Federal Motor Carrier Safety Administration

[Docket No. FMCSA–2010–0177]

Parts and Accessories Necessary for Safe Operation; Exemption Renewal for the Flatbed Carrier Safety Group

**AGENCY:** Federal Motor Carrier Safety Administration (FMCSA), DOT.

**ACTION:** Notice of renewal of exemption; request for comments.

**SUMMARY:** FMCSA renews the Flatbed Carrier Safety Group’s (FCSG) exemption which allows the securement of metal coils on a flatbed vehicle, in a sided vehicle, or in an intermodal container loaded with eyes crosswise, grouped in rows, in which the coils are loaded to contact each other in the longitudinal direction. Motor carriers may continue to use the pre-January 1, 2004, cargo securement regulations for the transportation of groups of metal coils with eyes crosswise, as this loading configuration is not currently covered under the Agency’s commodity-specific rules for securing metal coils in 49 CFR 393.120. The Agency has concluded that granting this exemption renewal will maintain a level of safety that is equivalent to, or greater than, the level of safety achieved without the exemption.

**DATES:** This decision is effective April 21, 2017. Comments on the decision must be received on or before May 22, 2017.
