Week of May 15, 2017—Tentative

There are no meetings scheduled for the week of May 15, 2017.

Week of May 22, 2017—Tentative

There are no meetings scheduled for the week of May 22, 2017.

Week of May 29, 2017—Tentative

There are no meetings scheduled for the week of May 29, 2017.* * * * *

The schedule for Commission meetings is subject to change on short notice. For more information or to verify the status of meetings, contact Denise McGovern at 301–415–0681 or via email at Denise.McGovern@nrc.gov.

The NRC provides reasonable accommodation to individuals with disabilities where appropriate. If you need a reasonable accommodation to participate in these public meetings, or need this meeting notice or the transcript or other information from the public meetings in another format (e.g., braille, large print), please notify Kimberly Meyer, NRC Disability Program Manager, at 301–287–0739, by videophone at 240–428–3217, or by email at Kimberly.Meyer-Chambers@nrc.gov. Determinations on requests for reasonable accommodation will be made on a case-by-case basis. * * * * *

Members of the public may request to receive this information electronically. If you would like to be added to the distribution, please contact the Nuclear Regulatory Commission, Office of the Secretary, Washington, DC 20555 (301–415–1969), or email Brenda.Akstulewicz@nrc.gov or Patricia.Jimenez@nrc.gov.

Glenn Ellmers,
Policy Coordinator, Office of the Secretary.
[FR Doc. 2017–08381 Filed 4–20–17; 4:15 pm]
BILLING CODE 7590–01–P

I. Introduction

The NRC received, by letter dated February 15, 2017 (ADAMS Accession No. ML17046A072, as supplemented March 9, 2017, ADAMS Accession No. ML17072A381) GEH’s license amendment request (LAR) No. 15 for Materials License No. SNM–2500 (LAR 2500–15) for the GEH Facility at Morris, Illinois in accordance with 10 CFR 72.56. The amendment, if approved, would provide clarifying administrative changes to the current SNM 2500 license. The proposed changes add descriptions of authorized materials and physical forms currently onsite in order to be consistent with the approved Consolidated Safety Analysis Report (CSAR) sections. The amendment requests no changes in the scope or type of operations presently authorized by the license.

An NRC administrative completeness review found the application acceptable for a technical review (ADAMS Accession No. ML17086A009). Prior to approving LAR 2500–15, the NRC will need to make the findings required by the Atomic Energy Act of 1954 as amended (the Act), and the NRC’s regulations. The NRC’s findings will be documented in a safety evaluation report and an environmental assessment. The environmental assessment will be the subject of a subsequent notice in the Federal Register.

II. Opportunity To Request a Hearing and Petition for Leave To Intervene

Within 60 days after the date of publication of this notice, any persons (petitioner) whose interest may be affected by this action may file a request for a hearing and petition for leave to intervene (petition) with respect to the action. Petitions shall be filed in accordance with the Commission’s “Agency Rules of Practice and Procedure” in 10 CFR part 2. Interested persons should consult a current copy of 10 CFR 2.309. The NRC’s regulations are accessible electronically from the NRC Library on the NRC’s Web site at http://www.nrc.gov/reading-rm/doc-collections/cfr/. Alternatively, a copy of the regulations is available at the NRC’s Public Document Room, located at One White Flint North, Room O1–F21, 11555 Rockville Pike, Rockville, Maryland 20852.

SUPPLEMENTARY INFORMATION:

ACTION: License amendment application; opportunity to request a hearing and to petition for leave to intervene.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) received an application from GE-Hitachi Nuclear Energy, LLC (GEH) for an amendment to Materials License No. SNM–2500, which authorizes the storage of spent nuclear fuel and associated liquid and solid waste treatment products. The amendment would revise the license to provide clarifying administrative changes related to the specific storage of liquid and solid waste treatment products allowed to be at the site.

DATES: A request for a hearing or petition for leave to intervene must be filed by June 23, 2017.

ADDRESSES: Please refer to Docket ID NRC–2017–0103 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

• Federal Rulemaking Web site: Go to http://www.regulations.gov and search for Docket ID NRC–2017–0103. Address questions about NRC dockets to Carol Gallagher; telephone: 301–415–3463; email: Carol.Gallagher@nrc.gov. For technical questions, contact the individual listed in the FOR FURTHER INFORMATION CONTACT section of this document.

• NRC’s Agencywide Documents Access and Management System (ADAMS): You may obtain publicly-available documents online in the ADAMS Public Documents collection at http://www.nrc.gov/reading-rm/adams.html. To begin the search, select “ADAMS Public Documents” and then select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that a document is referenced (if it is available in ADAMS).

• NRC’s PDR: You may examine and purchase copies of public documents at the NRC’s PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

As required by 10 CFR 2.309(d), the petition should specifically explain the reasons why intervention should be
permitted with particular reference to the following general requirements for standing: (1) The name, address, and telephone number of the petitioner; (2) the nature of the petitioner’s right under the Act to be made a party to the proceeding; (3) the nature and extent of the petitioner’s property, financial, or other interest in the proceeding; and (4) the possible effect of any decision or order which may be entered in the proceeding on the petitioner’s interest.

In accordance with 10 CFR 2.309(f), the petition must also set forth the specific contentions which the petitioner seeks to have litigated in the proceeding. Each contention must consist of a specific statement of the issue of law or fact to be raised or controverted. In addition, the petitioner must provide a brief explanation of the bases for the contention and a concise statement of the alleged facts or expert opinion which support the contention and on which the petitioner intends to rely in proving the contention at the hearing. The petitioner must also provide references to the specific sources and documents on which the petitioner intends to rely to support its position on the issue. The petition must include sufficient information to show that a genuine dispute exists with the applicant or licensee on a material issue of law or fact. Contentions must be limited to matters within the scope of the proceeding. The contention must be one which, if proven, would entitle the petitioner to relief. A petitioner who fails to satisfy the requirements at 10 CFR 2.309(f) with respect to at least one contention will not be permitted to participate as a party.

Those permitted to intervene become parties to the proceeding, subject to any limitations in the order granting leave to intervene. Parties have the opportunity to participate fully in the conduct of the hearing with respect to resolution of that party’s admitted contentions, including the opportunity to present evidence, consistent with the NRC’s regulations, policies, and procedures. Petitions, motions for leave to file new or amended contentions that are filed after the deadline will not be entertained absent a determination by the presiding officer that the filing demonstrates good cause by satisfying the three factors in 10 CFR 2.309(c)(1)(i) through (iii). The petition must be filed in accordance with the filing instructions in the “Electronic Submissions (E-Filing)’’ section of this document.

To comply with the procedural requirements of E-Filing, at least 10 days prior to the filing deadline, the participant should contact the Office of the Secretary by email at hearing.docket@nrc.gov, or by telephone at 301–415–1677, to (1) request a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign submissions and access the E-Filing system for any proceeding in which it is participating; and (2) advise the Secretary that the participant will be submitting a petition or other adjudicatory document (even in instances in which the participant, or its counsel or representative, already holds an NRC-issued digital ID certificate).

Based upon this information, the Secretary will establish an electronic docket for the hearing in this proceeding if the Secretary has not already established an electronic docket.

Information about applying for a digital ID certificate is available on the NRC’s public Web site at http://www.nrc.gov/site-help/e-submittals/getting-started.html. Once a participant has obtained a digital ID certificate and a docket has been created, the participant can then submit adjudicatory documents. Submissions must be in Portable Document Format (PDF). Additional guidance on PDF submissions is available on the NRC’s public Web site at http://www.nrc.gov/site-help/electronic-sub-ref-mat.html. A filing is considered complete at the time the document is submitted through the NRC’s E-Filing system. To be timely, an electronic filing must be submitted to the E-Filing system no later than 11:59 p.m. Eastern Time on the due date. Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an email notice confirming receipt of the document. The E-Filing system also distributes an email notice that provides access to the document to the NRC’s Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the document on those participants separately. Therefore, applicants and other participants (or their counsel or representative) must apply for and receive a digital ID certificate before adjudicatory documents are filed so that they can obtain access to the documents via the E-Filing system.

A person filing electronically using the NRC’s adjudicatory E-Filing system may seek assistance by contacting the NRC’s Electronic Filing Help Desk through the “Contact Us” link located on the NRC’s public Web site at http://www.nrc.gov/site-help/e/
NUCLEAR REGULATORY COMMISSION
[Docket No. 40–9059; NRC–2017–0105]

Water Remediation Technology LLC

AGENCY: Nuclear Regulatory Commission.

ACTION: License renewal application; opportunity to request a hearing and to petition for leave to intervene.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has received an application from Water Remediation Technology, LLC for renewal of Materials License No. SUC–1591, which authorizes the licensee to offer a water treatment program to remove uranium from drinking water at community water systems. Water Remediation Technology, LLC has also requested authorization to expand the scope of its licensed activities to include treatment of uranium in groundwater and surface water resources not used for drinking water. If approved, the license renewal would allow Water Remediation Technology, LLC to offer water treatment programs to remove uranium from community drinking water systems and water resources not used for drinking water for a 10-year period following renewal and authorization.

DATES: A request for a hearing or petition for leave to intervene must be filed by June 23, 2017.

ADDRESSES: Please refer to Docket ID NRC–2017–0105 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

2. NRC’s Agencywide Documents Access and Management System (ADAMS): You may obtain publicly-available documents online in the ADAMS Public Documents collection at http://www.nrc.gov/reading-rm/adams.html. To begin the search, select “ADAMS Public Documents” and then select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. The ADAMS accession number for each document referenced (if it is available in ADAMS) is provided the first time that it is mentioned in this document.

3. NRC’s PDR: You may examine and purchase copies of public documents at the NRC’s PDR, Room O1–F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

SUPPLEMENTARY INFORMATION:

I. Introduction

By letter dated December 21, 2016, Water Remediation Technology, LLC submitted an application to renew Materials License No. SUC–1591 for a performance-based, multi-site service provider license (ADAMS Accession No. ML16358A447). This license was issued under part 40 of title 10 of the Code of Federal Regulations (10 CFR), “Domestic licensing of source material,” and allows Water Remediation Technology, LLC to utilize its water treatment technology to remove uranium from drinking water treated by community water systems in NRC-regulated States. The license also permits Water Remediation Technology, LLC to possess source material generated from these operations. The license’s current expiration date is January 25, 2017. However, in accordance with 10 CFR 40.42, the existing license will not expire during the pendency of the NRC staff’s review of the renewal application. If granted, the license would be renewed for another 10 years.

In addition to seeking renewal of its existing license for conducting uranium water treatment operations at community water systems, Water Remediation Technology, LLC has...
