Background

The NACTEP, as authorized by section 116 of the Carl D. Perkins Career and Technical Education Act of 2006 (the Act), provides grants to improve career and technical education programs that are consistent with the purposes of the Act and that benefit Native Americans and Alaska Natives. The Act also provides that NACTEP programs should build on the efforts of States and localities to develop challenging academic and technical standards and to assist students in meeting such

standards, including preparation for high-skill, high-wage, or high-demand occupations in emerging or established professions. (20 U.S.C. 2301(1)).

In addition, programs are required to provide technical assistance that promotes leadership, initial preparation, and professional development and improves the quality of career and technical education teachers, faculty, administrators, and counselors. (20 U.S.C. 2301(5)).

Additionally, NACTEP programs generally support partnerships among secondary schools, postsecondary institutions, baccalaureate degree-granting institutions, area career and technical education schools, local workforce investment boards, business and industry, and intermediaries, as well as provide, in conjunction with other education and training programs, individuals with opportunities throughout their lives to develop the knowledge and skills needed to keep the United States competitive. (20 U.S.C. 2301(6) and (7)).

On February 26, 2013, we published in the **Federal Register** (78 FR 13030) a notice inviting applications under NACTEP (2013 NIA), to operate career and technical education programs, as authorized by section 116(a) through (g) of the Act. (20 U.S.C. 2326(a)-(g)).

In FY 2013, the Department funded two-year awards to NACTEP projects that were scheduled to end in FY 2015. On February 10, 2015, we published in the **Federal Register** (80 FR 7439), a proposed waiver and extension of the project period for the NACTEP grants. In that notice, we stated that we did not believe it would be in the public interest to hold a new NACTEP competition in FY 2015, due to the potential for changes in the authorizing legislation for NACTEP beyond 2015, resulting in projects that might then operate for just one year. Following that notice and consideration of the comments received in response to it, on July 6, 2015, we published in the **Federal Register** (80 FR 38440), a notice of final waiver and extension of the project period for the NACTEP, waiving the requirements of 34 CFR 75.261(a) and (c)(2) that generally prohibit project period extensions involving the obligation of additional Federal funds. Therefore, the NACTEP grantees were permitted to request an extension of the project period for up to an additional 24 months.

In this notice, we are proposing to waive the requirements in 34 CFR 75.261(a) and (c)(2) in order to allow the Department to consider current grantee requests to extend the project period for an additional 12 months. Given that
