

Tariff Schedule of the United States (“HTSUS”) under subheading 7405.00.1000. This HTSUS subheading is provided for convenience and customs purposes; the written description of the scope of the order is dispositive.

Antidumping Duty Order

On April 17, 2017, in accordance with sections 735(b)(1)(A)(i) and 735(d) of the Act, the ITC notified the Department of its final determination in this investigation, in which it found that imports of phosphor copper from Korea are materially injuring a U.S. industry.⁴ Therefore, in accordance with section 735(c)(2) of the Act, we are publishing this antidumping duty order.

Because the ITC determined that imports of phosphor copper from Korea are materially injuring a U.S. industry, unliquidated entries of such merchandise from Korea, entered or withdrawn for consumption, are subject to the assessment of antidumping duties.

Therefore, in accordance with section 736(a)(1) of the Act, the Department will direct U.S. Customs and Border Protection (“CBP”) to assess, upon further instruction by the Department, antidumping duties equal to the amount by which the normal value of the merchandise exceeds the export price (or constructed export price) of the merchandise, for all relevant entries of phosphor copper from Korea. Antidumping duties will be assessed on unliquidated entries of phosphor copper entered, or withdrawn from warehouse, for consumption on or after October 14, 2016, the date on which the Department published the *Preliminary Determination*,⁵ but will not include entries occurring after the expiration of the provisional measures period and before publication of the ITC’s final injury determination, as further described below.

Continuation of Suspension of Liquidation

In accordance with section 735(c)(1)(B) of the Act, we will instruct CBP to continue to suspend liquidation on entries of subject merchandise from Korea. These instructions suspending liquidation will remain in effect until further notice.

We will also instruct CBP to require cash deposits equal to the estimated

weighted-average dumping margins indicated in the chart below.

Accordingly, effective on the date of publication of the ITC’s final affirmative injury determination, CBP will require, at the same time as importers would normally deposit estimated duties on this subject merchandise, a cash deposit at the rates listed below.⁶ The “all others” rate applies to all producers or exporters not specifically listed.

Provisional Measures

Section 733(d) of the Act states that instructions issued pursuant to an affirmative preliminary determination may not remain in effect for more than four months, except where exporters representing a significant proportion of exports of the subject merchandise request the Department to extend that four-month period to no more than six months. At the request of Bongsan Co., Ltd., the sole mandatory respondent in this investigation, the Department extended the four-month period to six months.⁷ In the underlying investigation, the Department published the *Preliminary Determination* on October 14, 2016.⁸ Therefore, the six-month period beginning on the date of the publication of the *Preliminary Determination* ended on April 11, 2017. Furthermore, section 737(b) of the Act states that definitive duties are to begin on the date of publication of the ITC’s final injury determination.

Therefore, in accordance with section 733(d) of the Act and our practice, we will instruct CBP to terminate the suspension of liquidation and to liquidate, without regard to antidumping duties, unliquidated entries of phosphor copper entered, or withdrawn from warehouse, for consumption after April 11, 2017, the date the provisional measures expired, and through the day preceding the date of publication of the ITC’s final injury determination in the **Federal Register**.

Estimated Weighted-Average Dumping Margins

The Department determines that the estimated final weighted-average dumping margins are as follows:

Exporter/producer	Weighted-Average dumping margin (percent)
Bongsan Co., Ltd.	8.43
All Others	8.43
