivered Customer Complex Orders in Non-Penny Pilot Options in Section II symbols are paid the $0.03 per contract rebate in addition to the Tier 2 and 3 rebate in Category C, provided the requirements are met. The Exchange believes it is reasonable to continue to pay this additional rebate provide [sic] the requirements are met.

The Exchange’s proposal to pay a $0.03 per contract Category D rebate, in addition to the applicable Tier 2 and 3 rebates, provided the Specialist, Market Maker or Appointed MM has reached the Monthly Market Maker Cap as defined in Section II, to: (1) A Specialist or Market Maker who is not under Common Ownership or is not a party of an Affiliated Entity; or (2) an OFP member or member organization affiliate under Common Ownership; or (3) an Appointed OFP of an Affiliated Entity is equitable and not unfairly discriminatory. The Exchange will uniformly pay the additional $0.03 rebate in addition to the Tier 2 and 3 Category D rebates to all qualifying market participants. Any market participant may quality for a Customer Rebate.

The Exchange’s proposal to amend the manner in which the Exchange pays the $0.05 per contract rebate on electronically-delivered Customer Complex Orders in Non-Penny Pilot Options is reasonable. Today, electronically-delivered Customer Complex Orders in Non-Penny Pilot Options are paid a $0.05 per contract rebate in addition to the applicable Tier 2 and 3 rebates to members or member organizations or member or member organization affiliated under Common Ownership, provided the member or member organization qualified for a Tier 1 or 2 MARS Payment in Section IV, Part E. The Exchange proposes, with respect to both Category C and D, to expand the applicable tiers from only Tiers 2 and 3 to Tiers 2, 3, 4 or 5. This is reasonable because it will allow additional market participants to take advantage of the additional rebate, provided the requirements are met. Also, the Exchange’s proposal to expand the MARS qualification from Tiers 1 and 2 to any MARS Payments is reasonable because it will allow additional market participants to take advantage of the additional rebate.

The Exchange’s proposal to amend the manner in which the Exchange pays the $0.05 per contract rebate on electronically-delivered Customer Complex Orders in Non-Penny Pilot Options is equitable and not unreasonably discriminatory because the Exchange will uniformly pay the additional $0.05 rebate to the applicable expanded rebate tiers and MARS tiers provided the market participant qualifies. Any market participant may qualify for a Customer Rebate.

Multiply Listed Options

The Exchange’s proposal to adopt a surcharge of $0.03 per contract on electronic Complex Orders that remove liquidity from the Complex Order Book and auctions, excluding PIXL, in Penny Pilot Options, excluding SPY and a surcharge of $0.10 per contract on electronic Complex Orders that remove liquidity from the Complex Order Book and auctions, excluding PIXL, in Penny Pilot Options, excluding NDX and MXN is reasonable and not unfairly discriminatory because the symbols are currently subject to a surcharge.

The Exchange’s proposal to adopt a surcharge of $0.03 per contract on electronic Complex Orders that remove liquidity from the Complex Order Book and auctions, excluding PIXL, in Penny Pilot Options, excluding SPY and a surcharge of $0.10 per contract on electronic Complex Orders that remove liquidity from the Complex Order Book and auctions, excluding PIXL, in Penny Pilot Options, excluding NDX and MXN is reasonable because these symbols are currently subject to a surcharge.

The Exchange’s proposal to amend the rule text to make clear that surcharges are not subject to the Monthly Market Maker Cap is reasonable because today, the Exchange does not count surcharges for BKX, NDX and MNX toward the Monthly Market Maker Cap, only Options Transaction Charges.

The Exchange’s proposal to amend the rule text to make clear that surcharges are not subject to the Monthly Market Maker Cap is equitable and not unfairly discriminatory because all Specialists and Market Makers will be uniformly applied the cap. Specialists and Market Makers have obligations to the market and regulatory requirements, which normally do not

---

29 Today, Phlx members that have System Eligibility, as described in Section IV, Part E, and have executed the requisite number of Eligible Contracts, as described in Section IV, Part E, in a month will be paid per contract rebates based on a 4 tier structure which pays a certain MARS Payment based on Average Daily Volume.

30 See Section IV, Part A of the Pricing Schedule.

31 See Section I of the Pricing Schedule.

32 See Section II of the Pricing Schedule.
apply to other market participants.33 They have obligations to make continuous markets, engage in a course of dealings reasonably calculated to contribute to the maintenance of a fair and orderly market, and not make bids or offers or enter into transactions that are inconsistent with a course of dealings. The differentiation as between Specialists and Market Makers and all other market participants recognizes the differing contributions made to the liquidity and trading environment on the Exchange by these market participants. An increase in the activity of these market participants in turn facilitates tighter spreads, which may cause an additional corresponding increase in order flow from other market participants. For these reasons, the Exchange believes that it is equitable and not unfairly discriminatory for Specialists and Market Makers to cap fees.

B. Self-Regulatory Organization’s Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. In terms of inter-market competition, the Exchange notes that it operates in a highly competitive market in which market participants can readily favor competing venues if they deem fee levels at a particular venue to be excessive, or rebate opportunities available at other venues to be more favorable. In such an environment, the Exchange must continually adjust its fees to remain competitive with other exchanges and with alternative trading systems that have been exempted from compliance with the statutory standards applicable to exchanges. Because competitors are free to modify their own fees in response, and because market participants may readily adjust their order routing practices, the Exchange believes that the degree to which fee changes in this market may impose any burden on competition is extremely limited.

In sum, if the changes proposed herein are unattractive to market participants, it is likely that the Exchange will lose market share as a result. Accordingly, the Exchange does not believe that the proposed changes will impair the ability of members or competing order execution venues to maintain their competitive standing in the financial markets.

Customer Rebates

The Exchange’s proposal to amend Section B, entitled “Customer Rebate Program,” to amend Category C and add a new Category D does not impose an undue burden on intra-market competition because the Exchange will uniformly pay Customer rebates to all qualifying market participants. Any market participant may qualify for a Customer Rebate.

With respect to the Tier 2 Category C rebate, which is decreased from $0.17 to $0.16 per contract, and the Tier 3 Category C rebate, which is increased from $0.17 to $0.18 per contract, the Exchange believes that these proposed changes do not impose an undue burden on intra-market competition because the Exchange will uniformly pay Customer rebates to all qualifying market participants. Any market participant may qualify for a Customer Rebate.

With respect to the proposed rebates for Category D, the Exchange believes the proposed rebates do not impose an undue burden on intra-market competition because the Exchange will uniformly pay Customer rebates to all qualifying market participants. Any market participant may qualify for a Customer Rebate.

The Exchange’s proposal to no longer cap rebates on Customer PIXL Orders at 4,000 contracts per order leg for Complex PIXL Orders does not impose an undue burden on intra-market competition because the Exchange will uniformly apply the Category D rebates for any market participant.

The Exchange proposal’s to structure the Category D rebate similar to the Category C rebate does not impose an undue burden on intra-market competition because the Exchange will uniformly apply the Category D rebates to all market participants.

The Exchange’s proposal to pay a $0.03 per contract Category D rebate addition to the applicable Tier 2 and 3 rebate, provided the Specialist, Market Maker or Appointed MM has reached the Monthly Market Maker Cap as defined in Section II, to: (1) A Specialist or Market Maker who is not under Common Ownership or is not a party of an Affiliated Entity; or (2) an OFP member or member organization affiliate under Common Ownership; or (3) an Appointed OFP of an Affiliated Entity does not impose an undue burden on intra-market competition. The Exchange will uniformly pay the additional $0.03 rebate in addition to the Tier 2 and 3 Category D rebates to all qualifying market participants. Any market participant may qualify for a Customer Rebate.

The Exchange’s proposal to amend the manner in which the Exchange pays the $0.05 per contract rebate on electronically-delivered Customer Complex Orders in Non-Penny Pilot Options does not impose an undue burden on intra-market competition because the Exchange will uniformly pay the additional $0.05 rebate to the applicable expanded rebate and MARS tiers, provided the market participant qualifies. Any market participant may qualify for a Customer Rebate.

Multiply Listed Options

The Exchange’s proposal to adopt a surcharge of $0.03 per contract on electronic Complex Orders that remove liquidity from the Complex Order Book and auctions, excluding PIXL, in Penny Pilot Options, excluding SPY and a surcharge of $0.10 per contract on electronic Complex Orders that remove liquidity from the Complex Order Book and auctions, excluding PIXL, in Non-Penny Pilot Options, excluding NDX and MNX does not impose on intra-market competition because the surcharges will be applied uniformly to all market participants.

The Exchange’s proposal to amend the rule text to make clear that surcharges are not subject to the Monthly Market Maker Cap does not impose on intra-market competition because the all Specialists and Market Makers will be uniformly applied the cap. Specialists and Market Makers have obligations to the market and regulatory requirements, which normally do not apply to other market participants.34 They have obligations to make continuous markets, engage in a course of dealings reasonably calculated to contribute to the maintenance of a fair and orderly market, and not make bids or offers or enter into transactions that are inconsistent with a course of dealings. The differentiation as between Specialists and Market Makers and all other market participants recognizes the differing contributions made to the liquidity and trading environment on the Exchange by these market participants. An increase in the activity of these market participants in turn facilitates tighter spreads, which may cause an additional corresponding increase in order flow from other market participants. For these reasons, the Exchange believes that it is equitable and not unfairly discriminatory for Specialists and Market Makers to cap fees.

33 See Rule 1014 titled “Obligations and Restrictions Applicable to Specialists and Registered Options Traders.”

34 See Rule 1014 titled “Obligations and Restrictions Applicable to Specialists and Registered Options Traders.”
G. Self-Regulatory Organization’s Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A)(ii) of the Act.35 At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is: (i) Necessary or appropriate in the public interest; (ii) for the protection of investors; or (iii) otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

Electronic Comments

- Use the Commission’s Internet comment form (http://www.sec.gov/rules/sro.shtml); or
- Send an email to rule-comments@sec.gov. Please include File Number SR–Phlx–2017–29 on the subject line.

Paper Comments

- Send paper comments in triplicate to Secretary, Securities and Exchange Commission, 100 F Street NE., Washington, DC 20549—1090. All submissions should refer to File Number SR–Phlx–2017–29. If an email is used, the subject line should include File Number SR–Phlx–2017–29. Submissions should refer to File Number SR–Phlx–2017–29, and should be submitted on or before May 12, 2017.

For the Commission, by the Division of Trading and Markets, pursuant to delegated authority.36

Brent J. Fields,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; C2 Options Exchange, Incorporated; Notice of Filing and Immediate Effectiveness of a Proposed Rule To Amend the Fees Schedule

April 17, 2017.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934,1 and Rule 19b–4 thereunder,2 notice is hereby given that on April 13, 2017, C2 Options Exchange, Incorporated (“Exchange” or “C2”) filed with the Securities and Exchange Commission (“Commission”) the proposed rule change as described in Items I and II below, which items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend its Fees Schedule.3 Specifically, the Exchange is eliminating certain fees relating to the PULSe workstation. By way of background, the PULSe workstation is a front-end order entry system designed for use with respect to orders that may be sent to the trading systems of the Exchange. Trading Permit Holders (“TPHs”) may also make workstations available to their customers, which may include TPHs, non-broker dealer public customers and non-TPH broker dealers.

The Exchange first proposes to eliminate the Away-Market Routing Intermediary fee. This fee is payable by a Routing Intermediary and only applicable for away-market routing from any PULSe workstation for which it serves as the Routing Intermediary. The fee is $0.02 per contract or share equivalent for the first million contracts or share equivalent executed in a month for executions on all away markets aggregated across all such PULSe workstations, and $0.03 per contract or share equivalent for each additional contract or share equivalent executed in the same month on all away markets.

The Exchange also proposes to eliminate the C2 Routing fee. The C2 Routing fee is payable by a TPH and only applicable for routing to C2 from non-TPH PULSe workstations made available by the TPH. The fee is $0.02.

II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend its Fees Schedule.3 Specifically, the Exchange is eliminating certain fees relating to the PULSe workstation. By way of background, the PULSe workstation is a front-end order entry system designed for use with respect to orders that may be sent to the trading systems of the Exchange. Trading Permit Holders (“TPHs”) may also make workstations available to their customers, which may include TPHs, non-broker dealer public customers and non-TPH broker dealers.

The Exchange first proposes to eliminate the Away-Market Routing Intermediary fee. This fee is payable by a Routing Intermediary and only applicable for away-market routing from any PULSe workstation for which it serves as the Routing Intermediary. The fee is $0.02 per contract or share equivalent for the first million contracts or share equivalent executed in a month for executions on all away markets aggregated across all such PULSe workstations, and $0.03 per contract or share equivalent for each additional contract or share equivalent executed in the same month on all away markets.

The Exchange also proposes to eliminate the C2 Routing fee. The C2 Routing fee is payable by a TPH and only applicable for routing to C2 from non-TPH PULSe workstations made available by the TPH. The fee is $0.02.
